Updated: 09.25.17
Department of Civil and Environmental Engineering

The Department of Civil and Environmental Engineering is housed within the J.B. Speed School of Engineering at the University of Louisville. The mission of the department is to serve the university and the engineering profession by providing high quality educational programs to all students, engaging in research and scholarship that will extend knowledge, and assisting the economic development of the regional, state, and national economies through technology transfer.

Accreditation

The University of Louisville is accredited by the Commission on the Colleges of the Southern Association of Colleges and Schools to award associate, bachelor, master, specialist, doctoral, and first-professional degrees (D.M.D., J.D., M.D.).

University of Louisville

The University of Louisville (UofL) is a state supported research university located in Kentucky’s largest metropolitan area that offers 170 majors, degrees, certificates and professional development programs.

The University of Louisville’s mission is to be a premier, nationally recognized metropolitan research university with a commitment to the liberal arts and sciences and to the intellectual, cultural, and economic development of our diverse communities and citizens through the pursuit of excellence.

With a student body exceeding 22,500 and with more than 6,500 faculty members, the University of Louisville paves the way for students of all ages to achieve their academic, professional and personal goals through quality education.

UofL Online Learning

The University of Louisville understands the challenges of adult professionals who want to earn a college degree and extends its education offerings through UofL Online Learning to connect nontraditional students with flexible online education options. Online learning can help them acquire the necessary knowledge and skills in a convenient and affordable manner, and secure or advance their career. Online Learning delivers a wide variety of online courses and in-demand undergraduate, graduate and certificate programs completely online to students in the U.S. and around the world.
Master of Science in Civil Engineering – Online Program Info

We are dedicated to educating civil engineers in innovative and progressive ways. That is why we offer the Master of Science in Civil Engineering (MSCE) 100% online. The program is comprised of courses that are specific to transportation engineering, giving you access to a unique degree without boundaries.

Completion of this program empowers civil engineers who are interested in the transportation industry to expand their knowledge and gain an advantage in their career with this focused degree.

The program is designed for graduates with a bachelor’s degree in civil engineering. We understand that graduates are often professionals practicing in the field of civil engineering, which is why our courses are delivered 100% online.

You can complete your coursework without daily time restraints. The program structure does not require full-time enrollment, which is conducive to working professionals balancing school, work, and personal life.

MSCE Degree Benefits

- 100% online
- 30 credit hour curriculum
- Students may transfer in 6 credit hours of graduate courses from another regionally accredited institution
- Degree may be completed in three intensive enrollment semesters
- A dedicated advisor assists students throughout the program
- Great job outlook and career opportunities

Program Structure

All of the courses in the program are taught 100% online, allowing you to attain your master’s in a convenient format, regardless of your current location. And you can graduate with an MSCE degree within two years!

The entire degree requires a minimum of thirty (30) credit hours (10 courses) for completion and you may be eligible to transfer up to six (6) credit hours from another regionally accredited institution. Courses follow a semester schedule (fall, spring, summer) and terms are approximately 15 weeks long.

Career Information

According to the Bureau of Labor Statistics, employment of civil engineers is projected to grow 8 percent from 2014 to 2024. The growing population, increasing urbanization, and aging infrastructure have greatly increased the demand for civil engineers who are prepared to address these global issues. (U.S. Bureau of Labor Statistics, www.bls.gov).

Our graduates can apply their MSCE credentials to various fields and may pursue careers such as:

- Structural Engineer
- Surveyor
- Water Resource Professional
- Transportation Analyst
- Project Engineer
- Land Development Engineer

Hear it from our graduates

Ms. Jewell Stone, P.E. (‘11)

When I decided to pursue a master’s degree, I needed a graduate program that would fit work schedule and personal life. Since I live in Indiana, I looked at Indiana schools and online programs across the U.S. The University of Louisville’s Master of Engineering online was the most competitively priced of these.

I graduated early-May 2011 and immediately put my degree to use when I was promoted in mid-May to Environmental and Scoping Manager. The Transportation Planning and Urban Development coursework definitely was current and real world applicable.

Ms. Jewell Stone, P.E., Online MSCE Graduate (2011)

Environmental and Scoping Manager
Greenfield District
Indiana Department of Transportation

The coursework definitely was current and real world applicable.
Admission

Admission Requirements

Admission to the University of Louisville Graduate School, for the purposes of pursuing the Master of Science in Civil Engineering, requires:

- Bachelor in Civil Engineering from a regionally accredited institution or international equivalent
- Minimum cumulative baccalaureate grade point average (GPA) of 2.75
- Official transcripts from all from all secondary schools, universities, colleges, or professional schools attended.
- The successful applicant will typically have a GRE combined Verbal and Quantitative Reasoning score of 295 or above.
- Completed application for admission to the Graduate School, University of Louisville – [http://louisville.edu/graduate/futurestudents/apply-materials/application](http://louisville.edu/graduate/futurestudents/apply-materials/application), which includes:
  - Two recommendation forms from individuals who can speak to the applicant’s academic or professional capabilities
  - $65.00 application fee, check or money order made payable to the University of Louisville

International Students

If you live outside of the United States and intend to complete an online academic program from your home country, be sure to view the [special requirements](http://louisville.edu/graduate/futurestudents/apply-materials/application) for international students.

Note: International students do not need a U.S. visa to enroll in the Online MSCE graduate program as there are no on-campus requirements and the program can be completed from outside the U.S.

For complete application instructions go to [http://louisville.edu/graduate/futurestudents/apply-materials/application](http://louisville.edu/graduate/futurestudents/apply-materials/application).

Application Deadlines

Fall – Submit COMPLETE application by August 1
Spring – Submit COMPLETE application by November 30
Summer – Submit COMPLETE application by April 1

Send admission materials to the Graduate Admissions office at the following address:

Tuition and Financial Aid

Tuition for the Master of Science in Civil Engineering is one of the most affordable in the nation. Tuition for online courses is the same for both in-state and out-of-state students.

Online Degree Tuition

<table>
<thead>
<tr>
<th>Tuition Rates</th>
</tr>
</thead>
<tbody>
<tr>
<td>Graduate online course</td>
</tr>
<tr>
<td>Active-duty* service members</td>
</tr>
<tr>
<td>Reserve Component and Kentucky National Guard</td>
</tr>
</tbody>
</table>

*Active-Duty is defined as on orders for 180 days or more.

The tuition rates above apply only to online courses and may be different than, or in addition to, tuition costs for other non-online courses you may be taking. If you’re receiving a tuition scholarship, please check the monetary value to determine whether the cost of online courses is covered.

Note: Tuition and fees are subject to change at any time without prior notice. The summary on this page is intended to provide a quick reference for students. For more information and updates, visit the UofL Bursar’s page.

Financial Aid

Financial aid is available for all online students who are U.S. citizens, and qualify. Most foreign citizens are not eligible for student aid from the U.S. Department of Education. Learn more at https://studentaid.ed.gov/sa/sites/default/files/international-students.pdf.

For student loans to disburse in a timely manner, it is critical that you complete all required steps:

1. Assemble your tax and asset information, such as your IRS forms, W2s, 1040s, etc.

2. Go to www.fafsa.ed.gov to file your FAFSA form (Free Application for Federal Student Aid). Be sure to apply for your Personal Identification Number (PIN) during the FAFSA filing process. Use the PIN to electronically sign your FAFSA. UofL’s FAFSA school code is 001999.

3. Once your FAFSA is processed by the U.S. Department of Education, you will be sent a Student Aid Report (SAR). If you filed electronically, the SAR will be sent to you via email. If you filed by paper or did not provide an email address, the SAR will be sent to you by mail.

4. Review the SAR for comments and incorrect information. If accurate, keep the SAR for your records. If you find any errors, you can correct them by returning the paper SAR or by making corrections to a processed FAFSA online. If you used estimated tax return information when completing the FAFSA, remember to update your FAFSA with actual tax information by using the IRS Data Retrieval Tool after you file your federal income tax return.

Apply Today!
We know the cost of education is one of the most important considerations when deciding where to pursue a degree. The University of Louisville is committed to ensuring you are knowledgeable about all of your financial aid options. UofL offers flexible payment options for students, including a payment plan, and accepts military benefits or employer tuition assistance payment methods.

FAQs

1. What are the benefits of online learning?

The biggest benefit of online learning is that you can work to earn your degree from your own home while raising a family, working full-time or experiencing particular life circumstances that make commuting to campus difficult or impossible.

2. How is the online program different than an on-campus program?

At UofL you are taught by the same world-class faculty as our on-campus students. You read the same books, do many of the same assignments and earn the same degree. The biggest difference is that you are able to do it in your own time and in a way that best fits your learning and lifestyle.

3. I am on active duty. Can I take online classes at UofL?

Yes! You can take online classes from anywhere in the world, provided you have consistent Internet access. UofL offers a tuition discount to all active-duty service members as well as to qualified veterans, Reserve and National Guard members.

4. Can I receive credit for graduate courses completed at another institution?

Yes. Once you are admitted to the program, you may request to transfer up to 6 applicable graduate credit hours. The department will assess your transcripts.

5. What bachelor’s degrees, other than engineering, are acceptable for admission in the MS Civil Engineering program?

A Bachelor of Science in civil engineering is required. International students must have the equivalent of a BSCE. No technology degrees will be accepted.

6. Are GRE scores required for admission?

The GRE is required and cannot be waived. There are no exceptions to this policy. Review the “Apply Now” section for required GRE scores necessary to be considered for admission.

7. Can I be admitted provisionally, until I take the GRE?

There is no provisional admission to the degree program without a GRE score.

8. Is Tuition Assistance available for active-duty military enrolled in the MSCE?

Yes, Tuition Assistance (TA) is currently available for active duty military at the rate of $250 per credit hour. This rate is subject to change without notice.

9. Are scholarships available for the MSCE program?

No, at this time there are no scholarships available. However, some employers may provide tuition support through employer reimbursement programs.

10. Will my employer pay for all or some of the tuition for the MSCE program?

You must check with your employer to identify availability of employer reimbursement programs.
