

Socratic Advising

Out of our AIM initiative, a new model of advising (Socratic Advising) has emerged. It teaches students to think, problem solve, and make reasoned decisions. Socratic questioning is used to examine and improve thinking. These are the components coming out of AIM, that when put together, like a puzzle, form Socratic Advising.

- Intrusive Advising
- Teaching & Learning Advising Paradigm
- Critical Thinking
- Counseling Techniques
- Socratic Dialog
