Advance your career and increase your earning potential in less than six months with our two-seminar program.

UofL is a Project Management Institute (PMI) Registered Education Provider. Our instructors are local, full-time practitioners with many years of real-world experience in the field of project management. The program covers topics including project planning, scope management and control, and many other skills necessary for project success. Seminars take place on UofL's Shelby Campus in the Founders Union Building.

If you have taken a college-level project management course and can provide a transcript, or if you have attended a project management course at your workplace, the Fundamentals seminar may be waived, which would allow you to enroll directly in the Practical Application seminar.
