

University of Louisville

Cost Reduction

Reduces current equipment maintenance expenditures by 25% compared to conventional service contract pricing.

Singular Contract

Consolidates all of your current service contracts into ONE comprehensive program, eliminating the high costs and inefficiencies of multiple vendor service contracts.

Choice of Service Vendor

Works with national and local service companies. This gives you the ability to use your preferred service vendor or choose vendors based on responsiveness, customer service, and quality, ensuring that you are receiving the highest level of service available.

Online Management Reports via Remi Online

Enables you to easily access information and reports such as equipment inventory, repair history, equipment performance, and service vendor performance.

Guaranteed Budget

Solidifies your maintenance budget and protects your investment by providing a "capped cost" solution.

"There is no additional cost associated with purchasing the services offered through this contract. This program reduces current expenditures."

Reduce Your Equipment Maintenance Costs

We analyze your current equipment maintenance portfolio, maintenance agreements, historical maintenance expenditures, and operational practices to develop a customized program to meet your unique needs. The goal of each program is to deliver the specialized management tools, expertise, and support necessary for you to achieve enhanced equipment performance coupled with significant cost savings.

Two Program Options:

You Call Service Provider Directly

- Equipment failure occurs.
- End user calls preferred service provider.
- Equipment is repaired.
- The Remi Group generates a check directly to vendor for covered corrective or preventive maintenance work.

Service Management System

- Equipment failure occurs.
- End user calls toll free service center number or requests service online.
- Remi contacts the client's preferred service vendors and obtains Estimated Time of Arrival (ETA).
- Remi informs end user of ETA.
- Equipment is repaired.
- The Remi Group generates a check directly to vendor for covered corrective or preventive maintenance work.

Both options provide detailed repair status/repair info online.

Typical Equipment Covered:

Scientific Equipment

- Analyzers
- Angiographic Systems
- C-Arms
- Cell Savers
- Cell Washers
- Cine Film Viewers
- Co-Oximeters
- Densitometers
- Electron Microscopes
- Film Processors
- Fluorometers
- Fluoroscopic Rooms
- Gamma Counters
- MRI Scanners
- Physiological Monitoring
- Portable X-Ray Machines
- Projectors
- Sequencers
- Special Procedure Rooms
- Spectrophotometers
- Tomographic Rooms

General Office

- Automated Filing Systems
- Collating Machines
- Dictation Equipment
- Endorsers
- Fax Machines
- Microfiche & Microfilmers
- Printers
- Shredders
- Time Clocks
- Typewriters
- Word Processing Equipment

Security

- Alarm Systems
- Card Access Systems
- Vaults & Safes
- Video Surveillance Systems

Information Technology

- Archiving Appliances
- Laptops
- Network Devices
- Network Storage
- PC's & Peripherals
- Servers

Plus other equipment that is electronic in nature.
