Your Child’s Early Development is a Journey

Check off the milestones your child has reached and share your child’s progress with the doctor at every visit.

6 MONTHS
- Copies sounds
- Begins to sit without support
- Likes to play with others, especially parents
- Responds to own name
- Strings vowels together when babbling (“ah,” “eh,” “oh”)
- Uses simple gestures such as shaking head for “no” or waving “bye bye”
- Copies gestures
- Responds to simple spoken requests

12 MONTHS (1 YEAR)
- Says “mama” and “dada”
- Pulls up to stand

18 MONTHS (1½ YEARS)
- Plays simple pretend, such as feeding a doll
- Points to show others something interesting
- Knows what ordinary things are for; for example, telephone, brush, spoon
- Plays make-believe with dolls, animals and people
- Shows affection for friends without prompting
- Carries on a conversation using 2 to 3 sentences

2 YEARS
- Follows simple instructions
- Kicks a ball
- Says sentences with 2 to 4 words
- Gets excited when with other children
- Walks alone

3 YEARS
- Copies adults and friends (like running when other children run)
- Carries on a conversation using 2 to 3 sentences
- Climbs well
- Plays make-believe with dolls, animals and people
- Shows affection for friends without prompting

4 YEARS
- Would rather play with other children than alone
- Draws a person with 2 to 4 body parts
- Plays cooperatively

These are just a few of many important milestones to look for. For more complete checklists by age visit www.cdc.gov/ActEarly or call 1-800-CDC-INFO.
The journey of your child's early years includes many developmental milestones for how he or she plays, learns, speaks, and acts.

Look inside to learn what to look for in your child. Talk with your child’s doctor about these milestones.

Not reaching these milestones, or reaching them much later than other children, could be a sign of a developmental delay.

You know your child best.

If you are concerned about your child’s development, talk to your child’s doctor.

If you or the doctor is still concerned, ask the doctor for a referral to a specialist and call 1-800-CDC-INFO to learn how to get connected with your state’s early childhood system to get the help your child might need.

Don’t wait.

Acting early can make a real difference!
