

Master of Science Program in Industrial Engineering

The Department also offers, through the Graduate School, a program leading to the Master of Science degree in Industrial Engineering. This program is available to persons who have an adequate background in mathematics, physics, and the use of computers, but who do not have a baccalaureate degree in engineering, or who have a baccalaureate degree in an engineering discipline other than Industrial Engineering. Persons having a baccalaureate degree in Industrial Engineering from another institution may also find the Master of Science degree more appropriate. Students interested in the Master of Science degree program should consult the Graduate School Catalog or the Chair of the Department of Industrial Engineering.
