An Evidence-Based Seminar Focused on Chronic Liver Diseases

EMERGING THERAPIES

PROGRAM HIGHLIGHTS

- This seminar series focuses on the key challenges of diagnosis and treatment of chronic liver disease; current and emerging pharmaceutical and surgical therapies and the best knowledge to improve patient outcomes.
- Updated content based on the latest medical guidelines and clinical trial results.
- Strong patient-focused educational sessions using evidence-based studies from the latest AASLD, EASL and DDW programs.
- Local experts from each city providing an interdisciplinary, team approach to treatment.
- Participants can receive up to 6.0 AMA PRA Category 1 Credits™ or up to 7.3 nursing education credits.

WHO SHOULD ATTEND?

This program was developed for Gastroenterologists, Internists, Hepatologists, and Family Physicians as well as Advanced-practice Providers, Clinical Pharmacists and Nurse Specialists.

THE BENEFITS OF PARTICIPATION

- Acquire countless practice ‘pearls’ from the nation’s top liver disease specialists.
- Validate or Challenge long-standing patient care assumptions.
- Participate with local colleagues on tough clinical cases.
- Access the clinical resources and referral options in your community.
- Increase your confidence to better manage patients with advancing liver disease.

FRESH THINKING ABOUT THE NEWEST ADVANCES STARTS HERE

EMERGING THERAPIES

for PBC, NASH, ESLD and HCC
