## MCAT-DAT Review Summer Workshop

### UNIVERSITY OF LOUISVILLE

*Tuesday, June 6 – Friday, June 30, 2017*

---

#### PROGRAM DESCRIPTION AND PURPOSE

The MCAT-DAT Review Summer Workshop is a residential academic enrichment program designed to prepare pre-medical students for the Medical College Admission Test and pre-dental students for the Dental Admission Test. In addition, this program enhances student preparation for the medical school or dental school application process. This program was established to assist in diminishing the number of medically underserved areas in Kentucky by developing more competitive applicants for medical and dental school from those areas. The underlying premise is that such students are more likely to return to their hometowns or similar areas to practice medicine or dentistry, thus helping to eliminate the health professional shortage areas in Kentucky.

#### Students will:

- Attend daily lectures covering exam content areas
- Receive the full Kaplan review course including access to online study materials and resources, additional lectures, and numerous practice questions and full length exams.
- Prepare for the exam and application in a team environment with a large support system
- Be advised on the admissions process, writing the personal statement, and preparing for the interview
- Attend clinical observations in the School of Dentistry Clinic, University Hospital, private medical and dental practices and other health care facilities

#### COST AND RESPONSIBILITIES OF PARTICIPANTS

Housing, transportation and educational materials are provided at **no charge** for applicants who have a family taxable income under \$75,000. Applicants with a family taxable income of or exceeding \$75,000 are required to pay a program fee (refer to the back of the application). Housing is provided, and scholars will receive a stipend to cover meals/groceries. **Students must abide by all rules of the program, including mandatory class and study session attendance. Students are asked not to work or be enrolled in academic courses during the program due to our busy schedule.**

#### ELIGIBILITY

Applicant **must be** a Kentucky resident and a U.S. Citizen or Permanent Resident. Applicant should have a cumulative **and** BCPM (biology, chemistry, physics and math courses) Grade Point Average of **at least 3.0** Applicants should have completed or be currently enrolled in the following courses:

#### PREFERENCE IS GIVEN TO THE FOLLOWING QUALIFIED APPLICANTS:

- An applicant who is from a medically underserved area in Kentucky (listed below)
- An applicant from an ethnic or racial group underrepresented in medicine (see below)

*The Association of American Medical colleges (AAMC) definition of underrepresented in medicine is: "Underrepresented in medicine means those racial and ethnic populations that are underrepresented in the medical profession relative to their numbers in the general population." Before June 26, 2003, the AAMC used the term "underrepresented minority (URM)," which consisted of Blacks, Mexican-Americans, Native Americans (that is American Indians, Alaska Natives and Native Hawaiians), and mainland Puerto Ricans. The AAMC remains committed to ensuring access to medical education and medicine-related careers for individuals from these four historically underrepresented racial/ethnic groups.*

*Information received from [www.aamc.org](http://www.aamc.org).*
