

Sterilizer Monitoring Program

The *University of Louisville Sterilizer Monitoring Program* was established in 1988 and currently serves health care professionals in 30 states. The Program monitors all makes and models of dental and medical sterilizers including steam units such as autoclaves and cassette units; dry heat systems and chemical vapor sterilizers also known as Chemiclaves.

The UofL Sterilizer Monitoring Program offers:

- Weekly Monitoring
- University Based, Independent Verification of Sterility Testing
- Cumulative Written Reports
- Confidential telephone notification of non-sterile results
- Certificate of Participation
- Steam Autoclaves, Dry Heat Units, Chemical Vapor (Chemiclaves)
- Utilizes FDA 510-K approved spore strips
- **1988 prices** — Includes **all weekly monitoring** supplies
 - One Sterilizer \$195/yr. of service.
 - Each Additional Unit \$165/yr. at the same location
- Toll free number for reorders and any questions: 1-800-554-8566
