

Use Contemporary Women's Issues on the Web when you need to find important information affecting the lives of women around the world. Contemporary Women's Issues on the Web provides access to publications from over 200 domestic and international organizations. CWI gives you access to an eclectic mix of relevant, hard-to-find content from mainstream periodicals, "gray" literature, and the alternative press.

Question: Find information on unsafe abortions in Africa

Try the search as shown:

- Keywords unsafe abortions
Automatic stemming will check for plurals and other word variations
- Subject Area Health (general)
- Geo Region Africa

- Keywords
words or phrases anywhere in the field you choose with the radio button. Choices are Full Text & Citation, Title & Enhanced Title, Article Author, Book Author
- Date
limit by date of publication
- Subject Area
limit by general or specific subject area
- Geo Region
specific states, provinces, countries or regions
- Article Type
specific types of articles
- Publication Type
specific types of publications
- Exclude Book Reviews
all articles but book reviews
- Must Contain Table
articles that have tables

- New Search
returns you to a blank search screen
- Refine Search
add or delete items from your search strategy
- Display Marked Articles
brings up all checked articles
- Document Icon
brings up one complete document at a time
- Check articles to save for later viewing

It is not required that all fields be used in a search.

Keywords Searching

Use this for unique words or concepts not in the text boxes such as issues, movements or individuals. Combine **Keywords** with appropriate **Subject Area** or **Geo Region** to focus results. **Keywords** will search the entire record for an occurrence of the term(s) on its default setting.

- **Keywords** provides automatic stemming so no manual truncation is needed.
- Words typed next to each other are searched as a phrase.
- Combine words using Boolean operators: **and** or **not**
- **Adj** finds words in a specified order within a stated proximity to each other. For example, **biracial adj5 adoption** finds documents where **adoption** follows **biracial** by 5 words or less.
- **Near** finds words within a stated proximity without regard to order. For example, **immigrant near8 discrimination** finds occurrences where **immigrant** and **discrimination** are within 8 words of each other in any order.
- **Parentheses** are used to group articles. For example, **remedy and (holistic or homeopathic)** finds articles that include the term **remedy** and either **holistic** or **homeopathic**.

Subject Area finds terms that deal with specific issues. All records in Contemporary Women's Issues are indexed to one or more subjects. Select from the **Subject Area** text box. You may choose one or more terms using the **Multi-Select** option. Using the **Subject Area** will provide more focused results than using **Keywords**.

Ability and achievement	Child custody and support	Education (general)	Language	Pacific Islanders	and technology
Abortion	Child labor	Education (nec)	Latin American	Parents and parenting	Self-esteem
Activism	Children (ages 0-12)	Elementary and Secondary Education	Legal issues	Patriarchy	Sex education
