Fall 2009 College of Arts & Sciences Proposal Solicitations for Research and Creative Activities

September 2009

Deadline for submission is
4:00 P.M. on Friday, January 15, 2010

Proposal Guidelines:

The College of Arts and Sciences announces funding opportunities to promote research and creative activities of faculty members with the purpose of increasing the extramural research funding, the number of scholarly publications, refereed exhibits, and artistic performances of the college. Any tenured or tenure-track faculty member in the College of Arts and Sciences is eligible, excluding the A&S Associate Dean of Research. The initiative will support proposals that contain any one of the following elements: (i) novel/ground-breaking ideas, (ii) exploratory research in an emerging field or extending the frontiers of an established field, or (iii) inter-disciplinary/collaborative research. The maximum award-size for an individual grant is \$2,000. For inter-disciplinary/collaborative research projects involving more than one A&S investigator, the maximum award amount is \$3,000. Any proposal requesting more than the maximum dollar amounts cited above will be returned without review. Contact LyShanna Cunningham to forward your detailed instructions & application lkcunn01@gwise.louisville.edu

Financial Monthly RECONCILIATIONS

Per University Policy, reconciliations are required to be completed monthly on all grants, and the Principal Investigator must review and approve.

% Effort on Project on PCF

Starting on the right track— New Fiscal Year and Cost Share

Review your grant(s) for any Cost Share Budgets and ensure that FY10 expenses are being posted and that all transfers of funds have occurred prior to the end of each and every Fiscal Year. If you or your staff have any questions, contact Diane Penrod, ext 852-2803, or dmpenr01@gwise.louisville.edu.

The Arts and Sciences Research Office in conjunction with Grants Management, has determined that the most transparent system to use for completing the % Effort on Project line is to divide effort between academic and summer as follows:

% Effort on Project 10% Academic: 100% 2 mos. Summer

This shows that the Investigator is going to spend 10% of his or her time during the Academic Year on the proposed grant, and 100% of his or her time for two summer months for work on this grant.
