

How to generate your calendar URL

Redmed allows you to generate a calendar URL that you can import into Outlook or any ICS URL compatible calendar app. This allows you to view your Redmed calendar without logging into Redmed.

Step 1: Login to <https://redmed.louisville.edu>

Step 2: Click on your picture in the top right corner and select **Profile** from the menu.

Step 3: Select **Yes** under **Enable Public Calendar Feed**.

Step 4: Click **Save Profile**

Step 5: Copy the URL and import into your preferred calendar software. ATO recommends using the university provided Outlook app. For specific instructions on how subscribe to your calendar using Outlook click [here](#).

The screenshot shows the RedMed 'Profile Manager' interface for David Aylor. The page title is 'Profile Manager Personal Settings for David Aylor'. A sidebar on the left contains navigation links: FAVORITES, CURRICULUM MAPPING, COURSE MANAGEMENT, PEOPLE, ASSESSMENT, and ADVANCED. The main content area displays various settings: User Name (David Aylor), Default Calendar View (Weekly), Hide Calendar Document List (checkbox), Higher-Contrast Page Elements (checkbox), Default School Year View, Security Level (99), Show Only Enrolled Courses (No), Show Weekends (Yes), CalDav Server Address, and ICS URL. The ICS URL is circled in red with the annotation 'Copy this URL'. Below it, the 'Enable Public Calendar Feed' dropdown is set to 'Yes' and circled in red with the annotation 'Select Yes'. The 'Save Profile' button is also circled in red with the annotation 'Remember to click Save'. On the right side, a user profile card for David Aylor is visible, with the 'Profile' link circled in red and the annotation 'Click Here'.
