

Important information for students who were relocated due to high levels of mold in their student residence hall

Reimbursements for housing, meals and parking

Housing - All students who are relocated to a more expensive campus affiliated housing option or placed in a hotel room will not be charged for the difference in housing costs. However, students who choose to return to their family home or move off campus will be refunded part of their housing payment on a pro-rated basis.

Meal Plan – Students who move to another UofL-affiliated student housing unit or placed in a hotel room will be refunded part of their current meal plan prorated for the semester. However, the university is not going to remove the existing meal plan points or flex dollars from the student's account. Students will be able to use the plan on campus. Those who return to a family home or move off campus will be adjusted to a commuter meal plan (\$175 per semester) and receive a credit for the adjustment on a pro-rated basis.

Parking – Since students who have cars will still need a parking pass, students can continue to use their yellow parking permit. Those who wish to exchange their yellow permit for a less expensive purple permit and receive a refund for the difference in cost may do so by contacting University Parking's Doreen Wood at (502) 852-PARK (7275) for assistance.

Laundry – Housing will arrange for students to have access to use campus housing laundry facilities throughout the semester. Watch for details on this in your email account. Housing will help you arrange for laundry pick up, cleaning and return to your new location. You must request this service before October 25, 2012.

Shuttle Services – To help students who were moved to a nearby hotel or to a residence hall that is not located on the main campus, additional shuttle services have been added.
