

NOW ENROLLING

STUDY ON WORRY AND ANXIETY

We are looking for volunteers to participate in a study on worry and anxiety in parents and children

This study is being conducted at the University of Louisville and is overseen by Janet Woodruff-Borden, Ph.D.

Children ages 8 to 13 years old and their parents are eligible to participate

WORRY AND ANXIETY IN FAMILIES

This study looks at what factors might impact worry and anxiety in children and families. We are interested in examining factors such as parent and child language use, perfectionism, child temperament, parenting, thoughts about uncertainty, and problem solving. We are interested in how these and other factors may influence whether children develop problems with worrying or anxiety. If interested, you and your child will be asked to complete a series of questionnaires and to come to University of Louisville for a 3 hour appointment to answer questions about you and your child's mood and behavior.

BENEFITS TO YOU

- FREE DIAGNOSTIC INTERVIEWS
- DETAILED FEEDBACK
- WRITTEN REPORT OF ASSESSMENT RESULTS
- TREATMENT REFERRALS AS NEEDED
