

## Quick Start

1. Turn on the computer and monitor.
2. Novell Client: **Check workstation only**  
**Userid: instructor**  
**Password: secret**
3. Double click with the mouse or tap twice with the stylus on the **AMX Room Control** icon on the desktop.
4. Choose desired room configuration by double clicking the mouse or tapping twice with the stylus on your room selection: ex., **B Only** (from the middle lectern B).
5. The projector should start powering up and the screen should come down beside the lectern.
6. Wait for the **Video Sources** window to appear.
7. Double click the mouse or tap twice with the stylus on your video source selection: ex., **PC**
8. If using a laptop, connect your laptop to the VGA cable already connected to the lectern. Then select **laptop** as your video source.
9. When finished, select **Exit** from the video source page.  
Select **Yes**.
