Scope of Work

The University of Louisville Athletic Department is seeking contractors to provide design and construction services to update several areas at Cardinal Stadium. Bidders should make sure to include in their list of subcontractors: electrical, miscellaneous metal, concrete, carpentry, architectural, along with any additional contractors needed to complete the project.

Project 1 Gates 2 & 2A (East) Reconfiguration Tasks:

- Demolition
 - Remove east team store/ ticket office building
 - Relocate any existing electrical panels and data equipment to adjacent space to the tower north of the existing ticket office.
 - Shut off and cap plumbing lines
- Construction
 - Install new wrought iron fencing and gates per new design at each gate. Brick and brick design should match existing stadium brick work onsite.
 - Install underground conduit for pulling of wire for future power, data, and sound needs at each gate

Scope for project #1 includes the demolition of the building located between Gates 2 & 2A on the east side of Cardinal Stadium. The university requires that the existing HVAC units be carefully removed and turned over to the university physical plant for future use in other areas. Area where building stands will need to be replaced with asphalt once facility is gone.

The existing electrical and data services to the building will be extended and relocated to the NE tower structure to the north of the existing building. Any existing Wi-Fi, security cameras and ticketing antennas that are connected through the ticket office data closet will need to be reconnected and tested once cabling has been re-routed by awarded contractor.

The stadium perimeter fencing and new gate entries will be added to secure the facility 365 days a year and allow for additional guest entry points for events at Cardinal Stadium. Gates should mimic the look of existing gates on site. The plaza area in front of the east side of the stadium will be expanded to include the drive aisle between Bronze lots F & G for large event entry lines. Four (4) 5,000 lb concrete barriers with fork pockets will be supplied by the awarded contractor to athletics in order to close the drive lane on an event by event basis. Existing curbs that are part of the plaza transition from the drive lane to the stadium entries will need to be removed and ADA curb ramps with ADA warning pads installed.

The room in which the electrical panel and data equipment is being relocated will need to be made into a short term ticket office. A wall with 4 ticket windows will need to be installed inside the existing overhead door.

This wall will need to be weather tight when the overhead door is open on event days. A counter will be required on both the inside and outside of the windows for transactions to occur. Both electrical circuits and data drops will need to be run to the four (4) new ticket windows. Eight (8) electrical circuits will need to be installed on the south wall, each circuit will have a four (4) plug outlet connected to it. All eight (8) circuits to be positioned adjacent to each other for the charging of ticket scanners. Lighting will be required inside the space for normal working conditions and above the ticket windows both inside and outside the windows. Heating and AC will be needed to temper the space at 72 degrees. At a minimum a ceiling fan will need to be installed to control the temperature in this space. The existing interior walls will need to be removed. It is the awarded contractors responsibility to obtain all work permits and ensure all city and state codes are met.

This comparison, where applicable, may consider raw materials and energy acquisition; production and manufacturing; packaging and distribution; and the operation, maintenance, reuse, recyclability or disposal of a product. Supplier will take such action with respect to any subcontract or purchase order as the Government or Buyer may direct as a means of enforcing such provisions including sanctions for noncompliance; provided, however, that in the event Supplier becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, Supplier may request the United States to enter into such litigation to protect the interests of the United States.³

2. AFFIRMATIVE ACTION FOR DISABLED VETERANS AND VETERANS OF THE VIETNAM ERA

(Applicable to Suppliers exceeding \$10,000 in Contracts with a UofL affiliated entity)

This Contract is subject to the requirements of Executive Order 11701 and the regulations of the U.S. Secretary of Labor (41 CFR Chapter 60, Part 60-250) in promoting employment opportunities for disabled and Vietnam veterans.

During the performance of this contract or purchase order, Supplier agrees as follows:

- a. To provide special emphasis to the employment of qualified disabled veterans and veterans of the Vietnam era. The Supplier also agrees that all suitable employment openings of the Supplier which exist at the time of execution of this Contract and those which occur during the performance of this Contract, including those not generated by this Contract and including those occurring at an establishment of the Supplier other than the one wherein the Contract is being performed but excluding those of independently operated corporate affiliates, shall be offered for listing at an appropriate local office of the State Employment Service system wherein the opening occurs and to provide such reports to such local office regarding employment openings and hires as may be required: provided, that if the Contract or purchase order is for less than \$10,000 or if it is with a state or local government, the reports set forth in Paragraphs (c) and (d) of this clause are not required.
- b. Listing of employment openings with the employment service system pursuant to this clause shall be made at least concurrently with the use of any other recruitment service or effort and shall involve the normal obligations which attach to the placing of a bona fide job order, including the acceptance of any particular job applicant or from any particular group of job applicants, and nothing herein is intended to relieve the Supplier from any requirements in Executive Order or regulations regarding nondiscrimination in employment.

³ For federally-assisted construction contracts, the Supplier further agrees that it shall comply with the requirements of 41 CFR 60-1.4(b), which is specifically incorporated by reference herein.

-
- c. The reports required by Paragraph (a) of this clause shall include, but not be limited to, periodic reports which shall be filed at least quarterly with the appropriate local office or where the Supplier has more than one establishment in a state, with the central office of the state employment service. Such reports shall indicate for each establishment (1) the number of individuals who were hired during the reporting period; (2) the number of those hired who were disabled veterans; and (3) the number who were nondisabled veterans of the Vietnam era.
 - d. The Supplier shall submit a report within 30 days after the end of each reporting period wherein any performance is made on this contract or purchase order. The Supplier shall maintain copies of the reports submitted until the expiration of one year after final payment under the Contract, during which time they shall be made available, upon request, for examination by any authorized representatives of the contracting officer or of the University's Affirmative Action Office.
 - e. Whenever the Supplier becomes contractually bound to the listing provisions of this clause, he shall advise the employment service system in each state wherein he has establishments of the name and location of each such establishment in the state. As long as the Supplier is contractually bound to these provisions and has so advised the state system, there is no need to advise the state system of subsequent contracts or purchase orders. The Supplier may advise the state system when it is no longer bound by this contract clause.
 - f. This clause does not apply to the listing of employment openings which occur and are filled outside of the 50 states, the District of Columbia, Puerto Rico, Guam, and the Virgin Islands.
 - g. This clause does not apply to openings which the Supplier proposed to fill from within his own organization or to fill pursuant to a customary and traditional employer-union hiring arrangement. This exclusion does not apply to a particular opening once an employer decides to consider applicants outside of his own organization or employer-union arrangement for that opening.
 - h. As used in this clause:
 - 1. "All suitable employment openings" includes, but is not limited to, openings which occur in the following job categories: production and nonproduction; plant and office; laborers and mechanics; supervisory and nonsupervisory; technical, and executive administrative, and professional openings which are compensated on a salary basis of less than \$18,000 per year. This term includes full-time employment, temporary employment of more than three days' duration, and part-time employment. It does not include openings which the Supplier proposes to fill from within his own organization or to fill pursuant to a customary and traditional employer-union hiring arrangement. Under the most compelling circumstances an employment opening may not be suitable for listing, including the situations where the needs of the Government cannot reasonably be otherwise supplied, where listing would be contrary to national security, or where the requirement of listing would otherwise not be for the best interest of the Government
 - 2. "Appropriate office of the state employment service system" means the local office of the federal-state national system or public employment offices with assigned responsibility for serving the area where the employment opening is to be filled, including the District of Columbia, Guam, Puerto Rico, and the Virgin Islands.
 - 3. "Openings which the Supplier proposes to fill from within his own organization" means employment openings for which no consideration will be given to persons outside the Supplier's organization (including any affiliates, subsidiaries, and the parent companies) and includes any openings which the Supplier proposes to fill from regularly established "recall" or "rehire" lists.

-
4. "Openings which the Supplier proposes to fill pursuant to a customary and traditional employer-union hiring arrangement" means employment openings for which no consideration will be given to persons outside of a special hiring arrangement, including openings which the Supplier proposes to fill from union halls, which is part of the customary and traditional hiring relationship which exists between the Supplier and representatives of his employees.
 5. "Disabled veteran" means a person entitled to disability compensation under the law administered by the Veterans' Administration for disability rates at 30 per centum or more, or a person whose discharge or release from active duty was for a disability incurred or aggravated in line of duty.
 6. "Veterans of the Vietnam era" means a person (1) who (i) served on active duty for a period of more than 180 days, any part of which occurred after August 05, 1964, and was discharged or released therefrom with other than a dishonorable discharge, or (ii) was discharged or released from active duty for service-connected disability if any part of such duty was performed after August 05, 1964, and (2) who was so discharged or released within the 48 months preceding his application for employment covered under this part.

d. that it will post in conspicuous places, available to employees and applicants for employment, notices in a form to be prescribed by the Deputy Assistant Secretary for Federal Contract Compliance Programs, provided by or through the contracting officer. Such notices shall state the rights of applicants and employees as well as the contractor's obligation under the law to take affirmative action to employ and advance in employment qualified employees and applicants with disabilities. The contractor must ensure that applicants and employees with disabilities are informed of the contents of the notice (e.g., the contractor may have the notice read to a visually disabled individual, or may lower the posted notice so that it might be read by a person in a wheelchair).

e. that it will notify each labor organization or representative of workers with which it has a collective bargaining agreement or other contract understanding, that the contractor is bound by the terms of section 503 of the Rehabilitation Act of 1973, as amended, and is committed to take affirmative action to employ and advance in employment individuals with physical or mental disabilities.

f. that it will include the provisions of this clause in every subcontract or purchase order in excess of \$10,000, unless exempted by the rules, regulations, or orders of the Secretary issued pursuant to section 503 of the act, as amended, so that such provisions will be binding upon each subcontractor or vendor. KRS 45A.070(6) defines "Responsible bidder or offeror "as" a person who has the capability in all respects to perform fully the contract requirements and the integrity and reliability which will assure good faith performance," and "Best value" as "a Procurement in which the decision is based on the primary objective of meeting the specific business requirements and best interests of the Commonwealth." The information requested in this document is to be used to evaluate the "responsibility" by verifying the apparent low bidder:

- (a) Has adequate financial resources (in working capital and bonding capacity) in relation to the scope and dollar amount of the project or the ability to secure such resources;
- (b) Has the experience, organization, technical qualification, available personnel resources, and has or can acquire the equipment necessary to perform the scope of work bid;
- (c) Is able to comply with the required performance schedule or completion date, taking into account existing commitments (i.e. capacity); and

The information provided must verify that the bidding firm has a sufficient level of expertise, experience, financial stability, and personnel resources to qualify the firm as being "responsible" prior to proceeding with an award of Contract. 2. Application Submittal

The low responsive Bidder must complete the information requested by typing or clearly printing responses in ink. All information requested must be provided. If a question does not apply, insert "NA" for not applicable. The University of Louisville reserves the right to request supplemental information to fully determine responsibility of the Bidder. The Bidder agrees to provide supplemental information, if requested by the University.

3. Insurance Requirements

The Successful Bidder will be required to provide proof of insurance indicating current liability coverages, including workers compensation, with limits equal to or exceeding the amounts required by the bid documents. Additionally, builders risk coverage equal to the Contract amount will be required of the successful contractor.

*NOTE: Pursuant to KRS 45A. 110, except as otherwise provided under the Open Records Act and any other applicable law, the Bidder has the right of nondisclosure to the public of certain information required by this submittal. If the Bidder wishes nondisclosure of certain information he/she shall enclose the

confidential information in a separate envelope marked CONFIDENTIAL and forward it with the information and other submittals required by this document. If this is not done, he/she waives the right of nondisclosure of this information and the signing of the Bid Proposal shall constitute written waiver of that right.

The contractor offering the apparent low bid will be required to complete the Bidder's Qualification form and return within 48 hours to the Department of Purchasing after the bid opening.
