Student Itinerary

If students are traveling on their own, please ensure all legs of the trips are included. For example, if they are flying from Chicago, and do not live in Chicago, please include information on how they are getting to Chicago.

Additionally, if they are flying back from a different city than where the program ends, include information on that leg as well. For example, if the trip ends in Tokyo, but the student is flying back from Hanoi, please send information on how the student will travel from Tokyo to Hanoi.

If students are traveling by train we only need a statement to that effect.
Passports (place behind itinerary):

1. Is the passport signed?
2. Is there six (6) month validity beyond the return date of the trip?
3. Does the copy have both the picture page and the signature page as one piece?
4. Is the photo clear (can we see details of the person’s face)?
5. Are both lines of numbers at the bottom of the page visible?
6. Is the image legible in all areas?
7. If the student is an international student, have they checked with the ISSS office to ensure all is in order to return to US?
8. If the student is an international student, have they checked with the destination countries to ensure they meet all entry requirements?
