The purpose of the House Staff Council is to serve as an avenue for the concerns and problems of U of L residents and fellows, disseminate information applicable and helpful to all residents, and promote U of L residents as a unified group. This organization, which is comprised of peer-selected representatives from each training program, meets monthly to plan professional development and social events, schedule speakers, and address problems and concerns as they arise. Representatives selected from this council serve on the Graduate Medical Education Committee, Academic Grievance Committee, Faculty Forum, and Medical Council. The House Staff Council also publishes a website to keep residents informed about issues of interest to them.

### 2016-2017 House Staff Council Members
