

University of Louisville's Award-Winning Health Management Program

INTERNSHIP OPPORTUNITIES

For students pursuing degrees in Exercise Science, Sport Administration, Public Health, or related disciplines.

Gain professional experience and training in the following areas:

Facility Management

- Learn program planning and evaluation skills
- Conduct fitness assessments and biometric screenings
- Design and support group exercise classes
- Prepare exercise prescriptions for diverse clientele
- Manage administrative processes that support best practice in Facility Mgmt.

Wellness Coaching

- Use wellness coaching skills with UofL employees under faculty supervision
- Participate on a "patient-centered" healthcare team targeting a high risk population
- Practice International Coaching Federation (ICF) core competencies
- Prepare for ACSM-endorsed Wellcoaches® course & certification.

Health Management

- Work with an industry leader to implement best practices in employee health management
- Support fitness and wellness programs to meet campus community needs
- Assist with campus-wide marketing and communication efforts
- Promote community health initiatives (American Heart Association, etc.)
