

Fundamental and Powerful Concept: Building Relationships

For each element of thought, indicate both how you might think about this concept and what Intellectual Standards could be applied.

Purpose	What are we trying to achieve or make happen?	
Evidence / Data	What facts, data or evidence would be appropriate to gather in order to support the relationship?	
Assumptions	What assumptions often occur in this area and how can they impact the success or failure of our efforts?	
Points of View	What are other relevant perspectives that I need to consider?	
Concepts	What are the organizing ideas, theories or principles that influence my thinking in this area?	
Implications/Consequences	What are the consequences of this line of thinking?	
Inferences	What are the connections between this concept and other aspects of the course. What conclusions or solutions can I draw?	
Questions at Issue	What is the central question involved in this concept?	

Team: _____

Fundamental and Powerful Concept: The Discovery Process

For each element of thought, indicate both how you might think about this concept and what Intellectual Standards could be applied.
