Prepare for the visit

- Make a list of the things you want to discuss at your appointment.
- If you don't understand the information the doctor discusses, ask questions.
- Take notes or get someone else to go with you and take notes.
- Ask your doctor to write down instructions.
- Ask your doctor for printed material about your condition or suggestions of where you can get more information.
- Don't forget that other members of your healthcare team, such as nurses and pharmacists, can be good sources of information.
