Making A World Of Difference In Healthcare

Learning Objectives

- Discuss the complexity of dealing with the homeless population in regards to healthcare needs
- Introduce students to cultural issues involved with the Mennonite Community
- How to work effectively with Lesbian, Gay, Bisexual or Transgendered (LGBT) patients whose belief systems may differ from your own
- Describe the Rural Healthcare experience as it pertains to the cultural region of Eastern United States known as Appalachia
- Compare the U.S. Healthcare system with other countries such as Cuba, Iraq, and Somalia. Provide first hand knowledge from professionals currently living in the United States
- Develop an appreciation for the ways in which an Agnostic perspective can be effective in conducting scientific research and in the processes of biomedical science
