Accelerating Learning Courseware at Public Research Universities Grant

The grant’s goal is to accelerate and scale the university’s adoption of adaptive courseware across multiple disciplines over three years, 2016-2019.

Adaptive Learning Leadership Initiative

SUPPORT SERVICES FOR FACULTY

We are LIAISONS
- Recommend products based on faculty needs and student learning objectives
- Assist with selection and implementation
- Integrate with Blackboard and Gradebook
- Construct product tests and demonstrations
- Contact product tech support
- Facilitate curricular changes and content development

We are COMMUNICATORS
- Open two-way communication directly with instructors
- Regular and timely updates for instructors, the department, and chairs
- Serve as a point of contact to direct all questions
- Distribute resources
- Connect instructors with other successful instructors in their discipline
- Organize opportunities to meet with other faculty during workshops, lunches, or collaboration sessions

We are IMPLEMENTERS
- Offer turn-key solutions or customized instructor content
- Aid with instructional design
- Provide data entry and proofreading
- Support and Finance Graduate or Undergraduate assistants
- Contact publishers and vendors to stay on instructor’s timeline
- Troubleshoot & solve issues immediately

We are PARTNERS
- Available to contact for any requests
- Frequent check-ins to offer assistance
- Develop training and updated resources
- Design Workshops and opportunities for collaboration, presentation, and professional scholarship
- Offer opportunities for financial support with stipends, travel funds, and supplies

We are NEGOTIATORS
- Negotiate best possible pricing models for students
- Identify ways to lower cost of digital content to students
- Arrange ways to lower textbook costs
- Continually work with vendors for updates keeping costs as low as possible
- Cultivate relationships with external partners to increase sustainability and scaling

We are ANALYSTS
- Run statistics on student performance
- Request data from Institutional Research
- Aid in IRB application if ever necessary
- Monitor course and program analytics
- Collect courseware data
- Provide assistance in courseware analytics and reports
