---

WHEREAS the aim of the Student Government Association (SGA) is to promote and protect student rights and responsibilities; improve student physical, social, and cultural welfare; improve the status of students in the University community; and promote diversity and fairness on campus and in the SGA.

WHEREAS the administration, faculty, staff, and students at the University of Louisville consistently support measures to enhance the support of students with families.

WHEREAS, there is a lack of appropriate spaces for individuals who may be breastfeeding.

WHEREAS existing lactation rooms do not provide easily accessible, adequate space, safe, or nurturing environments.

THEREFORE, BE IT RESOLVED, the SGA at the University of Louisville strongly encourages the addition of appropriate, well-advertised lactation rooms to all university instructional buildings to support all students, faculty, staff, and administrators who are also mothers.
