

# Fourth International Workshop on the Arylamine N-Acetyltransferases

**GRAND HOTEL EGNATIA  
ALEXANDROUPOLIS - GREECE  
14-16 September 2007**

## FINAL ANNOUNCEMENT

Dear colleague,

The deadline for registration and abstract submission to the forthcoming NAT workshop in Alexandroupolis, Greece, is now extended until Friday, June 22, 2007. Please ensure that you register as soon as possible, so that you don't miss what promises to be a most exciting scientific and social event, attended by leaders in the field!

Continuing on the tradition of the previous workshops, there will be sessions covering current NAT research, but there will also be many opportunities for socializing, exchanging ideas and establishing collaborations. We welcome abstracts on all aspects of prokaryotic and eukaryotic NAT, such as:

Nuclear and cytoplasmic regulation  
Endogenous roles  
Mechanisms of enzymatic action  
Structural and functional analysis  
Disease association studies and meta-analyses  
Therapeutic compound development  
Comparative genomics / proteomics  
SNP analysis and evolution of the NAT loci  
NAT nomenclature

Confirmed speakers include distinguished Professors in the field, such as J.-M. Dupret (Paris, France), D. Grant (Toronto, Canada), D.W. Hein (Louisville, USA), R.F. Minchin (Brisbane, Australia) and E. Sim (Oxford, UK), as well as scientists from these and other laboratories worldwide.

Please complete the attached forms and return to the organizers, as instructed. The forms can also be downloaded from the official NAT nomenclature web-site (<http://louisville.edu/medschool/pharmacology/NAT.html>).

The workshop will be held at the seaside resort Grand Hotel Egnatia in Alexandroupolis, a scenic city located north-east of the Greek capital, Athens. The destination has direct bus and rail connection with Athens and other major cities and also has an airport serving 4 direct 45-min flights from/to Athens International Airport daily. It is conveniently located for visitors who wish to explore the history and natural beauty of Macedonia and Thrace - the land of Alexander the Great, Aristotle and Democritus. It is also only a few hours away from beautiful Thessaloniki or cosmopolitan Istanbul.

Accommodation with breakfast will be arranged for two nights (September 14 and 15) at the Egnatia 5-star hotel (the venue of the workshop) or its sister 4-star hotel Astir at the same resort complex. We aim to create a warm atmosphere and to share the ancient Greek value of *philoxenia* (hospitality) with you. Please feel free to contact us, if you need any help with your travel arrangements.

Looking forward to welcoming you in Greece,

The Organizers,

Giannoulis Fakis, *D.Phil.*
