

## **What is it?**

Sli.do is a live question/answer session and polling platform. You can create questions and polls for classrooms, meetings or events.

## **How do I get it?**

Set up an account on [www.sli.do](http://www.sli.do)

## **How do I use Sli.do?**

The web based app is accessible on any device that connects to the internet. Students do not have to log in; instead they simply enter an event number and can ask a question, answer a poll, or provide a “thumbs up” to the questions of other students. Responses appear immediately to all users.

## **How can I use Sli.do for classroom instruction?**

You could let your students ask questions from any device and vote for the ones they like the most. Sli.do works well with short or long questions and has no character limitations. The basic service is free; it allows for up to 3 polls and 1,000 users per event.

## **What resources can help me get started?**
