Making A World Of Difference In Healthcare

Learning Objectives:

- To understand the history of Acupuncture and how it is used in Western Society
- History, Culture and Healthcare of the Somali-Bantu people
- Introduce students to cultural issues involved with the Mennonite Community
- How to work effectively with Lesbian, Gay, Bisexual or Transgendered (LGBT) patients whose beliefs systems may differ from your own
- HIV/Aids in both Dental and Medical Patients
- Compare the United States Healthcare system with other countries such as Pakistan and the United Kingdom. Provide insight into the wave of new refugees in the Louisville Metro Area.
- Identify areas where Islamic principles could impact the practice of Western medicine on Muslim patients. Develop/evaluate strategies for adjusting current medical protocols to respect Islamic Beliefs.
