

MINUTES OF THE REGULAR MEETING OF THE
BOARD OF TRUSTEES OF THE
UNIVERSITY OF LOUISVILLE

June 15, 2017

In Open Session

Members of the University of Louisville Board of Trustees met at 1:31 p.m. on June 15, 2017, in the Jefferson Room of Grawemeyer Hall, with members present and absent as follows:

Present: Mr. David Grissom, Chairman Pro Tempore
Mr. William Armstrong
Ms. Bonita Black
Mr. Brian Cromer
Ms. Sandra Frazier
Ms. Diane Medley
Mr. James Rogers
Mr. Nitin Sahney
Mr. John Schnatter
Prof. Enid Trucios-Haynes
Mr. Aaron Vance
Dr. Ron Wright

From the
University: Dr. Greg Postel, Interim President and Interim Exec. VP for Health Affairs
Dr. Dale Billingsley, Acting Executive Vice President and University Provost
Dr. William Pierce, Executive Vice President for Research and Innovation
Ms. Leslie Strohm, Vice President for Strategy and General Counsel
Mr. Tom Jurich, Athletic Director and VP for Athletics
Mr. Keith Inman, Vice President for University Advancement
Ms. Susan Howarth, Interim CFO
Mr. Lee Smith, Interim COO (arrived at 12:16 p.m.)
Dr. Toni Ganzel, Dean, School of Medicine
Mr. Kevin Miller, Assoc. Athletic Director
Dr. Michael Mardis, Dean of Students
Mr. Kenny Klein, Associate Athletic Directors
Ms. Ingrid Gentry, Interim Controller
Ms. Jeanell Hughes, Associate Vice President for Human Resources
Mr. Gary Mans, Director of Media Relations, HSC
Ms. Cheri Jones, Interim Assoc. VP for Audit and Compliance
Ms. Cindy Hess, Director, Communications and Marketing (arrived at 11:49 a.m.)
Mr. John Karman, Director of Media Relations
Mr. Rick Graycarek, Director of Budget and Finance
Mr. Chris Hodgkins, Budget Analyst
Mr. Michael Morsovillo, Budget Analyst

Mr. Renaldo Domoney, Budget Analyst
Mr. Vishnu Tirumala, SGA President-elect
Mr. Jake Beamer, Boards Liaison and Assistant Secretary

Outside

Counsel: Mr. Sam Hinkle, Stoll Keenon Ogden, PLLC
Mr. Craig Dilger, Stoll Keenon Ogden, PLLC

I. Call to Order

Mr. Beamer read the roll. Having determined a quorum present, Chairman Grissom called the meeting to order at 1:31 p.m.

Approval of Minutes, 6-8-2017

Mr. Armstrong made a motion, which Ms. Frazier seconded, to approve the minutes of the June 8, 2017 meeting. The motion passed.

II. Action Item: Approval of Operating Budget 2017-18

Tuition

Mr. Sahney made a motion, which Mr. Vance seconded, to approve the

President's recommendation that the Board of Trustees make no increases to tuition rates for AY 2017-18.

Following a roll call vote, the motion passed unanimously.

Fees

Mr. Cromer made a motion, which Ms. Black seconded, to approve the

President's recommendation that the Board of Trustees approve the new fees and adjustments to the existing fees, as attached.

Following a roll call vote, the motion passed with only Mr. Vance opposed.

Operating Budget

Dr. Postel and Ms. Howarth briefed the Board on the 2017-18 Operating Budget using the **attached** presentation. They then fielded questions from trustees.

Mr. Cromer made a motion, which Dr. Wright seconded, to approve the

President's recommendation that the Board of Trustees approve the proposed University operating budget for Fiscal Year 2017-18, as attached.

Following a roll call vote, the motion passed unanimously.

III. Action Item: Approval of ULAA Construction Projects

Capital Projects

Mr. Miller presented the proposed Capital Projects to the Board which includes the construction of balconies at Cardinal Arena for volleyball games; replacement of the Lacrosse Field Turf; replacement of the Trager Center Field Turf; and the construction of a video wall and ribbon board upgrade at Papa John's Cardinal Stadium, a line scoring display at Patterson Baseball Stadium, and a new outdoor video display at the Bass-Rudd Tennis Center.

Ms. Frazier made a motion, which Mr. Cromer seconded, to approve the

Athletic Director's recommendation that the Board of Trustees authorize the purchase of facility improvements for athletic facilities on campus with the estimated costs budgeted:

<u>Facility</u>	<u>Funding Status</u>	<u>Project Scope</u>
A. Construction of Balconies at Cardinal Arena	Funded	\$450,000
B. Replace Field Turf Field-Lacrosse	Funded	\$325,000
C. Replace Field Turf Field-Trager Indoor	Funded	\$325,000
D. Video Wall and Ribbon Board upgrade at PJCS; a line scoring display at Patterson Stadium, and a new outdoor video display at the Bass-Rudd Tennis Center	Funded	\$2,000,000

Following a roll call vote, the motion passed unanimously.

Renovation of Patterson Baseball Stadium

Mr. Miller then briefed the Board on the proposed renovations to Patterson Baseball Stadium, explaining the recent success and the increased popularity of the baseball program have resulted in increased attendance that has made it necessary to review plans to expand the stadium. He noted this project requires approval to be added to the University's Six-Year Capital Plan which will be submitted to the state government.

Dr. Wright made a motion, which Ms. Frazier seconded, to approve the

Athletic Director’s recommendation that the Board of Trustees authorize renovation of Jim Patterson Baseball Stadium with the estimated costs budgeted:

<u>Facility</u>	<u>Funding Status</u>	<u>Project Scope</u>
Jim Patterson Baseball Stadium	Private Funding	\$9.5M

Following a roll call vote, the motion passed unanimously.

IV. Report of the Ad Hoc Committee on Board Governance

Approval of Revisions to *The Redbook*

Ms. Black presented revisions to Chapter 1 of *The Redbook*, as approved by the Ad Hoc Committee on Board Governance on June 12, 2017. She thanked Ms. Strohm and Mr. Beamer for their work revising the chapter to reflect changes to the Board’s bylaws, the Kentucky Revised Statutes, and requirements of the Southern Association of Colleges and Schools (SACS).

Ms. Medley made a motion, which Mr. Armstrong seconded, to approve the

Ad Hoc Committee on Board Governance’s recommendation that Chapter 1 of The Redbook be revised, as attached.

The motion passed.

Update on MOU with UofL Foundation

Ms. Black stated her committee was working with the governance committee of the UofL Foundation to create a Memorandum of Understanding (MOU) detailing the relationship between the University and the Foundation. She reported both governance committees had resolved all but a few technical issues, and expects to present a final copy of the MOU to the board at a special meeting before July 1, 2017.

Mr. Grissom thanked Ms. Black and her committee for its work.

V. Report of the President

Updates

President Postel updated the Board on completed 2017-18 projects and works in progress using the **attached** tables. He then fielded questions from trustees.

Action Item: UofL Hospital Affiliation Agreement

Dr. Postel briefed the Board on the recommendations to approve two documents regarding UofL Hospital: a revised lease agreement and revised academic affiliation agreement. He explained that due to the termination of the partnership with KentuckyOne Health and the transition to UMC, both documents required revisions to reflect UMC as managing entity of the Hospital.

Chairman Grissom requested additional time for the Board to consider the proposed revisions to the lease agreement and academic affiliation agreement, and stated a special meeting would be called prior to July 1, 2017, in which to approve the documents.

Mr. Cromer requested an explanatory memorandum to be included in the materials.

No action was taken.

VI. Report of the Chair

The Chairman announced the composition of the Ad Hoc Tenure and Nepotism Policy Committee as follows:

Sandra Frazier , Chair
William Armstrong
Dale Billingsley
Bonita Black
Brian Cromer
James Rogers
Enid Trucios-Haynes

Mr. Grissom asked Ms. Frazier to coordinate with the Boards Liaison regarding committee meeting dates and times.

VII. Executive Session

Ms. Black made a motion, which Dr. Wright seconded, to go into Executive Session at 2:09 p.m. to discuss litigation and personnel matters pursuant to KRS 61.810(1)(c) and (f).

The motion passed.

Mr. Cromer departed the meeting at 3:49 p.m.

VIII. Open Meeting Reconvenes

The open meeting reconvened at 4:08 p.m. Chairman Grissom reported the board discussed litigation and personnel matters.

The following actions were then taken:

Personnel Matters

Dr. Wright made a motion, which Ms. Frazier seconded, to approve the following personnel recommendations:

From June 15, 2017:

Law

Lars Smith, LL.M., JD, Professor (Tenured) of Law, the Samuel J. Stallings Chair in Law, and Associate Dean for Academic Affairs; additional appointment as Interim Dean of the Louis D. Brandeis School of Law, July 1, 2017 through December 31, 2017. Appointment as Interim Dean is at the pleasure of the Board of Trustees.

Public Health and Information Sciences

Timothy Wiemken, PhD, Assistant Professor (Term) of Medicine (School of Medicine); change of appointment and promotion to Associate Professor (Probationary) of Epidemiology and Population Health (School of Public Health and Information Sciences) effective June 19, 2017.

JB Speed School of Engineering

Gail DePuy, PhD, Professor (Tenured) of Industrial Engineering and Associate Dean for Academic and Student Affairs; additional appointment as Interim Dean of the Speed School of Engineering effective July 1, 2017. Appointment as Interim Dean is at the pleasure of the Board of Trustees.

From May 18, 2017:

Administration

Jason Chesney, MD, PhD, Professor (Tenured) of Medicine and Pharmacology and Toxicology and Brinkley Chair in Lung Cancer Research; additional appointment as Associate Vice President for Health Affairs and Director of the James Graham Brown Cancer Center; change of appointment from Brinkley Chair in Lung Cancer Research to James Graham Brown Foundation Chair, May 18, 2017. Appointments as Associate Vice President and Director of the James Graham Brown Cancer Center are at the pleasure of the Board of Trustees.

Daniel Durbin, MPA, West Virginia University; Associate Vice President for Health Affairs and Health Sciences Center Chief Financial Officer, July 1, 2017. Appointment as Associate Vice President is at the pleasure of the Board of Trustees.

Kevyn Merten, PhD, Assistant Vice President for Research and Innovation; promotion to Associate Vice President for Research and Innovation, July 1, 2017. Appointment as Associate Vice President for Research and Innovation is at the pleasure of the Board of Trustees.

Arts and Sciences

Craig Grapperhaus, PhD, Professor (Tenured); additional appointment as Chair of Department of Chemistry, July 1, 2017 through June 30, 2020. Appointment as Department Chair is at the pleasure of the Board of Trustees.

Business

Jay Brandi, PhD, Professor (Tenured) and Interim Chair of Department of Finance; change of appointment to Chair of Department of Finance, July 1, 2017 through June 30, 2022. Appointment as Department Chair is at the pleasure of the Board of Trustees.

Law

Colin Crawford, JD, Harvard Law School; Professor with tenure and Dean of the Louis D. Brandeis School of Law and Associate in the Department of Urban and Public Affairs (College of Arts and Sciences), January 1, 2018. Appointment as Dean is at the pleasure of the Board of Trustees.

Medicine

Dwayne Compton, EdD, Instructor (Term) of Medicine and Executive Director of Diversity Initiatives; change of appointment to Instructor (Term) of Medicine and Associate Dean for Community Engagement and Diversity, July 1, 2017. Appointment as Associate Dean is at the pleasure of the Board of Trustees.

Public Health and Information Sciences

Karunarithna Kulasekera, PhD, Professor (Tenured) and Chair of Department of Bioinformatics and Biostatistics; additional appointment as Assistant Dean for Academic Affairs, July 1, 2017. Appointments as Department Chair and Assistant Dean are at the pleasure of the Board of Trustees.

The motion passed with Mr. Armstrong opposed.

Authorization to Amend Alvarez & Marsal Contract

Mr. Sahney made a motion, which Dr. Wright seconded, to approve the following resolution:

RESOLVED, the Board of Trustees authorizes the Chairman of the Board to negotiate an amendment of the contract with Alvarez & Marsal to cover additional expenses that are responsive to the information requested by board counsel as a result of the forensic audit of the UofL Foundation, as presented to the Board of Trustees on June 8, 2017.

The motion passed.

IX. Adjournment

Dr. Wright made a motion, which Prof. Trucios-Haynes seconded, to adjourn.

The motion passed and the meeting adjourned at 4:11 p.m.

RECOMMENDATION TO THE BOARD OF TRUSTEES
CONCERNING TUITION INCREASES AND RELATED CHANGES FOR
ACADEMIC YEAR 2017-18

Board of Trustees – June 15, 2017

RECOMMENDATION:

The President recommends that the Board of Trustees make no increases to tuition rates for AY 2017-18. The following table shows the tuition rates for AY 2016-17 that will remain the same in AY 2017-18. This recommendation keeps with the Board of Trustees decision in August 2016 to not increase tuition rates in AY 2017-18.

TUITION RATE INCREASES:

The following Proposed Tuition Schedule lists the recommended tuition rates for AY 2017-18. As indicated, no tuition rate increases are proposed for AY 2017-18.

	AY 2017	AY 2018	Change	
			Amount	Percent
Undergraduate	<u>Semester Rates</u>			
Resident	5,534	5,534	0	0.0%
Nonresident	13,045	13,045	0	0.0%

The background of the slide is a photograph of the University of Louisville's main entrance. A large, white stone archway spans across a brick-paved walkway. The archway is supported by two brick pillars topped with white decorative finials. The words "UNIVERSITY OF LOUISVILLE" are engraved in the center of the arch. In the foreground, a cobblestone path leads towards the entrance. The scene is surrounded by lush green trees and a clear sky.

UNIVERSITY OF
LOUISVILLE[®]

Presentation to UofL Board of Trustees
FY 2017-18 Operating Budget

Dr. Greg Postel, Interim President
Susan Howarth, Interim CFO and Chief Budget Officer

June 15, 2017

Changes from Budget Proposal Presented in May

- **Revised Enrollment Expectations**
 - May Budget included an additional 400 students
 - New forecast is for 200 fewer students in Fall 2017 versus Fall 2016
 - Meeting freshmen class targets: expected increase of about 150 students
 - BUT fewer returning students (AY 2016-17 one of largest graduating classes in university's history)
- **Based on this, tuition revenue expectations reduced by \$7.5 million**
 - Fall and Spring lower by 600 students or \$6 million
 - Summer is lower by \$1.5 million based on actual summer revenue
- **Continue to monitor tuition revenue and make adjustments as required**
- **Plan in place to expect increased enrollments by Fall 2018**

Total Proposed FY 2018 Operating Budget

	FY 2017	FY 2018	FY 17-18 Change	
	Budget	Budget	Amount	Percent
General Funds	\$548,339,500	\$504,858,900	(\$43,480,600)	-7.9%
UofL Corporations	730,955,300	725,976,200	(4,979,100)	-0.7%
Total Operating Budget	\$1,279,294,800	\$1,230,835,100	(\$48,459,700)	-3.8%

UofL Corporations

UofL Corporations include the University of Louisville Research Foundation, Inc., University of Louisville Foundation, Inc., University of Louisville Athletic Association, Inc., the University of Louisville Medical School Fund, Inc., and the Quality and Charity Care Trust, Inc.

**RECOMMENDATION TO THE BOARD OF TRUSTEES
CONCERNING THE PROPOSED BUDGET FOR FISCAL YEAR 2017-18**

Board of Trustees – June 15, 2017

RECOMMENDATION:

The President recommends that the Board of Trustees approve the proposed University operating budget for Fiscal Year 2017-18, as attached.

BACKGROUND:

The proposed General Fund Operating Budget for the University of Louisville is \$504,858,900 for the Fiscal Year 2017-18. This is a decrease of \$43,480,600, or 7.9%, including debt service and contractual obligations.

UofL continues to embrace transparency, campus collaboration, and linkage with the strategic plan in developing a realistic budget. All campus constituencies were briefed throughout the budget development cycle as successive iterations of the proposed budget were developed and discussed.

There are four major themes in the FY 2018 Operating Budget. They served as touchstones for all major budget decisions:

1. Resolving a structural imbalance in the university's operating budget;
2. Keeping college affordable for our students by adding \$1.3 million in financial aid and scholarships;
3. Making strategic allocations that advance the mission of the university in FY 2018; and
4. Establishing a firm financial foundation for FY 2019 and beyond.

May 12, 2017

To the Board of Trustees:

I am pleased to submit this recommendation for the University of Louisville's Fiscal Year (FY) 2018 Operating Budget.

This budget was developed in a harsh fiscal environment in which the University of Louisville is facing continuing state budget cuts and a significant loss of revenue from the UofL Foundation. The university also must deal with a structural imbalance that necessitated immediate, dramatic action this spring. We have taken this deficit head-on, with sacrifices being made in every unit on our campuses. These actions will allow us to put the recent past behind us and move ahead in our state-mandated efforts to become one of the nation's leading metropolitan research universities.

A year-end projection of FY 2017 revenues and expenses conducted in January concluded that the university stood on unstable financial ground. Net income for the university was forecast to be close to zero. The financial condition for FY 2018 appeared gloomier. Without budgetary changes, FY 2018 would end in a deficit. To improve its financial condition, the university immediately reduced its FY 2017 general fund budget, redoubled efforts to grow student enrollment, expanded financial monitoring activities, and imposed a hiring frost. To ensure a balanced bottom-line in FY 2018, we will reduce operational costs, leverage the size of the university with respect to procurement contracts and purchases to reduce spending, and through attrition fill fewer positions.

Despite these necessary actions and underlying financial challenges, the University of Louisville continues to provide a strong educational experience and serve its students well. The university graduated a record 5,152 students in 2016-17. More than 18 percent of our graduates were minority students, and 14.3 percent were first-generation college students. Our graduation rate is on track to be among our highest ever. UofL also continues to serve our community both on and off campus and to conduct groundbreaking research that will enhance the lives of future generations.

In 2017, we have shown that commitment in many ways. Here are a few highlights:

- Opening the Teaching Innovation Learning Lab in Ekstrom Library - a state-of-the-art space for faculty and students to collaborate and learn outside the traditional classroom.

- Establishing the “3+3 Accelerated Law Program,” a partnership between the Brandeis School of Law, the College of Arts and Sciences, Kentucky Wesleyan, Murray State and Campbellsville University, that counts eligible undergraduates’ senior year of college as their first year of law school.
- Producing 15 Fulbright Students, raising UofL’s total to 104 since 2003, which is more than all other Kentucky public universities combined over that period.
- Securing prestigious appointments and grants. For instance, Tara Schapmire, PhD, an assistant professor at the School of Medicine and the Kent School of Social Work, was voted president-elect of the Association of Oncology Social Work. Janice Sullivan, MD, and colleagues in the Department of Pediatrics received a \$1.6 million National Institutes of Health grant to study environmental influences on child health outcomes.
- Working together, the schools of Music and Medicine, the Kent School and the Speed School provided tutoring, counseling and other support to the West End School in Louisville, a free, private college preparatory elementary and middle school for boys from disadvantaged backgrounds.

While fulfilling our commitments we continue to emphasize affordability. The University of Louisville will hold firm on its commitment not to raise tuition rates in fall 2017, making us the only public university in Kentucky to keep tuition flat.

We also continue to offer programs and aid that help students afford college. This budget increases our general financial aid pool by \$800,000, plus an additional \$500,000 in financial aid for the Brandeis School of Law. It also includes funding for the innovative Credit for Credits program, which incents eligible students to graduate in four years by offering tuition credits for those who complete at least 30 hours in one academic year. A student who maintains eligibility in this program will actually see a decrease in tuition in FY 2017-18.

We are also offering a summer tuition grant program that, once a student has taken three hours at the regular tuition rate, provides a 25 percent discount on most undergraduate courses.

This budget also focuses on growing the university. We have included strategic allocations for faculty promotions and for enrollment growth. We also have included funding to add faculty to our Speed School of Engineering, which is experiencing record-setting demand.

This has been a trying time for the university community. Our current financial situation demands that we set priorities and refocus our efforts on those areas most critical to our students' success and on our core functions of teaching, research and community service. This budget lays the groundwork to address those priorities, helping us meet our mandate of becoming a premier metropolitan research university.

A handwritten signature in black ink, appearing to read "Greg Postel". The signature is written in a cursive, flowing style.

Greg Postel, M.D.
Interim President

HIGHLIGHTS

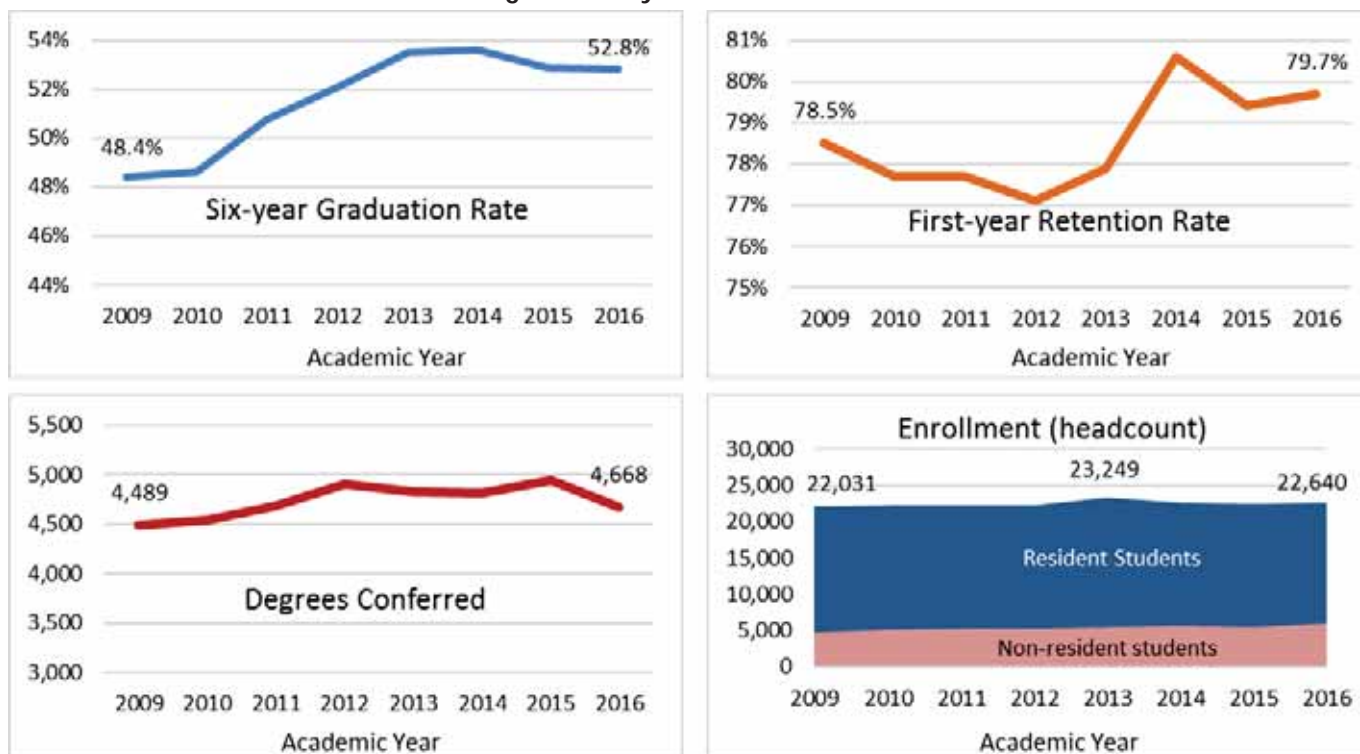

UNIVERSITY of LOUISVILLE

INTRODUCTION

The University of Louisville is a state-supported metropolitan research university located in Kentucky's largest city. The university has three campuses. The Belknap Campus, located near Old Louisville, includes the College of Arts & Sciences, College of Business, College of Education and Human Development, Kent School of Social Work, School of Interdisciplinary and Graduate Studies, School of Law, School of Music, and the Speed School. Located in downtown Louisville, the Health Sciences Campus is home to the university's health related programs, including the School of Medicine, School of Dentistry, School of Nursing, and the School of Public Health and Information Sciences. The Shelby Campus is located in eastern Jefferson County and houses the Delphi Center, home to the university's online and continuing education offices. The university offers undergraduate, graduate, and professional degrees in more than 200 programs. Full-time equivalent enrollment in fall 2016 was 18,814.

Figure A displays several important student metrics. Starting at the top left and moving clockwise, the first figure shows that UofL's 6-year graduation rate increased from 48.4 percent in Academic Year (AY) 2009 to 52.8 percent in AY 2016 for first-time, full-time baccalaureate degree-seeking students. The next shows that most freshmen students continue at UofL into their second year. Enrollment by residency status follows. The last figure shows the number of degrees conferred at UofL.

Figure A: Key UofL Student Metrics¹

Source: Office of Institutional Research, "Just the Facts."

The university maintains a strong commitment to instruction, research, and community service. Below are a few notable achievements in these areas during FY 2017. Many more accomplishments—some routine, some extraordinary—are unheralded here, but contributed immensely to the success of the university.

Instruction

- The Law School, in collaboration with the College of Arts and Sciences, Kentucky Wesleyan, Murray State and Campbellsville University, established a "3+3 Accelerated Law Program" that allows eligible undergraduate students to make their senior year of college count as their first year of law school.

-
- The Delphi Center opened the Teaching Innovation Learning Lab (TILL) in Ekstrom Library, a state-of-the-art space, for faculty and students to collaborate and learn outside of the traditional classroom. ²

Scholarly Activity and Research

- For the 2016-17 academic year, 15 Fulbright Students were named from the university raising the total number from UofL to 104 since 2003. Over this period, there have been more Fulbright Students from UofL than from all other postsecondary institutions in Kentucky combined.³
- For the third year in a row, a UofL student has won the Truman Scholarship, the only one in Kentucky. The 2017 Truman Scholar, Judson Alan, is a political science major from the College of Arts & Sciences.⁴
- Tara Schapmire, Ph.D., an assistant professor at the School of Medicine and at the Kent School of Social Work, was elected president-elect of the Association of Oncology Social Work.
- Janice Sullivan, M.D., chief and medical director of the Kosair Charities Pediatric Clinical Research Unit in UofL's Department of Pediatrics, leads a team that was awarded \$1.6 million by the National Institutes of Health to study environmental influences on child health outcomes.⁵

Community Service

- In partnership with several external groups, the School of Medicine aided the launch of the Autism Friendly Business Initiative that helps families look for autism-friendly businesses.⁶
- Undergraduate students in the School of Nursing helped administer chicken pox, hepatitis B, and other vaccines to adults and children at Kentucky Refugee Ministries.⁷

- Faculty and staff from the School of Music, Kent School, Speed School, and School of Medicine provide tutoring, counseling, and other support to the West End School in Louisville, a free, private college preparatory elementary and middle school for boys from challenging backgrounds.⁸
- The Speed School opened its third “maker space” at Central High School in 2016. These spaces are equipped with machinery and 3-D printers to help increase awareness of STEM fields.⁹
- UofL was named “Most Beautiful Campus” in Kentucky by *Travel + Leisure* magazine.¹⁰

OVERVIEW OF HIGHER EDUCATION IN THE UNITED STATES

Higher education in the US is evolving. Changes in demographics and education delivery to an increasingly diverse and technologically shrewd population are rapidly occurring. Addressing these issues has important implications for the University of Louisville. In order to advance the mission of the university, successfully educate students, and become model centers of research and community service, our board members, donors, legislators, faculty, staff, and students should have a fundamental understanding of this environment. The following sections highlight several important characteristics or trends in higher education today.

Value

The value of a postsecondary education is well established. Evidence consistently shows that a postsecondary education increases human capital and creates positive spillover impacts.¹¹ People with a postsecondary education degree earn, on average, more than their non-degree counterparts, are more likely to volunteer, and have higher job satisfaction, to name a few advantages.¹²

Even though the benefits of a higher education are clear, postsecondary institutions, particularly public colleges and universities, have been buffeted by a variety of external and internal forces in recent years. These challenges include changes in demographics, a push to tie state financial support to academic performance, small rates of return on endowments, and growing concerns about tuition rates, particularly in regards to the amount of student debt.

Enrollment

Undergraduate enrollment at 4-year public institutions in the US has grown from approximately 5.9 million students in Fall 1998 to 8.3 million students in Fall 2014.¹³ Of the total number of students enrolled in public 4-year institutions in the Fall of 2014, 54.5 percent were women.¹⁴ Non-white students represent a growing share of undergraduate student populations. In 1980, non-white enrollment represented 17 percent of total undergraduate enrollment; in 2013 it was 42 percent.¹⁵

Although enrollment in higher education has grown, it is largely influenced by the number of high school graduates. While more than 85 percent of high school graduates enroll in college within eight years,¹⁶ projections from the National Center for Education Statistics suggest that the number of high school students in the US will grow by less than 1.5 percent between 2015 and 2025. This will place greater pressure on colleges and universities to attract and retain students. In this environment, some evidence suggests that public institutions with large student populations and a significant research component will fare better than smaller, regional colleges and universities.¹⁷

State support

Total state funding for higher education declined by nearly \$10 billion since the Great Recession in 2008 and 2009.¹⁸ Between FY 2012 and FY 2017, however, state support for higher education across the US increased by 14 percent.¹⁹ Regrettably, Kentucky has continued to reduce funding to postsecondary institutions. Since FY 2007, the Commonwealth of Kentucky has reduced state appropriations to colleges and universities by 17 percent, or \$179.9 million.

When state funding dips, tuition rates and tuition revenue typically increase to offset the decline. Figure B shows the linkage between states' financial support for postsecondary institutions and tuition revenues.

Figure B: Public Educational Appropriations and Net Tuition Revenues per FTE, US, FY 1990-2015

Source: SHEEO, State Tuition, Fees, and Financial Assistance Policies: Initial Findings. March 2017

In addition to diminished state financial support, some states have implemented funding models that allocate state appropriations according to an institution’s performance on graduation, retention, and job placement. According to a 2015 report by the National Council of State Legislatures, 32 states allocated at least a portion of state funding to colleges and universities according to performance.²⁰ Regionally, Tennessee employs the most aggressive performance funding model; all state funding, less a base amount for operational support, is allocated

on the basis of student progression, number of degrees and degrees per full-time equivalent student, research/grant funding, transfers, and six-year graduation rate.²¹ Indiana, by comparison, allocates only 6 percent of state appropriations according to performance.²²

Student Debt

Student debt is a significant concern. Over the past decade, US student debt has more than tripled to \$1.3 trillion.²³ Part of the increase is due to more people attending college. Rising tuition rates is the other main factor. From 2010-11 to 2015-16, average tuition and fees at public 4-year institutions increased by 13 percent.²⁴

Despite the increase in tuition rates, average undergraduate student debt at UofL compared to the average at other institutions in Kentucky remains relatively low. UofL students graduate, on average, with almost \$4,000 less student loan debt than students at other institutions in Kentucky. Further, a smaller percentage of UofL graduates carry any debt upon graduation relative to other institutions in Kentucky.²⁵ According to the Council on Postsecondary Education (CPE), a smaller percentage of UofL undergraduate students default on their federal student loans compared to students from most other 4-year institutions in Kentucky.²⁶ Moreover, the default rate for UofL students has declined from 9.7 percent for the 2010 cohort to 7.2 percent for the 2013 cohort.²⁷

Table 1 shows that a smaller percentage of UofL graduates carry student loan debt and for those that carry debt, it is less than the amount carried by graduates of other four-year institutions in Kentucky.

Table 1: Undergraduate Student Debt at UofL Compared to Kentucky State Average
(2015 graduates)

	State Average	UofL
Student Debt	\$27,225	\$23,488
Proportion with Debt	64%	52%

Endowments

Significant financial support for postsecondary education institutions comes from individuals and corporations who donate money, property, or other assets. These charitable donations take the form of a gift (which typically is completely spent in a relatively short period), or an endowment (which protects the corpus of the donation but allows investment returns to be spent in perpetuity).

Endowment spending funds almost 16 percent of operating expenses, on average, at institutions with endowment assets of more than \$1 billion. By comparison, UofL's endowment spending is about 8 percent of total general fund expenses. For institutions with endowment assets of less than \$25 million, endowment spending funds 5 percent of operating expenses.²⁸

Higher rates of return, all else equal, allows for higher endowment spending. As recently as 2016, however, investment rates of return across postsecondary institution endowments lost, on average, 1.9 percent. Even institutions such as Yale, with a large staff of investment professionals, had low returns, and Harvard University laid off half of its investment fund staff following declining investment performance.

Figure C shows average and median investment rates of return for college and university endowments from 2007 through 2016. Although annual investment rates of returns exceeded 10 percent five times in the past 10 years, overall returns during that period were reduced by the large losses in 2008 and 2009 during the Great Recession and then slow-growth years in three of the past five years.

Figure C: Median Investment Rates of Return for College and University Endowments, 2007-2016

Source: NACUBO and UofL Foundation.

Moody's Investor Services, a rating agency that evaluates the financial stability of postsecondary institutions, recently announced that poor investment performance across the industry represented a potential downside risk.²⁹ Because endowments are an important source of funds in higher education, Moody's cautionary note requires close attention in the near-term.

BUDGET PLANNING OVERVIEW

OVERARCHING BUDGET PRINCIPLE

The university's overarching budget principle guides budget decision-making, helps ensure a transparent process that prioritizes competing initiatives, and positions the university for success.

The University of Louisville is first and foremost an academic institution committed to excellence. The education of its students in undergraduate, graduate and professional programs is founded on a teacher-scholar model with a strong experiential component. The success and well-being of current and future students of the University of Louisville is of singular importance in all budgetary decisions.

COLLABORATIVE INPUT INTO BUDGET PLANNING

Input from the campus community is an important part in planning the university's budget. Although operating under a significantly condensed timeline due to the efforts involved in resetting the FY 2017 budget mid-year, many opportunities for input into the development of the FY 2018 budget existed. These included two university-wide budget forums hosted by the president, one on the Belknap campus and one on the Health Sciences campus. Finance and administration officials also met multiple times with deans, vice presidents, faculty and staff, and representatives from the Student Government Association.

Development of the FY 2018 operating budget also included, for the first time, a reshaped advisory committee. Known as the "Budget Advisory Committee", this representative group of academic leaders, staff, and students met multiple times during March and April to review, discuss, and advise the provost about how to strategically allocate limited resources. These meetings provided valuable feedback. While decision-making rests with the president and provost, in large measure, the FY 2018 operating budget reflects the input of members of the Budget Development Committee.

Figure D highlights the opportunities for campus input into the budget development process. The timeline for the comprehensive consultation with the campus community is shown in Figure E.

STRATEGIC BUDGET AND FINANCIAL PLANNING

The university’s strategic plan is rooted in its goal of becoming a “premier metropolitan university” by 2020 as mandated by the state’s Postsecondary Education Reform Act of 1997, a seminal event in the life of UofL. In 2012, the university began work on a supplement to our existing strategic plan aimed at re-shaping and re-engineering the university. Called the *21st Century University Initiative: Powering the 2020 Plan*, this plan intends to help the university meet its goals and better serve students and the community.

The core component of the plan is Academic and Research Priorities. Academic units are the engines for accomplishment of the 21st Century University Initiative. Critical to their success is the Financial Health of the university and a Culture of Excellence across campus; initiatives in these two plan components provide critical, foundational support for success. Through coordinated partnerships, thoughtful enrollment growth, strategic investments, and reallocations of resources, the university can successfully implement the *21st Century University Initiative: Powering the 2020 Plan* and accomplish the goals of the 2020 Plan.

Synergistic to the financial plan in development for the *21st Century University Initiative: Powering the 2020 Plan*, and in alignment with the planning for the FY 2018 budget, a new academic “Strategic Planning and Implementation” process has been initiated. Led by the university provost in collaboration with the Executive Vice President for Health Affairs (EVPHA) and the Executive Vice President for Research

& Innovation (EVPRI), the purpose was to communicate and align strategic objectives across all academic units. It also ensured that the provost and the deans had a shared understanding of each unit's short- and long-range goals, particularly within the context of the *21st Century University Initiative: Powering the 2020 Plan*.

BUDGET PRIORITIES

The FY 2018 Operating Budget has four priorities:

1. Resolving a structural imbalance in the university's operating budget;
2. Keeping college affordable for our students by adding \$1.3 million in financial aid and scholarships;
3. Making strategic allocations that advance the mission of the university in FY 2018; and
4. Establishing a firm financial foundation for FY 2019 and beyond.

Structurally Balanced Budget

An analysis of anticipated revenues and expenses for FY 2018 indicated a structural imbalance. To help ensure the university's short- and long-term success, the FY 2018 budget emphasizes efficient and cost-conscious administrative operations, trimming travel expenses, consolidating purchasing decisions in order to leverage buying power, and scrutinizing the need to refill vacant positions. In addition, a university-wide campaign for suggestions to reduce expenses or increase revenues has received more than 200 responses through April. The university will likely implement many of these recommendations.

Keeping College Affordable

To help thousands of undergraduate and graduate students meet the financial costs of obtaining a college degree, the FY 2018 budget holds tuition rates constant and increases overall financial aid by \$1.3 million. The budget also maintains \$2.5 million for the innovative Credit for Credits program, which financially rewards undergraduate students who earn at least 30 credit hours each academic year. In addition to saving students money, this program could also improve student retention and graduation rates. The university will continue to monitor the effectiveness of the program; Fall 2017 marks the first anniversary of the program.

Strategic Allocations

Using a \$12 million reallocation pool from a three percent across-the-board general fund budget cut, the FY 2018 Operating Budget makes several important strategic allocations. Academic quality and support, recruitment of superior students, decanal start-ups and unit program development highlight a few of the targeted areas. Funding for strategic initiatives and prior commitments will be monitored and must be used as approved unless the Budget Advisory Committee and the senior leadership agree to redirect the funds. Funds are held in reserve to address emergent needs and initiatives during the fiscal year, but units and divisions are advised not to request or expect any additional funding to cover projected expenses, reductions or other adjustments to the FY 2018 budget.

Sound Financial Footing

The FY 2018 Operating Budget for the University of Louisville represents a structurally sound budget that will allow the university to grow and thrive in future years. The platform for the budget is a reset of the FY 2017 general fund budget, which included a revised forecast of revenues and expenses. In addition, the FY 2018 budget includes expenditure constraints affected through service efficiency and administrative economy and capture of salary lines vacated through attrition during the year. Additional constraints may be imposed mid-year if actual savings or increased revenue fall short of projections.

OPERATING BUDGET OVERVIEW

The University of Louisville's Fiscal Year (FY) 2018 Operating Budget is \$1.2 billion. This represents a \$48 million, or 3.8 percent, decrease compared to the FY 2017 Operating Budget. Sound financial models provide the basis for the budget. To avoid any delayed recognition of fiscal challenges, senior staff will regularly monitor the budget throughout the fiscal year. Analyses of budget-to-actual revenues and spending will form a cornerstone of these efforts. In addition, scrutiny of the university's cash balance will continue.

The university's budget has two primary groupings: general funds and non-general funds. The general fund budget encompasses most all-purpose activities of the university, including, for example, instruction and operational expenditures. General fund revenues primarily come from tuition, state appropriations, and various fees.

Non-general funds include activities tied to specific purposes such as grants, clinical revenues, and athletics, and flow through the university's affiliated corporations: University of Louisville Research Foundation, Inc. (ULRF); the University of Louisville Athletic Association, Inc. (ULAA); and the University of Louisville Foundation, Inc. (ULF), which is a component unit of the university. The governing board for each corporation approves the respective budget for each entity at their respective board meetings.

Table 2 shows the university's total operating budget.

Table 2: UofL Operating Budget FY 2018

	FY 2017 Budget	FY 2018 Budget	FY 17-18 Change	
			Amount	Percent
General Funds	\$548,339,500	\$504,858,900	(\$43,480,600)	-7.9%
UofL Corporations	730,955,300	725,976,200	(4,979,100)	-0.7%
Total Operating Budget	\$1,279,294,800	\$1,230,835,100	(\$48,459,700)	-3.8%

GENERAL FUND REVENUES

GENERAL FUND REVENUE

OVERVIEW

The total general fund revenue budget for FY 2018 is \$504.9 million. This is \$43 million, or 7.9 percent, less than FY 2017. Re-categorizing one-time funds from hospital affiliation to non-general funds and an adjustment to tuition revenue projections account for most of the year-over-year change.

The largest source of general fund revenue is tuition and fees, which total \$304.2 million and represent 60.2 percent of the total general fund revenue budget. The FY 2018 budget does not include any proposed increases in tuition rates. State appropriations, the second largest source of funds, total \$133.6 million in FY 2018.

Table 4 shows all major revenue categories in the university's general fund budget. The following sections provide more detail about each revenue category.

General Fund Revenues

2018 Operating Budget

Table 4: General Fund Revenues by Source for FY 2018

Description	FY 2017 Budget	FY 2018 Budget	Percent of Total	FY 17-18 Change	
				Dollars	Percent
Tuition and Fees	\$323,722,800	\$304,165,200	60.2%	(\$19,557,600)	-6.0%
State Appropriation and Other State Funds	133,638,400	133,638,000	26.5%	(400)	-0.0%
Transfers In	28,165,200	26,467,800	5.2%	(1,697,400)	-6.0%
Auxiliary Enterprises	13,653,400	23,323,200	4.6%	9,669,800	70.8%
Hospital-Related Revenue*	37,470,200	6,573,000	1.3%	(30,897,200)	-82.5%
Other Revenues**	11,689,500	10,691,700	2.1%	(997,800)	-8.5%
Total	\$548,339,500	\$504,858,900	100.0%	(\$43,480,600)	-7.9%

* Prior to FY 2018, revenues and expenses were budgeted as general funds. In FY 2018, they are budgeted as non-general funds to reflect the limitations on how those funds can be spent.

** Includes other non-educational revenue, interest income related programs, organized activities related to instruction, and sales and services of educational activities.

Source: UofL Budget Office

TUITION AND FEES

Tuition and fee revenues total \$304.2 million for FY 2018. This is \$19.6 million less than FY 2017.

The tuition and fee budget does not raise tuition rates. The overall FY 2018 tuition and fee budget decreases due to a deliberate university-wide effort to realign tuition budgets according to an analysis of past enrollment. Three factors in particular account for most of that change.

First, in recent years, declining enrollments in the Brandeis School of Law and the College of Arts and Sciences have failed to meet planned increases in total university enrollment. Both changes mirror national trends. Law school enrollment in the US, for example, declined by 25 percent between 2010 and 2016.³⁰ Similarly, across the period between 2011 and 2016, the number of law school students at UofL declined by 24.9 percent. For Fall 2017, enrollment in UofL's law school breaks this pattern and is expected to realize a year-over-year increase.

Second, enrollment in summer courses continues to fall short of expectations. Multiple efforts each of the past two summers to increase the number of courses offered have had limited success in attracting more students. Consequently, tuition revenues in summer have consistently fallen short of budget. For the summer of 2017, another incentive plan has been implemented. Instead of focusing solely on increasing the number of courses, this option essentially provides a 25 percent tuition discount to undergraduate students who enroll in more than three credit hours during the summer. It is too early to evaluate the effectiveness of this effort, but it will be closely monitored.

Third, as students increasingly want the flexibility and ease associated with online courses, the university has recognized a significant shift in the composition of its tuition revenues. Instead of growth in face-to-face tuition revenues, online tuition revenues have increased more. Total online credit hours have increased from 31,430 in AY 2010-11 to 61,161 in AY 2016-17, which is an increase of 95 percent. The consequence from this shift resides with the way in which the university allocates online versus face-to-face tuition revenues. Face-to-face tuition revenues represent general university resources that can be allocated to any activity. Online tuition revenues follow university policy from 2000 and allocate 50 percent of revenues directly to the academic unit providing the online course. As a result, the growth in online courses and tuition revenue has benefited academic units to the detriment of central university funds. Instead of centrally deciding how to allocate face-to-face tuition revenues, the existing model, without review, allocates these revenues to academic units.

Tuition Rates and the Council on Postsecondary Education

The Council on Postsecondary Education (CPE) is the state coordinating agency for the eight public universities and the community college system in the Commonwealth of Kentucky. One of its statutory responsibilities is to set tuition guidelines and then approve resident undergraduate tuition rates at all public higher education institutions.

For FY 2018, CPE capped resident undergraduate tuition rate increases at 4 percent for the University of Kentucky. Tuition rate increases cannot exceed 5 percent at Morehead State, Murray State, Kentucky State, and Eastern Kentucky universities. The cap is 4 percent at Northern Kentucky University and 3.9 percent at Western Kentucky University because each university will receive additional state funds in FY 2018 to address funding equity. UofL's tuition rates for FY 2018 will not change. In 2016, the university adopted a biennial approach to tuition setting and the Board of Trustees voted to hold tuition rates constant in FY 2018.

Table 5 shows the proposed Academic Year (AY) 2018 tuition rates for undergraduate, graduate, and professional programs. Undergraduate students enrolled in 12 or more credits hours in a semester are considered “full-time” and pay the semester rates listed in the table. For graduate students, full-time status is 9 credit hours.

Table 5: Regular Tuition Schedule

(amounts in dollars)	AY	AY	Change

New or Modified Tuition and Fees

The Task Force on Tuition and Fee Setting—a committee appointed by the provost that consists of deans, faculty, staff, and students—reviews all tuition and fee requests from academic and support units and recommends a course of action to leadership. The Task Force met from July 2016 through February 2017. The initial meetings focused on the overall costs borne by UofL students including tuition, academic

General Fund Revenues

2018 Operating Budget

fees, housing, dining and other related educational costs. The Task Force also examined college affordability, regional changes to tuition rates, and state appropriations to higher education in contiguous states. Tuition rate comparisons between UofL and its benchmark institutions and state and regional competitors was also reviewed. Table 7 lists the fee requests recommended by leadership. Detailed descriptions about each recommendation follow the table.

Table 7: Summary of Proposed Changes to Course and Unit Fees for AY 2018

Unit / Fee Name	Fee Amount	Fee Description
College of Arts and Sciences		
1. A&S Technology Fee	\$0.50 per credit	Up to \$6 per semester; for technology upgrades
2. Theater Arts Fee	\$0	Rescind existing fee
College of Business		
3. UK/UofL Executive MBA Program	\$20,000	Classify \$20,000 of existing \$67,500 as fee.
School of Nursing		
4. Certified Nursing Assistant	\$500	Fee to cover non-credit course fee for clinical compliance requirement
Kent School of Social Work		
5. Kent School Fee	\$25	Course fee to support purchase and maintenance of student placement software
School of Medicine		
6. Technology Fee	\$700 / \$1,250	Fee to support the purchase of tech support of preconfigured laptops for each student
Speed School of Engineering		
7. Bioengineering Course Fee	\$100	Course fee for BE 605 to cover costs of supplies, chemicals and equipment used
Office of Enrollment Management		
8. Undergraduate Application Fee	\$25	Decrease to undergraduate application fee

Unit / Fee Name	Fee Amount	Fee Description
School of Interdisciplinary & Graduate Studies		
9. Graduate Application Fee	\$65	Request increase to graduate application fee
Office of Chief Operating Officer		
10. University Parking	Various	Parking rate increase for all university permits
Vice Provost for Student Affairs		
11. University Housing	Various	3% increase in room rates for AY 2018

College of Arts & Sciences

1. A new \$0.50 per credit hour fee for all Arts & Sciences courses will support technology upgrades within the school. The fee will enable the College of Arts & Sciences to upgrade technology in 74 classrooms, including funding for additional smartboards, replacement computers, projectors and screens.

The A&S Dean’s office currently shares the responsibility for maintaining and upgrading equipment in academic departments. However, the college does not have a dedicated technology budget. The A&S Dean’s office annually reserves about \$75,000 to fund all equipment expenses of the faculty, including start up for new hires, staff, and classrooms. Seven departments have course fees but use those funds for equipment and supplies in labs and studios (Biology, Chemistry, Classical and Modern Languages, Mathematics, Fine Arts, Physical Astronomy and Theatre Arts). The other 15 departments do not have a dedicated budget or revenue stream for technology needs. All current A&S funding sources combined are inadequate to sustain recurring equipment maintenance or upgrades.

Other units (Business, Engineering, Law, Medicine, and Public Health) assess a technology fee that ranges from \$25 to \$250 per student. The intent, when determining the technology fee amount for A&S students, was to maximize the benefits on the college’s technology needs while minimizing the cost to students. The proposed fee expects to generate \$75,000 to \$80,000 per academic

year. The college anticipates that this technology fee will go beyond basic maintenance and upgrades in the near future and allow the college to upgrade all 74 classrooms currently maintained by A&S.

After three years, the College of Arts & Sciences will audit the expenditures of the technology fee to (1) assure that the funds were used as proposed for classroom technology; (2) assess the current state of technology; and (3) to reassess the need for the fee to continue at the level of \$0.50 per credit up to \$6 per semester.

2. The College of Arts and Sciences will rescind a \$20 Theater Arts fee because it is no longer needed.

College of Business

3. The Executive MBA Program currently receives 100% of all tuition (less mandatory fees). Costs that are traditionally associated with program fees are currently funded from the tuition element of the program charge. Now, the College of Business will assess a \$20,000 fee to all students in the UK/UofL Executive MBA program. The total program cost of \$67,500 will remain unchanged, which includes mandatory UK/UofL student fees of \$1,998. The purpose of this change is to specify that \$20,000 of the total program cost is a program fee. The remaining \$45,512 will be classified as tuition and \$1,998 for mandatory UK/UofL student fees. Currently, the program operates very close to the break-even point.

School of Nursing

4. The School of Nursing \$500 non-credit course fee is required to remain in compliance with its clinical compliance requirement. Beginning in Fall 2017, upper-division nursing students will be required to complete a Certified Nursing Assistant Program (CNA). By adding this component, the School will remain in alignment with other nursing programs in the Louisville area. The course will be open to any student interested in becoming a CNA. Only students electing to take this non-credit course will pay the \$500 program fee.

Kent School of Social Work

5. The Kent School \$25 per course fee for Social Work courses 470, 471, 670, 671, 672, and 673 will support the purchase and maintenance of student placement software called *Sonia*, which automates the practicum placement process. It includes the ability

to show available placements, record practicum hours, manage submission of assignments, and allows the School to interface more easily between students, faculty, and community social workers who are supervising students.

The Kent School currently uses an outdated system that forces students and field supervisors to hand-deliver or fax/mail copies of documents from assignments and assessments. The new software will improve the management of data and paperwork for practicum courses. Information about licensure and education, as well as career opportunities, will be able to be stored in *Sonia*.

The fee will not cover the initial cost of purchase, support, and customization required for implementation of the new software system. The school estimates a shortfall of approximately \$1,150 in the first year of implementation, which the Kent School will cover. The school estimates that there may be a surplus of \$1,850 in the second year, and by the fourth year the net will be approximately zero. The school plans to use any unspent funds to offset other practicum related expenses, such as travel reimbursement for practicum liaisons who provide face-to-face visits with students and agency supervisors. This type of face-to-face interaction is a valuable part of the student experience at the Kent School and gives the school an ability to better supervise the quality of experiences students have in the agencies.

School of Medicine

6. The School of Medicine is raising the technology fee from \$500 to \$700 per year for current students. The fee is being increased due to a greater reliance on technology in the curriculum coupled with demands of LCME Accreditation (Liaison Committee on Medical Education is the US Department of Education recognized accrediting body for M.D. degrees.)

All new students beginning in the fall of 2017 will pay \$1,250 per year; the standard \$700 base technology fee plus an additional \$550 to cover the cost of university-provided laptops, associated support costs for the provided laptops, and anticipated costs of management software.

General Fund Revenues

2018 Operating Budget

Speed School of Engineering

7. The Department of Bioengineering \$100 course fee for BE 605 will cover the costs of purchasing consumable supplies, chemicals and safety equipment costs. The current cost of consumables per student is approximately \$200. The \$100 course fee is anticipated to generate up to \$1,000 per year. Enrollment for this elective course is limited to 10 students.

Office of Enrollment Management

8. The Office of Enrollment Management will decrease the undergraduate application fee from \$50 to \$25. By reducing the application fee, an increase in the number of applications, admissions, and enrollment is expected. There are no plans to change the mechanics of how the fee will be assessed.

School of Interdisciplinary and Graduate Studies

9. The School of Interdisciplinary and Graduate Studies will increase the graduate application fee from \$60 to \$65. The fee is assessed to students seeking admission to a graduate program, and will support the costs of processing applications. Increasing the application fee to \$65 places UofL in line with the university's benchmark institutions. An estimated \$32,000 to \$37,000 will be collected from the fee increase.

Parking

10. University parking rates will increase for the first time in six years. Table 8 summarizes the parking rate changes for FY 2018. The proposed increases will generate \$157,400 if the same number of each permit is purchased. In addition to the parking rate increases, the Parking Office is renegotiating parking lot leases, increasing visitor parking rates, and creating additional visitor and patient parking spaces to generate more revenues.

Table 8: Proposed Annual Parking Fees

STATE APPROPRIATIONS

State appropriations, including state-mandated programs, total \$133.6 million in FY 2018, almost unchanged from FY 2017. Over the past year, though, state funding of higher education has undergone a significant transformation in Kentucky.

The first change happened in April 2016. The state's biennial budget reduced appropriations to public postsecondary institutions in FY 2017 by 4.5 percent. For the University of Louisville, the reduction totaled \$6.3 million.

The second important change occurred in March 2017 when the General Assembly passed and the Governor signed legislation to align state appropriations to colleges and universities with specific performance metrics. The bill represented the culmination of almost two years of dialogue and debate among legislators, representatives from the governor's office, university and KCTCS presidents, CPE, and other higher education advocates.

CPE initially submitted a performance-funding model to the governor and the legislature in 2015. Carefully developed over 18 months, the plan called for restoring one-half of all state budget cuts since 2008 if universities and colleges met certain performance objectives. Under the plan, institutions would only compete against themselves. Unearned funds would represent a loss to the institution that failed to achieve its metrics but not a gain to another institution.

The 2016-18 enacted state budget did not include CPE's proposed performance-funding plan. Instead of restoring prior year budget reductions, the budget bill reduced each institution's FY 2018 net state appropriation by 5 percent (for a total of \$42.9 million) and placed that amount in a separate "at-risk" pool that universities would compete against each other to earn. To determine how those funds would be allocated among universities, the budget bill established a Working Group – a team that included each public university president, the president of KCTCS, two state legislators, the president of CPE, and two officials from the governor's office. The Working Group met many times from August through November in 2016 and issued its final report on December 1, 2016.

Legislation (Senate Bill 153) introduced in January 2017 incorporated most of the Working Group's recommendations. The final bill, signed by the Governor in April, included the following provisions:

General Fund Revenues

2018 Operating Budget

- Exclude Kentucky State University from the performance-funding model to acknowledge that institution's current precarious financial condition;
- Separate KCTCS from the universities (the two sectors will not compete for the same resources), in part because of differences in each sector's mission; and
- Exclude state-mandated programs (e.g., Equine Research at UofL) from the funding formula because those programs have specific revenue sources and purposes defined in state statutes.

Beginning with FY 2018, a portion of the state's allocation to public universities and colleges will be based on how well each institution performs on several metrics. Tables 10 and 11 display the student success metrics used in the performance-funding model to determine how state funds would be allocated among universities. From academic years 2014 to 2016, UofL, on average, produced the most underrepresented minority bachelor's degrees among public universities in Kentucky. UofL trailed only the University of Kentucky in all other student success metrics.

35% for Student Success

- number of baccalaureate degrees;
- number of STEM+H degrees;
- degrees earned by low- and moderate-income students;
- number of degrees earned by underrepresented minorities; and
- student credit hour progression.

Table 10 shows the three-year average of student success metrics for public universities in Kentucky from academic years 2014 to 2016.

Table 10: Three-year Average of Student Success Metrics for Public Universities in Kentucky from Academic Years 2014 to 2016

Institution	Bachelor's Degrees				Student Progression		
	Total Degrees	STEM+H Degrees	Low Income Degrees	URM Degrees	30 Credit Hours	60 Credit Hours	90 Credit Hours
University of Kentucky	4,255	1,464	1,353	469	3,726	3,846	4,303
University of Louisville	2,786	805	1,188	488	2,159	2,428	2,799

35% for course completion (i.e., credit hours earned)

Table 11 shows the three-year average of credit hours earned for public universities in Kentucky from academic years 2014 to 2016.

Table 11: Average Credit Hours Earned for 2014 to 2016 Academic Years

Institution	Credit Hours
University of Kentucky	708,724
University of Louisville	479,586
Western Kentucky University	409,622
Eastern Kentucky University	356,747
Northern Kentucky University	304,145
Murray State University	225,403
Morehead State University	180,383
Total	2,664,610

Source: Council on Postsecondary Education; UofL Budget Office

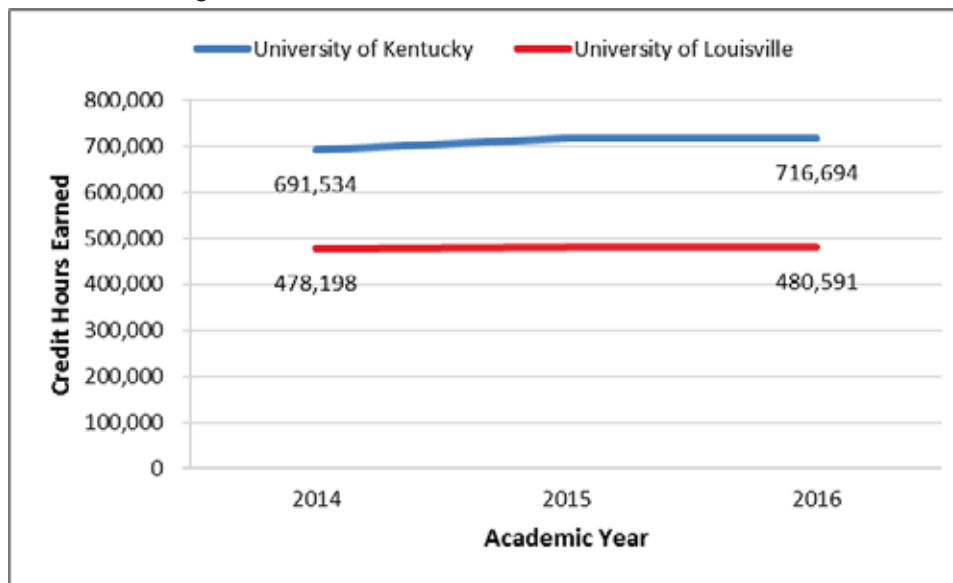

General Fund Revenues

2018 Operating Budget

Figure F shows credit hours earned in academic years 2014 to 2016. UofL's credit hours earned have remained relatively flat over this period, increasing by less than 0.5 percent. The number of credit hours earned by students at the University of Kentucky, meanwhile, increased by 3.6 percent.

Figure F: Credit Hours Earned from 2014 to 2016

Source: Council on Postsecondary Education; UofL Budget Office

30% for maintenance and operating expenses, institutional support, and academic support.

Increasing maintenance and operating expenses, relative to the other postsecondary institutions in Kentucky, will increase a university's share of funds from the state performance funding pool.

Using those parameters, the performance-funding model allocated \$42.9 million in FY 2018. Table 12 summarizes the distribution of the performance funding pool in FY 2018. State appropriations to UofL will decline by \$60,400 in FY 2018. This initial adjustment will purportedly establish state funding equity among the two research universities as well as among the comprehensive universities (excluding Kentucky State University). The minimal decrease in UofL's state appropriation for FY 2018, mirrored by the minimal increase in the University of Kentucky's

appropriation, reflects CPE's determination that state funds were already fairly equitably distributed between UofL and UK. Beginning in FY 2019, UofL and UK will compete for state performance funding with each of the comprehensive universities, excluding Kentucky State University.

Table 12: Distribution of State Appropriation Performance Funding Pool in FY 2018

University	Amounts Contributed	Amounts Distributed	Change
University of Kentucky	\$13,351,400	\$13,411,800	60,400
University of Louisville	6,640,900	6,580,500	(60,400)
Eastern Kentucky University	3,248,600	3,321,500	72,900
Morehead State University	2,069,500	1,742,800	(326,700)
Murray State University	2,293,200	2,231,300	(61,900)
Northern Kentucky University	2,572,400	2,745,900	173,500
Western Kentucky University	3,688,100	3,830,200	142,100
Total (excluding KSU and KCTCS)	\$33,864,100	\$33,864,000	

Source: Council on Postsecondary Education; UofL Budget Office

Figure G shows that net annual state appropriations to UofL have declined by \$45.3 million from FY 2008 through FY 2018.

Figure G: Change in Annual State Appropriations to UofL since FY 2007

Source: UofL budget documents; Council on Postsecondary Education

Figure H shows state appropriations per full-time equivalent student at UofL, as well as public, four-year institutions in Indiana, Tennessee, and West Virginia. Since FY 2008, state appropriations for UofL have declined by \$2,733, or 27.9 percent, per full-time equivalent student. From FY 2008 to FY 2015, state appropriations per full-time equivalent student at public, four-year institutions in Indiana, Tennessee, and West Virginia declined by 9.3 percent, 14.5 percent, and 3.8 percent, respectively.

Figure H: State Appropriation per FTE Student at UofL and Public, Four-year Institutions in Contiguous States

* FY 2016 and FY 2017 state appropriation per FTE data not available for public institutions in Indiana, Tennessee, and West Virginia at time of publication; dashed lines indicate no change from FY 2014.

Source: Council on Postsecondary Education, US Bureau of Labor Statistics, Integrated Postsecondary Education Data System, and UofL Institutional Research

TRANSFER REVENUES

The university receives revenues from the University of Louisville Research Foundation, University of Louisville Foundation, and the University of Louisville Athletic Association. These sources of funds are identified as “transfers” in the University’s Operating Budget.

University of Louisville Research Foundation

- Each year, university faculty and researchers are awarded numerous sponsored grants and contracts for the purpose of conducting research or providing a service. Administrative overhead costs are funded by a Facilities and Administrative recovery charge. The Research Foundation transfers the university’s portion of these revenues to the university. For FY 2018, total indirect cost recoveries

General Fund Revenues

2018 Operating Budget

for the university are expected to provide an estimated \$11 million, a decrease of \$1.1 million from FY 2017, to reflect actual historical revenue generated.

- The UofL Research Foundation contributes to the debt service for research facilities across campus, for example, the Center for Preventive Medicine, Belknap Research Building, and the Clinical and Translational Research (CTR) Building.

University of Louisville Foundation

- In recent years, the University of Louisville Foundation transferred funds associated with the university's three Tax Increment Financing (TIF) districts. These districts, established through ULF and approved by the City of Louisville and the Commonwealth of Kentucky, created areas where new sales and property taxes from investments in the district are redirected from state and local governments to the district. The three TIF districts are located: downtown by the Health Sciences campus; the Shelby Campus; and the engineering and applied sciences research park, adjacent to the Speed School.
- The University of Louisville Foundation is unable to transfer TIF funds to the university for FY 2018 because the Health Science TIF has not spurred the anticipated amount of new economic activity. This is a \$6.6 million reduction in revenue.

University of Louisville Athletic Association

- The UofL Athletic Association pays the debt service, for example, on the Jim Patterson baseball stadium expansion, the Papa John's Cardinal Stadium expansion, and the renovation of the University of Louisville Golf Club.
- The FY 2017 adopted budget included \$2 million from ULAA to help fund general university operations, but that contribution will not continue in FY 2018.

UNIVERSITY AUXILIARIES

Auxiliary units support specific campus activities such as housing and parking. Revenues from these activities pay associated operating expenses. For FY 2018, auxiliary budgets increase by \$9.7 million. The primary change is to the university’s housing budget, which increases by \$9.5 million. Table 13 presents a summary of significant auxiliary budget changes in FY 2018.

Table 13: Notable Auxiliary Budget Changes

	Budget		Change	
	FY 2017	FY 2018	Amount	Percent
University housing	\$6,496,341	\$15,980,954	\$9,484,613	146.0%
University parking	5,149,700	5,352,000	202,300	3.9%
Total	\$11,646,041	\$21,332,954	\$9,686,913	83.2%

Source: Office of the Chief Operating Officer

- The University Housing budget increases by \$9.5 million. This is due to six new housing programs that were previously overseen by the University of Louisville Foundation, but are now managed and operated by Campus Housing. These housing units include the recently constructed University Pointe as well as Cardinal Towne, Community Park, and Billy Minardi, Kurz, and Bettie Johnson halls. Transferring the management of the residences from a private contractor to Campus Housing will result in an annual savings to ULF of approximately \$400,000. Additional rent and fee revenues to Campus Housing will cover the costs of managing the new units.
- The FY 2018 budget for University Parking increases by \$202,300, primarily due to a proposed increase in parking rates.

HOSPITAL RELATED REVENUE

Hospital-related revenues include hospital rent, which totals \$6 million in FY 2018. Beginning in FY 2018, hospital affiliation revenues and expenditures will be recognized as non-general funds in the UofL Research Foundation. Prior to that time, those funds had been identified as general funds. The change in accounting classifications explains why revenues decline from FY 2017 to FY 2018.

General Fund Revenues

2018 Operating Budget

OTHER REVENUES

Other revenues total \$10.7 million in FY 2018, a \$997,800 decrease from FY 2017. Other revenues include non-educational revenue, interest income related programs, organized activities related to instruction, and sales and services of educational activities. Non-educational revenues come from non-instructional activities, but provide benefits to the educational mission of the university. Some examples include the Early Learning Campus (daycare), Get Healthy Now!, interest income, and procurement card services. Organized activities related to instruction include the Rauch Planetarium, Family Business Center, and the AP Summer Institute, and sales and services of educational activities include revenue from the International Service Learning program and the non-credit dance program. The primary change in this category for FY 2018 is short-term investments, which decreases to reflect one-time FY 2017 income.

Table 14 shows the main changes from FY 2017 to FY 2018.

Table 14: Notable Other Revenue Changes

Program	Budget		Change	
	FY 2017	FY 2018	Amount	Percent
Short-Term Investments	\$1,637,500	\$637,500	(\$1,000,000)	-61.1%
Rent-General	183,900	347,200	163,300	88.8%
Health Management Admin	514,321	613,700	99,379	19.3%

GENERAL FUND EXPENDITURES

UNIVERSITY of LOUISVILLE

GENERAL FUND EXPENDITURES

OVERVIEW

The University of Louisville general fund expenditure budget is balanced to the general fund revenue budget. FY 2018 general fund expenditures total \$504.9 million. General fund expenditures are expected to be \$43 million, or 7.9 percent, lower than in FY 2017.

Table 16 shows general fund expenditures by category. The following sections detail those amounts and changes within each category.

Table 16: General Fund Expenditures by Category for FY 2018

Description	FY 2017 Budget	FY 2018 Budget	Percent of Total	FY 17-18 Change	
				Dollars	Percent

General Fund Expenditures

FY 2018 Operating Budget

SALARIES AND WAGES

For FY 2018, salaries and wages decrease by \$17.7 million. The change is primarily attributable to the reclassification of hospital affiliation expenses from general funds to non-general funds, an expected decrease in the number of filled positions through attrition, a reduction in central reserves, and \$125,000 less due to one fewer workday in FY 2018.

The FY 2018 budget also includes the last of a planned four-year increase in the living wage rate. As of July 1, 2017, the living wage rate will rise to \$11 per hour from the current \$10.75 per hour.

FRINGE BENEFITS

Fringe benefits rates were held constant in the FY 2018 budget, but the total fringe benefit budget decreases by \$7.8 million, primarily due to the reclassification of hospital affiliation salaries and fringe benefits from general funds to non-general funds. Actual fringe benefit costs have consistently stayed within projections minimizing the need to continue budgeting a separate reserve.

OPERATING

Operating expenditures decrease by \$19.2 million primarily due to repositioning hospital affiliation expenditures as non-general funds.

FINANCIAL AID

The financial aid budget for FY 2018 decreases by \$760,000 because of a change in financial aid for graduate student assistantships. Tuition for non-resident students who receive a graduate teaching or research assistantship is now waived in order to attract more out-of-state students. This is a practice used at most large research institutions. As a result, fewer financial aid funds will be expended, which reduces the amount of financial aid by approximately \$2.2 million.

Financial aid spending in the FY 2018 budget increases by \$800,000 for central aid programs and by another \$500,000 for scholarships in the School of Law.

DEBT SERVICE

Bonds are debt instruments used to provide funding for university projects (e.g., research facilities, parking garages, etc.) that generate benefits over a long period. Debt service is the cost of borrowing money for such projects.

For FY 2018, total university debt service payments will be \$22.2 million, which is \$5.4 million more than FY 2017. The change is due to the issuance of new debt, Series D, E, & F in 2016. The new debt obligations are for Papa John's Cardinal Stadium. The UofL Athletic Association will pay the debt service. Table 17 details the bond issues and debt service payments.

Table 17: Debt Service

Bond Issue	FY 2017	FY 2018	Change	Status
2007 General Receipts - Series A	\$1,996,000	\$1,999,200	\$3,200	Existing
2008 General Receipts - Series A	4,138,100	4,140,200	2,100	Existing
2010 General Receipts - Series B	2,351,810	2,351,810	0	Existing
2011 General Receipts - Series A	2,641,250	2,639,850	(1,400)	Existing
2012 General Receipts - Series A	1,722,000	1,715,750	(6,250)	Existing
2016 General Receipts - Series A	1,234,776	1,235,644	868	Existing
2016 General Receipts - Series B	810,888	809,500	(1,388)	Existing
2016 General Receipts - Series C	1,935,551	2,005,100	69,549	Existing
2016 General Receipts - Series D	0	2,108,050	2,108,050	New
2016 General Receipts - Series E	0	141,860	141,860	New
2016 General Receipts - Series F	0	3,067,000	3,067,000	New
Total (All Bond Issue)	\$16,830,375	\$22,213,964	\$5,383,589	

Note: Excludes interest subsidy on 2010 General Receipt bonds.

General Fund Expenditures

FY 2018 Operating Budget

General Receipts Bonds are issued for projects for which debt service is funded by unrestricted revenues such as tuition and state appropriation. The General Receipts series are:

- 2007 Series A funded renovations at the Home of the Innocents, indirect costs related to the Center for Predictive Medicine, land acquisition and construction of the Patterson Baseball Stadium, Trager Field House, and the YUM! Practice Facility. This bond was partially refinanced as 2016 Series B. Final maturity is 2018.
- 2008 Series A funded the second HSC parking garage, School of Dentistry renovation, and indirect costs in the construction of the Clinical and Translational Research Building. This bond was partially refinanced as 2016 Series C. Final maturity is 2019.
- 2010 Series B is a combination of Build America Bonds and Qualified Energy Conservation Bonds that were used for energy conservation measures in multiple buildings on all campuses. Final maturity is 2027.
- 2011 Series A was for the construction of the Student Recreation Center. Final maturity is 2032.
- 2012 Series A was used to repay former CEBRB Series N and O. Final maturity is 2023.
- 2016 Series A will be used to fund renovations to the Student Activity Center. Final maturity is 2036.
- 2016 Series B was used to refinance a portion of 2007 Series A. Final maturity is 2027.
- 2016 Series C was used to refinance a portion of 2008 Series A. Final maturity is 2028.
- 2016 Series D is tax-exempt and used to fund the new expansion of Papa John's Cardinal Stadium.
- 2016 Series E is taxable and used to fund the new expansion of Papa John's Cardinal Stadium.
- 2016 Series F was used to retire the 2008 Series B Metro Government Revenue Refunding and Improvement bonds.

Debt to fund the construction of the new Belknap Campus academic building has been issued by the Commonwealth of Kentucky. That debt service will be paid directly by the Commonwealth of Kentucky and will not appear in the university's budget.

UTILITIES

Based on a careful analysis of previous utility expenditures and a conservative projection of future costs, the FY 2018 utility budget decreases by \$3.2 million. Table 18 shows actual and budgeted utility expenditures for FY 2015 through FY 2018. Favorable global energy prices coupled with performance savings and sustainability initiatives at UofL have helped limit utility expenses.

Table 18: Utility Expenditures

	Fiscal Year Actuals		FY 2017 Budget	FY 2018 Budget	FY 17-18 Change	
	2015	2016			Dollars	Percent
Belknap

General Fund Expenditures

FY 2018 Operating Budget

CONTINGENCY FUNDS / RESERVES

The FY 2018 general fund budget includes \$8.6 million in contingency, or reserve, funds. This represents 1.7 percent of budgeted general fund expenditures.

A contingency fund is an important element in a sound budget. Unanticipated revenue or expense changes can happen during the fiscal year. Without a designated reserve, the university would have to impose mid-year budget corrections. That would place stress on the ability of the university and its units to maintain a consistent level of instruction and support to students, faculty, and staff.

STRATEGIC INITIATIVES

The FY 2018 budget includes many important strategic initiatives. They align with the university's strategic plan and contribute to the goal of making the University of Louisville a premier metropolitan research university by 2020. Table 19 summarizes the strategic initiatives.

Table 19: FY 2018 Investment in Strategic Initiatives

Description	Amount	
<i>Student Initiatives</i>		
Student financial-aid increase	\$800,000	
Total Student Initiatives		800,000
<i>Faculty and Staff Initiatives</i>		
Faculty promotions	500,000	
Staff reclassifications and promotions	250,000	
Total Faculty and Staff Initiatives		750,000
<i>Academic Initiatives</i>		
J.B. Speed School enrollment growth & new faculty	3,100,000	
Costs associated with enrollment growth	1,400,000	
University Libraries collections, journals & databases	1,000,000	

Table 19: FY 2018 Investment in Strategic Initiatives (Cont.)

Description	Amount
School of Music strategic initiatives & scholarships	725,000
Arts & Science general education costs & other initiatives	500,000
Brandeis School of Law scholarships	500,000
SIGS graduate stipends	200,000
Freshman scholarships	140,000
	7,565,000
Total Investment in Strategic Initiatives	\$9,115,000

Source: UofL Leadership

Student Initiatives

- Though there is no tuition rate increase in FY 2018, centrally budgeted undergraduate and graduate financial aid increases by one percent to ensure the university remains focused on student success. UofL is the only 4-year, public university in the state to offer an increase in financial aid while not raising tuition.

Faculty and Staff Initiatives

- Faculty promotion fund. To fund anticipated advances in faculty tenure, the FY 2018 budget includes \$500,000 for faculty promotions.
- Staff promotion and reclassification fund. Throughout the fiscal year, some staff may receive promotions or be placed in reclassified positions. Departments fund one-half of the promotion or reclassification with the balance paid by this fund. To support the central cost of these changes, the FY 2018 budget includes \$250,000 for staff promotions and reclassifications. Requests to use this fund usually arise as a result of expanded duties in a position, promotion to a higher level of duties, or an administrative determination that current duties are incorrectly classified.

General Fund Expenditures

FY 2018 Operating Budget

Table 20 groups and summarizes expenditure changes for the FY 2018 budget.

Table 20: Summary of Expenditure Changes

	FY 2017 Budget	FY 2018 Budget	Change 2017 to 2018
Expenditures			
Faculty	\$138,440,500	\$126,429,200	(\$12,011,300)

SELF-SUPPORTING PROGRAMS

Self-supporting programs produce their own revenue to cover expenses, typically from fees or online education revenues. The university has more than 200 program budgets. Table 21 lists notable changes to program budgets in the FY 2018 budget.

Table 21: Notable Changes in FY 2018 Self-Supporting Programs

(sorted by academic unit and, in dollars, revenue change amount)

Unit	Program Name	Change	Percent Change	Reason
College of Arts & Sciences				
	Justice Administration - Continuing Education	\$307,900	34.5%	Increasing demand for classes.
	Communications - Online Education	\$147,000	15.5%	Budget increasing due to greater demand.
	Psychology - Online Education	\$100,000	27.4%	Increase due to growth in historic actuals.
College of Business				
	Full-Time MBA	\$300,000	33.3%	Increasing enrollment.
	Executive MBA	(\$512,500)	-50.6%	Aligning last year's initial budget to actuals.
	International MBA	(\$180,000)	-30.0%	Decreasing demand for the program.
School of Dentistry				
	Dental Instrument Rental	(\$149,735)	-4.3%	Lower enrollment expectations.
College of Education and Human Development				
	Workforce Completing Degree Program	(\$160,000)	-29.9%	Decline in demand.
	Educational Leadership, Foundations, and HR - Online Education	\$159,000	11.4%	Increasing demand for classes.

Table 21: Notable Changes in FY 2018 Self-Supporting Programs (Cont.)

Unit	Program Name	Change	Percent Change	Reason
Kent School of Social Work				
	Instruction - Online Education	\$126,498	8.4%	Increase due to growth in historic actuals.
School of Medicine				
	Medical School Technology Fees	\$216,000	67.5%	Increase in fee for FY 2018.
	Medicine - Continuing Education	\$78,000	48.8%	Budget increasing due to greater demand.
Delphi				
	Delphi - Online Education	\$410,479	6.6%	Continuing growth in demand for online courses.

BUDGET BALANCING ACTIONS

The FY 2018 Operating Budget as presented, coupled with administrative actions throughout the year, will address the university’s budget imbalance and place the university on a firm financial footing. The goal, however, is more than a structurally sound budget; it is a year-end budget surplus and notable improvement in the university’s cash position.

To reach those marks, the university will actively monitor revenues and expenses throughout the fiscal year. Continual review of budget-to-actual revenues and spending will serve as the cornerstone of that effort. In addition, the university will continue to seek new and innovative ways to generate additional revenues, identify and implement cost-efficiencies across campus, and, if needed, impose cost-reduction strategies during FY 2018. Combining these efforts with a sound budget and a balanced approach on growing revenues and curbing increases in expenditures will allow the university to achieve a year-end budget surplus and an increase in its cash balance.

Table 22 summarizes the budgetary actions that will help ensure FY 2018 ends with a positive fund balance. During FY 2018, university administrators, faculty, staff, and students, will continue to discuss options for the university to increase revenues and decrease expenses as well as begin to plan in a thoughtful manner how to strategically align the FY 2019 operating budget with the university’s mission.

Table 22: Budget-Balancing Actions by Fund Type

Balancing Actions	Amount
General Fund	
Operational cost reductions/savings	\$9 to 10 million
Procurement cost economies of scale/efficiencies	\$10 million
Faculty, staff, and administrator attrition	\$10 million
Non-general Fund	
One-time KentuckyOne Health funds, plus attrition	\$17 million
Total	\$46 to 47 million

College of Arts and Sciences

Mission

We believe that an excellent education in the liberal arts and sciences is the best preparation for life and work in a world of increasing diversity and rapid change. It prepares our graduates to be informed critical-thinkers, creative problem-solvers, and confident communicators. Our students learn by doing: they conduct research and express their artistry; include ethical considerations in their thinking and decision-making; and experience the world from perspectives of cultures other than their own.

The University of Louisville is a Carnegie Research I University, and the College of Arts & Sciences is its research hub. Impacting the health and well-being of local, national, and global communities, our faculty and students collaborate across departments to explore the past, improve the present, and plan for the future. We value our role in Louisville and enjoy helping our community. Through cutting-edge methodologies, innovative research and creative activities, engaged teaching, and rigorous scholarship, we are advancing knowledge and preparing the next generation of leaders, thinkers, dreamers, and doers.

Goals

Educational Excellence – Continue to provide exceptional teaching through:

- Implementing measures of teaching excellence that value and promote both student success and an appropriate level of academic challenge;
- Expanding opportunities to implement progressive practices, such as community-engaged learning, and to bring innovative and experimental strategies and technologies into the classroom; and
- Increasing student success.

Research, Scholarship, and Creative Activity – Continue to improve the quality, quantity, and reputation of the scholarly and creative activities by:

- Increasing applications and awards for external funding;
- Boosting the number of peer-reviewed publications, exhibitions, performances, and patents;
- Increasing the number of A&S recipients of competitive campus research awards;

- Producing high-impact applied or engaged research;
- Growing the number of endowed faculty positions;
- Creating new, and building existing, endowed funds and gift funds to support significant research; and
- Developing a recurring pool to fund competitive faculty start-up packages.

Community Engagement

- Continue to promote and improve tracking of community engagement activities

Diversity and Opportunity

- Growing the representation of minorities and women in underrepresented areas

Responsible Stewardship

- Strengthening the position of the College of Arts & Sciences

Instruction

The College of Arts & Sciences offers education in the liberal arts and sciences through the general education program, and through a range of majors in the natural and physical sciences, the social and behavioral sciences, and the arts and humanities. Offering 90 degree programs, we are at the heart of the university's educational mission.

A&S enrolls nearly half of the student body and our faculty teaches the majority of the general education courses. In fact, nearly one-quarter of all credit hours taught by A&S faculty are taught to students pursuing degrees in the professional colleges.

A&S degrees offered

- 38 Bachelor's Degree Programs, offering 53 undergraduate degree options and 52 minors
- 1 Associate's Degree Program
- 2 Undergraduate Certificate Programs
- 13 Doctoral Programs
- 24 Master's Programs
- 12 Dual Degree Programs

- 12 Graduate Certificate Programs

Research

By the numbers

- 744 publications, including 596 peer-reviewed
- Faculty average 667 scholarly publications and creative works per year (based on past 3 years)
- 349 premier venue works (19 in Fine Arts and 3 in Theatre Arts)
- \$6.3 million externally funded grants (based on private investigation only)
- 6 faculty in natural sciences, 5 in humanities, and 2 in social sciences named University or Distinguished Scholars
- In the past five years, Arts & Sciences has raised over \$33.6 million to support scholarly work. Funding sources vary widely, and often the work is collaborative with co-investigators.

Research and creative activity highlights

1. Sara Alvarez, student in Rhetoric and Composition doctoral program, has received the National Council of Teachers of English's Early Career Educator of Color Leadership Award. As part of the award, she will receive a plaque presented at the 2015 annual convention and will present at the 2016 annual convention.
2. Professor Swagato Banerjee (Physics & Astronomy) was selected as a U.S. ATLAS Scholar for 2015-2016. Each year, the U.S. ATLAS Analysis Support Centers at Argonne National Laboratory, Brookhaven National Laboratory, and Lawrence Berkeley National Laboratory host distinguished research scholars in a program to foster physics collaboration and enhance U.S. contributions to the ATLAS physics program. Professor Banerjee will work on upgrades to the ATLAS detector, which will extend the searches for new physics and improve our understanding of the Higgs boson.
3. Faculty members from the Department of English have been the principal investigators on a U.S. State Department grant entitled "Study of the United States Institute for Scholars on Contemporary American Literature" for 15 years. This award averages more than \$280,000 per year and brings 18 post-doctoral fellows from around the world to campus to study contemporary American literature.
4. Professor Jian Du-Caines (Physics and Astronomy) received a NASA award of \$394,555 for her project to examine the statistical characteristics of the tidal short-term variability, how it varies as a function of year, season, latitude and altitude, and quantify the relative importance of various causes for the short-term tidal variability and their respective atmospheric impacts. She also received the NSF

CAREER award for her project entitled “Physical Causes of Multi-Scale Temporal Variability in Atmospheric Tides from the Troposphere to the Dynamo Region.” The award amount is \$500,000 and will be funded through June 2020.

5. Professor Deborah Lutz's (English) recent book, *The Brontë Cabinet: Three Lives in Nine Objects*, is on the Longlist for the PEN/Jacqueline Bograd Weld Award for Biography, for a distinguished biography published in 2015. Additionally, Professor Lutz gave a lecture on Emily Brontë's poetry manuscripts at the research branch of the New York Public Library.

Engaged scholarship highlights

1. Professor Paul Rosen (Psychological & Brain Sciences) directs the Research on ADHD and Children's Emotion Regulation Lab (RACER) Lab, which is dedicated to studying and treating the emotional and behavioral difficulties that are common to children and adolescents with ADHD. The RACER Lab is the only research lab in the Louisville area to provide cutting-edge and evidenced-based research and treatment for children with ADHD.
2. Professor Margaret Carreiro (Biology) and student researchers collaborate with the Louisville Olmsted Parks Conservancy to understand the impacts of invasive plant species in the woodlands of Cherokee Park. The project aims to provide scientific data as a foundation for preserving and managing the biological heritage in our parks and the ecosystem services they provide to our community.
3. Professor Cherie Dawson-Edwards (Criminal Justice) received the Golden Oar Award, which recognizes individuals and teams who positively impact JCPS. She was commended for her guidance, which has been integral in shifting to less punitive consequences in JCPS behavior guidelines and procedures. She also facilitated restorative circles in alternative schools and has led more than 50 hours of district professional development that focuses on restoration and inclusion. She co-chairs an external group called the Equity Council that will serve as a catalyst for educational innovation.
4. The Southern Police Institute has extended law enforcement leadership training to the Navajo tribe and Lebanon.

Significant Accomplishments

- 68 students, or 76%, of the Fulbright award winners at the University of Louisville have come from the College of Arts & Sciences.
- The College's faculty, staff, and students from our 24 departments and over 30 centers and institutes are currently participating in or leading over 200 community engagement programs and projects.
- The UofL chapter of the Society of Physics Students (SPS) has been named an Outstanding Chapter 17 years in a row—one of only a few chapters in the country to have so many consecutive wins. Having seventeen consecutive recognitions is a record in the four-state region

Academic Unit Summaries

2018 Operating Budget

including all of Kentucky and most of Tennessee, Indiana, and Illinois. The Outstanding Chapter award is a designation that is given to fewer than 10 percent of all SPS chapters at universities in the United States.

- Improved communication with:
 - “I think therefore I...” marketing campaign;
 - Improved targeted external communication -
 - *The Thinker*, quarterly electronic newsletter was distributed to 40,000+ alumni,
 - *The Thinker* bi-annual print newsletter was distributed to 6,000+ people, and
 - 2 brochures, one on engagement and one on research -
 - Improved processes and created tools for use by departments, centers, and institutes; and
 - Improved web communication optimized for mobile, and improved visual presentation and functionality.

Budget Changes

- In the FY 2018 budget, the College received additional funding of \$125,000 for general education courses and approximately \$380,000 for strategic initiatives.
- Increases in Distance Education programs such as Justice Administration, Communications, and Psychology total approximately \$550,000.
- The College of Arts and Sciences closed the Intensive English Language Program (IESL), resulting in a budget reduction of \$366,000.

College of Business

Mission

The mission of the College of Business (COB) is to offer high quality undergraduate and graduate business programs that prepare our students for responsible and rewarding careers. We enhance the intellectual and economic vitality of our city, the region and the broader business community through our academic programs, research, and community outreach activities. We also engage in research that is original and applied that contributes to better understanding of business.

The COB was founded in 1953. The college serves an enrollment of approximately 2,100 undergraduate and 300 graduate students with a faculty of 84 and a staff of 54.

Goals

- It is our vision to be recognized as the leading business school in this region, and one of the leading metropolitan research business schools in the United States. We provide our students a competitive advantage in the job market by offering specialized programs and professional certifications.
- Entrepreneurial thinking and program offerings occupy a special place in the focus of the College of Business.

Instruction

The COB offers a Bachelor of Science in Business Administration degree with majors in Accounting, Computer Information Systems, Equine Business, Finance and Marketing. The COB also offers a Bachelor of Arts in Economics, and a Bachelor of Science in Economics. Graduate programs include several Master of Business Administration (MBA) choices, such as the full-time program, the evening Working Professional MBA, the weekend Working Professional MBA, the Entrepreneurship MBA, and the European MBA. In the fall of 2014, a Joint Executive MBA between the University of Kentucky and University of Louisville was launched. Other Joint MBA programs are available with the Brandeis School of Law (MBA/JD), the Speed School of Engineering (MBA/MEng), and the School of Medicine (MBA/MD). Joint programs can also be structured to meet the needs of students in any college in the university. Other graduate programs include a Master of Accountancy degree, and a Ph.D. degree in entrepreneurship.

New distance education classes are being offered in Economics, Management, and Accounting. Our enrollments continue to grow.

Research

Several faculty are widely recognized, national thought leaders in their disciplines. We engage in original research that is widely cited by other academics.

Significant Accomplishments

- Our undergraduate students adhere to the high admission and graduation standards. Our academic standards match the standards of the best public universities in the country.
- Our graduate students have the highest admission test scores and undergraduate credentials of any school in Kentucky – standards that are nationally competitive.
- Our doctoral students in entrepreneurship have achieved success as young teacher scholars. The incoming class had an average GMAT score of 698. This ranks well with our peers in the ACC.
- The COB is actively engaged in such endeavors as the Signature Partnership, the development and sponsorship of the “Thrivals Day” at IdeaFest, and numerous endeavors related to business development—such as, Venture Connectors, EnterpriseCorp, Nucleus, and the Cardinal Venture Fund II. We have launched an initiative with Portland Elementary School. The goal of this partnership is to stress the importance of education beyond high school.
- The COB has 18 active international partnerships that provide an opportunity for students from abroad to study at UofL, and for our students to live and study abroad. Opportunities for international learning experiences are available to all undergraduate and graduate students.
- The COB has developed innovative new programs that enhance the reputation of the COB and the university, while producing revenues that provide funds to support our core programs at the graduate and undergraduate levels.
- The COB continues to invest financial resources into our classrooms, student study space, and student career center with the latest technology such as smartboards, short-throw projectors, and desktop and application virtualization in our computer labs.

Budget Changes

- For FY 2018, the general fund budget decreases by \$59,000 primarily due to a \$1 million reduction to the UofL/UK Joint MBA due to lower than anticipated enrollment, offset by approximately \$750,000 for strategic initiatives, in part, for additional faculty.

School of Dentistry

The University of Louisville School of Dentistry (ULSD), founded in 1887, educates students, conducts research, and provides quality dental care to the community to fulfill the School's urban and statewide missions. The School serves 480 D.M.D. students, 60 Dental Hygiene students, 59 postgraduate students/residents in 7 residency programs, and 16 M.S. in Oral Biology students and has approximately 150 full- and part-time faculty and 200 staff.

Dr. T. Gerard Bradley, BDS, MS, Dr. Med. Dent., joined the School as Dean on August 1, 2016. Dr. Bradley is a Board-Certified Orthodontist, who spent 18 years at Marquette University, most recently as Associate Dean for Research and Graduate Studies, before coming to Louisville.

The school completed its accreditation site visits in September 2015. All programs at the School of Dentistry are fully accredited without reporting requirements through 2022.

Goals

- Develop a contemporary dental health curriculum with emphasis on new and emerging areas.
- Foster a school-wide climate of professional development that values teaching and instructional best practices.
- Embed within the curriculum a strong emphasis on the delivery of patient-centered care.
- Ensure that all ULSD academic programs promote research and scholarship.
- Expand ULSD's research enterprise by building on our national and international reputation, and develop new areas and specialties with a goal of enhancing ULSD's national and international prominence.
- Increase research, scholarship, and creative activities in the clinical departments and foster increased collaboration between the basic and clinical sciences.
- Expand opportunities for students to participate in research, scholarship, and creative activities.
- Work in partnership with public and private entities to provide local and global community-based experiences for faculty, staff and students. These experiences include academic exchanges, research collaborations, and community engagement activities and initiatives through the provision of oral health literacy and clinical services, as well as continuing dental education courses (CE).
- Prepare patient-centered, culturally competent oral health professionals who will have a lifelong ethic of service as leaders in the health, cultural, social, and economic aspects of their communities.
- Promote community engaged research, scholarship, and creative activity among faculty and students.

Instruction

- During 2016, the partnership between Jagellonian University in Krakow, Poland and the University of Louisville School of Dentistry continued as two dental students from each University spent two weeks at the sister institution. Students engaged in curricular sharing, “shadowing” dental students and faculty, and participating in cross-cultural activities.
- The DMD Class of 2016 was the third graduating class that represented the new enrollment of 120 per class.

Research

- Two Professors in the Department of Oral Immunology and Infectious Diseases were awarded National Institute of Health Research Project (R21) grants.
- Five summer research students presented their findings at the 2017 International Association for Dental Research meeting in San Francisco. Two other students presented posters at the Hinman Student Research Conference in Memphis. Two students presented at the Kentucky Academy of Sciences.
- A faculty member in the Department of Surgical and Hospital Dentistry was awarded a U01 grant focusing on promotion of oral health in persons with disabilities.

Significant Accomplishments

- During 2015-16, the University of Louisville School of Dentistry Richard L. Miller Oral Health Clinic in Elizabethtown again increased its service delivery to persons with HIV via the hiring of additional dental providers and caseworkers for the patient population who are served at that location. Funding from the Commonwealth of Kentucky via the Ryan White Part B Grant supported this expansion.
- Developed a new strategic plan 2017-2020, which was approved by faculty assembly February 23 2017.

The School of Dentistry has signed an agreement with the Red Bird Clinic in Beverley, Kentucky. This cooperative agreement will allow dental students to travel to this clinic in a rural, underserved area to provide direct patient care to local residents

Budget Changes

- The FY 2018 general fund budget increases by \$1.5 million due to debt service payments that were previously budgeted centrally, and a reallocation of resources to better position the school to achieve its mission.

College of Education and Human Development

Mission

The College of Education and Human Development (CEHD) embraces the University's mission as a metropolitan research university committed to advancing the intellectual, cultural, and economic development of our diverse communities and citizens. We promote the highest levels of learning and social, emotional, and physical health and well-being for all children, individuals, and families. Our mission is to advance knowledge and understanding across our disciplines and constituencies and to develop leaders in education, who will inform policy, improve practice, strengthen communities, and address pressing social concerns. We seek to continuously improve the quality of life for all in our metropolitan community, the Commonwealth of Kentucky, and the nation.

About the CEHD

The College of Education and Human Development has six departments:

- Educational Leadership, Evaluation and Organizational Development
- Counseling and Human Development
- Health and Sport Sciences
- Early Childhood and Elementary Education
- Middle and Secondary Education
- Special Education

The CEHD's Education Resource and Technology Center provides technology support to students, faculty, and staff and maintains the college's computer labs. The Office of Research and Innovation offers grant funding and contract services for faculty in the College. CEHD students receive advising and support services from the Office of Education Advising and Student Services. Gheens Science Hall and Rauch Planetarium and the Early Learning Campus are also part of the CEHD. Both serve the University and local community.

CEHD Facts

- Number of degree programs, certifications, endorsements, extensions, rank programs, specializations, concentrations, etc., in the CEHD is over 75
- Number of full-time term, tenure-track, and tenured faculty is 109

- Number of full-time staff, including the Kentucky Autism Training Center and the Planetarium is 71; the Early Learning Campus has 41 employees
- Approximately 45% of CEHD faculty have been hired in the past five years
- Total number of peer-reviewed publications in 2015, was 177, surpassing the Scorecard goal of 100
- CEHD has the largest graduate enrollment (1,189) and 3rd largest undergraduate enrollment (1,934) at UofL (Spring 2017)

Recent Administrative and Faculty Appointments

Dr. Meg Hancock is a new Interim Department Chair for the Department of Health and Sport Sciences. Dr. Michelle Foster, the Henry Heuser, Jr. Endowed Chair in Urban Education Partnerships, joined the CEHD in fall 2016. She will work with community organizations, schools, and individuals to create partnerships that support and enhance the work of the college and university regarding the Signature Partnership Initiative as well as other programs that fall under the Nystrand Center of Excellence in Education.

Notable CEHD Goals for Academic Year 2018

- Increase number of doctoral students in the CEHD
- Increase undergraduate and graduate student enrollment and retention
- Provide structures in the form of Communities of Practice that implement and advocate for high quality programs and student services support; integration of teaching, scholarship and service; community engagement to support high quality teaching and learning; expand the Clinical Model of Teacher Preparation in Jefferson County Public Schools and the Ohio Valley Educational Cooperative
- Uphold and advocate for inclusion, equity, diversity, and access in teaching, scholarship, service and community engagement; demonstrate a commitment to democratic ideals, inclusion, and cultural competence, and increase efforts to recruit and retain diverse faculty and K-12 student teachers
- Strengthen community partnerships, better engage CEHD alumni and increase the rate of giving to the CEHD; raise awareness and visibility of the college and its work
- Create metrics and outcomes for CEHD's new Strategic Plan, (2016)
- Continue to maintain accreditations and engage in continuous improvement and quality assurance to the public

CEHD Strategic Plan Priorities

- Educational Excellence
- Research, Scholarship, and Creative Activity
- Community Engagement
- Diversity, Equity, and Social Justice
- Effective and Responsible Stewardship

Instruction

The CEHD's clinical model of teacher preparation has received local and national attention. It follows the clinical model of preparation for medical education, and students (teacher candidates) are taught classes on site in our partner schools. They are matched with an experienced mentor teacher to apply what they learn in a P-12 classroom. This model produces teachers with continuous practical experience who are well equipped to manage classrooms and ensure the highest level of instruction for children. Many of our teacher education graduates have been recognized for their work through the WHAS ExCEL Awards, Hilliard Lyons Excellence Awards, and the Kentucky Teacher of the Year Award, as well as many who have received National Board for Professional Teaching Standards (NBPTS) certification. In addition, three 2016 graduates of the MAT program were winners of the prestigious Fulbright Scholarship.

The CEHD's Endorsement, English as a Second Language, recently became available 100% online--making it accessible for teachers across the state. The M.Ed. in Teacher Leadership is now 100% online as well. Teachers can complete other endorsements within the M.Ed. program, which allow them more career options and the flexibility to meet the needs of their school districts.

International Learning

CEHD students participated in International Learning Experiences in Belize, Peru, Ireland, Manchester, UK, and Amsterdam. Teacher education students traveled to local villages in the southern part of Belize to teach children who ranged in age from kindergarten to high school. Students in educational leadership programs studied K-12 leadership systems in Peru. Students in the Department of Health and Sport Sciences traveled to Amsterdam to gain onsite experience in managing large-scale sporting events by volunteering at the European Athletic Championship. The trip to Ireland gave students the opportunity to study cultural influences on counseling and psychology and art therapy at the University College Cork and the Crawford College of Arts and Sciences at the Cork Institute of Technology.

Students in the CEHD's Organizational Leadership and Learning, Higher Education Administration, and Human Resource and Organizational Development programs traveled to Manchester, England to attend the University Forum for Human Resource Development 2016 Annual Conference.

2017 International Learning Experiences for students, faculty, and staff are scheduled for Belize, Ireland, Portugal, and Poland.

Research

The Louisville Writing Project (LWP) received a \$20,000 College-Ready Writers Program grant. The grant supported 12 to 16 experienced middle and high school Writing Project teacher leaders through an Advanced Institute that began in summer 2016 and continued through the 2016 school year.

Dr. Tom Tretter, Department of Middle and Secondary Education, Dr. Justin McFadden, Department of Early Childhood and Elementary Education, and Brian Robinson, Speed School of Engineering, received a \$205,000 grant from the Kentucky Department of Education Math-Science Partnership Program for the Assessments of Science Enabling Successful Students project. They will work with 50 teachers and administrators in school districts located in western Kentucky. They will target the development of well-structured science classroom formative assessments that are aligned with new state science standards and the Next Generation Science Standards.

Funding Rates for the CEHD:

- 111 proposals were submitted FY 2016
- 43 new awards were funded during FY 2016
- Total awards for FY 2016 is \$5,001,060
- 8 first-time PI's were involved in getting grants
- 51 Graduate Assistantships: 39 funded by the CEHD, 8 grant funded, 4 university funded

Significant Accomplishments

Council for the Accreditation of Educator Preparation (CAEP) and Kentucky Education Professional Standards Board (EPSB) Accreditation

The CEHD was the first college of education in Kentucky to undergo CAEP accreditation (formerly NCATE). Findings from the accreditation team will be shared by CAEP in August 2017 and by EPSB in late spring 2017. Overall, the college's teacher preparation programs received positive feedback from the accreditation team at the fall 2016 onsite visit. The accreditation team was particularly impressed by the hospitality shown by faculty, staff, students, and alumni of the CEHD; how well prepared and organized the CEHD was for the visit; partnerships with P-12 districts and schools (JCPS and OVEC); and the commitment to high standards demonstrated by everyone they encountered throughout the review process.

Center for Instructional Behavior Research in Schools

The CEHD is proud to announce that the UofL Board of Trustees formally approved the new Center for Instructional Behavior Research in Schools (CIBRS) in 2016. Dr. Terry Scott, Professor and Distinguished University Scholar, directs CIBRS. CIBRS provides behavioral supports and intervention methods to understand and prevent student failure and dysfunction, pre-school through post-secondary education.

Department of Health and Sport Sciences

The CEHD's Department of Health and Sport Sciences, which was based in Crawford Gym and the HPES building is now located in the SAC East. It is the first time that all faculty, staff, and programs are under one roof. They now have state-of-the-art classrooms and labs for students and faculty to teach and conduct research. Students, staff, and faculty are ecstatic about their new home.

Budget Changes

- The FY 2018 budget decreases by \$2.1 million because the CEHD does not intend on filling positions that became vacant in the Educational Leadership, Evaluation and Organizational Development and Health and Sports Sciences departments. This alone results in a budget reduction of nearly \$800,000.
- In addition, due to changes in contracts and shifting expenses to other sources within the CEHD, the Cardinal Success program budget is reduced by \$365,000.

School of Interdisciplinary and Graduate Studies

The School of Interdisciplinary and Graduate Studies (SIGS) provides administrative support, professional development and student academic services for post-baccalaureate instructional programs leading to certificates, master's and doctoral degrees. In addition, it is the enrollment unit for interdisciplinary master's and doctoral programs. SIGS supports the efforts of all University of Louisville academic units in providing programs leading to advanced degrees in the arts, humanities, social sciences, natural sciences, education, engineering, biomedical and health sciences, business, and engineering. This includes the current offerings of advanced studies in 74 areas at the master's level, 35 at the doctoral level, and one specialist degree program.

Goals SIGS will continue to implement a "Community Engagement Academy", which is the fourth leg of the PLAN Academy program. The other legs include the GTA Academy, the Grant Writing Academy, and the Entrepreneurship Academy. We will also continue to partner with the Libraries to offer the Publication Academy for graduate students.

- Promote Diversity Initiatives program to increase participation of under-represented students, including a new "Presidential Diversity Scholars Program", which we marketed in Spring 2017 and will award to ten students entering in Fall 2017.
- Developing a financial literacy program for graduate students, using materials provided by the Council of Graduate Schools with implementation of the program in Fall 2017.
- Working with Institutional Research, develop an extramural assessment procedure for graduate programs.
- Continue to manage tuition remission awards for CAR funded graduate students and oversee a tuition match program for students whose stipends are funded by non-CAR sources.

Instruction

The role of the School of Interdisciplinary and Graduate Studies is to advocate for graduate education and graduate students across the university. SIGS provides financial support and professional development for post baccalaureate students, and fosters creation of graduate interdisciplinary programs. The unit, through the Graduate Council, establishes minimum guidelines for graduate education and oversees policies for administering graduate education at the University of Louisville. SIGS also partners with the academic units to help those units recruit, retain, and prepare students for successful careers.

SIGS provides support to students and faculty who wish to create interdisciplinary graduate training tracks under the umbrella of the two master's and one doctoral interdisciplinary graduate degree programs housed in SIGS, and provides fellowships to seed faculty-initiated tracks in these programs. Currently there are five interdisciplinary tracks: the Master of Arts in Interdisciplinary Studies with a Concentration in Bioethics and Medical Humanities, Master of Arts/Sciences in Sustainability, a Doctoral Program in Interdisciplinary Studies with a Specialization in Bioinformatics, a Doctoral Program in Interdisciplinary Studies with a Specialization in Translational Neuroscience, and a Doctoral Program in Translational Biomedical Engineering. SIGS also offers a mechanism for students to develop an ad hoc degree program, in consultation with a faculty steering committee, under the auspices of the interdisciplinary graduate programs. In the 2016-2017 academic year, there were 22 students enrolled across the active interdisciplinary tracks and in the ad hoc programs. One student graduated in the Summer, 2016 term and nine students are candidates for graduation in the Spring, 2017 term.

Research

SIGS is the host unit for the National Science Foundation Graduate Research Fellowship Program (GRFP), which is a highly competitive scholarship program available to doctoral students. In 2016-2017, SIGS had two resident GRFP fellows. Also in 2016-2017, SIGS awarded 62 University Fellowships, as well as 61 tuition-only awards. SIGS sponsors the Graduate Student Honor awards for fall and spring commencement and the Faculty Mentor Awards for the spring Commencement. We also sponsor research prizes for Research!Louisville and CODRE.

Significant Accomplishments

Community Engagement:

During the 2016-2017 began the Community Engagement Academy, which is a year-long series of sessions that will allow students to participate in community engagement opportunities throughout the Louisville community, highlighting a strong partnership with the Parklands of Floyds Fork. This year, we explored additional partnerships, including the Council for Developmental Disabilities, and the Backside Learning Center at Churchill Downs, and we plan on working with those agencies in next year's academy. We also hope to partner with the new Consortium on Transdisciplinary Social Justice Research.

Diversity and Opportunity:

One of SIGS' goals is to create recruitment and retention programs for diverse student populations. The objectives of these programs are to: 1) Monitor the academic and social progress of our under-represented graduate student population; 2) Develop and identify proactive interventions for improvements in areas that will help increase student retention rates; 3) Provide one-on-one consultation and referrals; and 4) Encourage a network of support for students across academic disciplines. The Minority Association of Graduate Students (M.A.G.S.) was created two years ago in support of the aforementioned objectives, and is thriving.

SIGS also developed the Presidential Diversity Scholars Program, which will be implemented in the 2017-18 academic year. This is a partnership with units and programs who fund URM doctoral students; we will provide up to ten students with an additional \$1,000 in professional development funding, as well as professional development through the PLAN and "Check-in and Connect."

This year, SIGS took the lead on the Provost's initiative to send a team of faculty and graduate students to the ACC Conference on Women of Color in Academe in Blacksburg, VA.

New Graduate Program Initiatives

SIGS reached out to the Associate Deans for Graduate Education in the Speed School, the School of Medicine and the College of Arts and Sciences and asked that they query their faculties about the feasibility and interest in starting new Professional Science Masters (PSM) Programs. Initiated by the Sloan Foundation in 1997, these programs provide workforce training in STEM areas through a partnership between institutions of higher education and industry.

Budget Changes

- For FY 2018, the general fund budget decreases by \$1.9 million due to a change in financial aid for graduate student assistantships. Tuition for non-resident students who receive a graduate teaching or research assistantship is now waived in order to attract more out-of-state students. This is a practice used at most large research institutions.

Kent School of Social Work

The Raymond A. Kent School of Social Work, founded in 1936, seeks to prepare competent social workers who practice from a strong professional value base to serve the metropolitan mission of the University. These social workers are educated to practice with individuals, families, and communities and to promote social justice. In the context of a research institution, the Kent School is committed to knowledge development that informs the practice of social work, recognizing the importance of collaboration among differing disciplines to solve complex social problems. The School offers BSW, MSSW, and Ph.D. degrees, as well as multiple specializations in the graduate program. One specialization, Couple & Family Therapy, is one of only two programs accredited by the Commission for Accreditation for Marriage and Family Education (COAMFTE) offering combined training in CFT and Social Work.

Since 2007, the School has offered a BSW program. The undergraduate program educates students for generalist practice at entry level positions in social work; thereby enabling them to practice competently, under professional supervision, with a variety of client systems, and at all system levels. It also prepares students for entry into advanced graduate work in social work. There are currently close to 200 BSW students at the Kent School.

The MSSW program, the oldest of all of the program offerings, is designed to help students achieve their maximum potential through a carefully structured curriculum of foundation and specialized courses. Kent students may participate in dual degree programs with the Brandeis School of Law (J.D.), the Department of Pan African Studies (M.A.), the Louisville Presbyterian Theological Seminary (M.Div.), the Department of Bioethics and Medical Humanities (M.A.), and the Department of Women's and Gender Studies (M.A.). In addition to face-to-face classes, students may obtain their MSSW degree through an online program, utilizing practicum placements in their own regional social service and medical agencies. It is a high quality program that maintains cohorts to build virtual communities of students from all over the country. The Kent School has a current enrollment of more than 450 graduate students.

The Ph.D. in Social Work, begun in 1997, is intended to produce top quality (1) teachers and researchers for social work education programs and (2) administrators, policy analysts, program planners, and program evaluators for human service organizations. The Kent School graduates between 5 to 10 doctoral students each year.

In 2011, the School hired Dr. Karen Kayser to fill the LaRocca Chair in Oncology Social Work. It is the first chair of its kind in the country and helps the Kent School become a school of destination for students and faculty who want to learn and conduct research in psychosocial oncology. It also supports the strategic interests of the James Graham Brown Cancer Center at the University of Louisville to become a nationally recognized comprehensive cancer center.

Goals

The goals of the Kent School of Social Work over the next few years include increasing the number of BSW graduates and MSSW campus student enrollments. We are considering the feasibility of developing a fully online BSW degree program to create greater access to undergraduate education. Additionally, the faculty and staff continue to strive to increase research and scholarship, achieve annual diversity goals by increasing enrollment of minorities, and increase annual philanthropy to the School.

Instruction

The Kent School has developed a partnership with the Delphi Center to create a Teaching Academy to support our large number of part-time faculty. It will become a requirement to teach for the school in order to enhance instructional quality. Many faculty are also working with the Center to be recognized for very high standards developed by Quality Matters for online syllabi. Several faculty members have already received recognition for this difficult achievement for their online courses.

Research

The Kent School continues to expand its research on trauma informed counseling and services under the leadership of Dr. Bibhuti Sar as Principal Investigator of federally funded studies. Dr. Anita Barbee, the Kent School's Distinguished University Professor also continues to assist in engaging various community service agencies as well as state and local institutions. Dr. Armon Perry secured a \$5 million grant to study American Fatherhood and Dr. Crystal Collins-Camargo continues to receive grant awards to further her research on public and private child welfare partnerships.

Kent School has a growing and robust research enterprise. Our research portfolio is approximately \$15 million a year. Additionally, published scholarship of the School faculty continues to increase with research that makes a difference in Louisville, Kentucky and abroad.

Significant Accomplishments

The Kent School continues to provide more than \$2 million of contributed service to residents of Kentucky through its Practicum Program. In serving Kentucky in 2016, the School had more than 350 MSSW students in practicum placements throughout Kentucky in more than 230

agencies in 16 counties. In addition, MSSW placements served Indiana and the School had approximately 140 MSSW students in practicum placements serving residents across the United States. The minimum total amount of time contributed to the community for all MSSW students was more than 193,500 hours.

The Kent School also had approximately 85 BSW students in 45 agencies serving Kentucky and several neighboring states.

The Kent School remains a leader within the university for diversity in student enrollment, including 18% of the BSW program, 17% of the MSSW program, and 13% of the Ph.D. program's enrollment are African American. In the BSW program, 11% are non-white; 2% are non-white in the MSSW program; and 26% are non-white in the Ph.D. program.

Budget Changes

- For FY 2018, the general fund budget for the Kent School increases by \$276,000, or 4.3 percent, primarily due to additional funding for faculty positions.

Louis D. Brandeis School of Law

As the fifth oldest continually operating law school in the nation, the University of Louisville's Brandeis School of Law, founded in 1846, has a long tradition of commitment to its students. The school provides students with outstanding contemporary instruction and abundant practical opportunities to enhance skills and gain experiences both in and outside of ordinary legal practice.

The Brandeis School of Law is fully accredited by the American Bar Association, and is a member of the Association of American Law Schools. It includes more than 300 students, 27 faculty, and 24 staff members. The J.D. Program requires the completion of 90 credit hours, which can be accomplished on either a full-time or part-time basis. The full-time program is a three-year course of study for students who are able to devote virtually all of their time to the study of law. The part-time program is designed to meet the needs of students who have outside obligations, and is generally completed in four or five years.

While at the Brandeis School of Law, students experience small classes and thoughtful professors and staff members who care deeply about each student's professional development. Many opportunities exist for students to contribute to a professor's cutting-edge research or participate in one of three student-edited law journals that address the most important legal issues of the day. Law students excel in national moot competitions and engage in dozens of student organizations, including the Student Bar Association. Being located in Louisville allows students to help community members in externships and clinics, and to engage with the city's bench and bar. All of this is accomplished while being consistently recognized as a Best Value Law School.

Dual-Degree Programs

UofL students have the opportunity to build on their law degrees by combining the study of law with another academic or professional discipline. UofL Law offers eight dual-degree programs:

- J.D./M.A. Juris Doctor/Master of Arts in Bioethics and Medical Humanities
- J.D./M.A. Juris Doctor/Master of Arts in Humanities
- J.D./M.A. Juris Doctor/Master of Arts in Political Science
- J.D./M.B.A. Juris Doctor/Master of Business Administration
- J.D./M.Div. Juris Doctor/Master of Divinity
- J.D./M.S.S.W. Juris Doctor/Master of Science in Social Work
- J.D./M.P.A. Juris Doctor/Master of Public Administration
- J.D./M.U.P. Juris Doctor/Master of Urban Planning

Goals

The Brandeis School of Law adopted a strategic plan in April 2014. The plan includes a revised mission statement and sets out goals and a detailed set of strategies in the following areas:

Education and Curriculum

- Ensure students develop skills, knowledge, and values for lifelong effectiveness in solving problems and seeking justice.

Research

- Produce and support research and scholarship that have a high level of impact on scholarship (the academic body of knowledge and ideas), law, public policy, and/or social institutions.

Interdisciplinary Inquiry

- Develop a strong program of interdisciplinary education, scholarship, and service.

Community Engagement

- Actively engage the community in addressing public problems, resolving conflicts, seeking justice, and building a vibrant and sustainable future through high-quality research, innovative ideas, and application of research to solve public problems and serve the public.

Diversity

- Actively engage diverse participants in an academic community that is strengthened by its diversity and its commitment to social justice, opportunity, sustainability, and mutual respect.

Resources

- Increase resources, including developing new sources of funding that enable the Law School to fulfill the critical aspects of its mission and to achieve its goals and strategies, while also adhering to the Law School's long-standing commitment to students' access to a relatively affordable J.D. program.

Instruction

Skills Training and Clinical Opportunities

Students begin skills training at UofL Law in their first year with the development of legal analysis. One course, Lawyering Skills, is devoted entirely to the skills of legal writing, analysis, advocacy and legal research. In their second and third years, students can select courses, seminars, extramural advocacy competitions, and externships designated as “skills experiences.” These courses are specifically designed to provide substantial instruction in professional lawyering skills, including trial and appellate advocacy, dispute resolution, counseling, interviewing, negotiating, problem solving, factual investigation, organization and management of legal work, and drafting. In addition, the law school offers a litigation skills certificate and a transactional skills certificate, equipping students with appropriate experience to excel in their chosen careers.

Third-year students working at the Robert and Sue Ellen Ackerson Law Clinic serve as the primary contact for, and represent clients who are, victims of domestic violence in Jefferson Family Court, or clients who have forcible detainer (eviction) cases before Jefferson District Court. Third-year students also partner with the MBA entrepreneurship competition teams in developing award-winning business plans. Upper-level students who pursue a clinical externship acquire valuable experiences and legal skills by working with judges and lawyers in various settings, including representing clients through organizations like Legal Aid or Kentucky Refugee Ministries; preparing and trying cases through criminal justice agencies such as the Commonwealth Attorney’s Office or the Public Defender’s office; or working on tax law with the local Internal Revenue Service office.

International Study

The faculty of the University of Louisville Louis D. Brandeis School of Law reaffirms that study of the legal systems and cultures of other countries enhances students’ legal education. The Law School has developed relationships with certain foreign law schools, and students who study abroad at these partner schools may qualify for tuition or other advantage. However, students are also free to arrange for study at non-partner institutions.

Academic Success

The Academic Success Office offers a number of appropriate and effective resources that help students navigate through the arduous courses of study required in law school from year one through succeeding on the first attempt on taking the state bar exam.

Led by the Director of Academic Success and Bar Preparation, the Office directs a unique “Structured Study Group (SSG)” program for all first-year law students that includes a top ranked upper-classman leading a weekly session that helps guide the team towards first-year success. The Office also sponsors continuing orientation workshops on a variety of topics, including note taking, case briefing, outlining, time management, and exam preparation---skills necessary for optimal performance in the first year of law school. In addition, the Office directs programs that counsels students on individual skill development, academic counseling, and an impressive resource library easily accessible to all students.

Starting in 2016, the Office offers a course specifically focused on increasing vital skills necessary to pass the state bar exam on the first attempt. This upper-level class laser-focuses on issue spotting, analytical exam writing, and multiple choice test-taking skills that are demanded by bar examiners in all states. Offered in the last semester of law school, this course promises students a “jump-start” to their bar preparation with a demanding and thorough practice approach that includes both essays and over a thousand multiple-choice practice questions that mirror bar exams in Kentucky and other jurisdictions.

Research

Twenty-one faculty members published approximately 78 works in 2016.

A few examples include:

- Professor Jamie Abrams was invited to speak at five academic conferences, and Time Magazine profiled a book in which Professor Abrams authored a chapter.
- Professor Tony Arnold was invited to be a Visiting Scholar at UCLA Law School, ranked #17 among U.S. law schools, in fall 2016. Professor Arnold surpassed the mark of 10,000 total downloads on SSRN in 2016 and ranks in the top 1% of all authors on SSRN for all-time downloads.
- Professor Justin Walker’s article, *The Execution of the Innocent in Military Tribunals: Problems from the Past and Solutions for the Future*, was published by the West Virginia Law Review. He was invited by a federal judge to help edit a treatise on the American Law of Judicial Precedent, which is being authored by Bryan Garner and thirteen leading federal judges.
- Professor Weaver made fourteen presentations including presentations in France, Sweden, Hungary, and Japan. One of the premier university presses, Oxford University Press, published Professor Weaver’s article, *Defamation and Democracy*, which examines the ways that three different countries handle defamation issues.

The law school also participates in several grants including the Collaboration and Advocacy to provide Safety and Empowerment (CASE) Grant. Since 2010, The Law Clinic in collaboration with the Legal Aid Society (LAS) and the Center for Women and Families (CWF), with generous funding from the Office on Violence Against Women (OVW), has successfully served over 800 victims of domestic violence in Jefferson County through the CASE Project. Now with the award of another three-year grant in fall 2014, the work can be expanded by: including the Kentucky Association of Sexual Assault Programs (KASAP) as a strategic partner; providing holistic legal services to victims of domestic violence and sexual assault in not only Jefferson County, but also Bullitt, Oldham, and Shelby Counties; and implementing outreach to college and university survivors of sexual assault and provide legal representation in Title IX Administrative Hearings. The Law Clinic was awarded a new Legal Assistance for Victims grant beginning in fall 2017.

Significant Accomplishments

- Bar passage rate of Brandeis graduates exceeded state average.
- Ranked #1 by U.S. News and World Report as Most Efficient School and named an over-performing law school by the Tax Blog.
- The Ackerson Law Clinic has helped over 1,300 clients with domestic violence issues.
- Law Review ranked in top 20% of law reviews.
- Won the intrastate mock trial competition two years in a row.
- Donated over 7,100 hours in public service.
- Law School faculty won the University's Multicultural Teaching Award the last two years.
- Awarded the 2016 Brandeis Medal to United State Supreme Court Justice Elena Kagan.

Budget Changes

- The FY 2018 general fund budget increases by \$624,000 primarily due to a \$500,000 increase in scholarship funding.
- Most other budgetary changes reflect a reallocation of resources to better position the school to achieve its mission.

University Libraries

The University Libraries (UL) serve as the University's intellectual center, fulfilling the information and research needs of a diverse population through collections of more than 2.3 million volumes. The University Libraries include Archives and Special Collections, the Dwight Anderson Music Library, the Law Library, the Margaret M. Bridwell Art Library, the Sidney I. Kornhauser Health Sciences Library, and the William F. Ekstrom Library. An active member of the Association of Research Libraries (ARL), UofL ranks 93rd in the ARL Investment Index.

Notable University Libraries Numbers

- 3 million users enter University Libraries facilities annually
- 294 database subscriptions are maintained in support of user research
- 88,133 journals are available online
- 60,930 e-books are available online
- 1,022,434 full text articles were requested by users

Goals

- Serve as a campus leader in resource information and data management.
- Continue developing strong partnerships with other campus units.
- Upgrade and enhance physical spaces where appropriate.
- Maintain a close dialogue with groups such as our student and faculty advisory boards, the Student Government Association, and the Faculty Senate.
- Pursue alternative funding to provide a rich set of resources and services to our users.

Research

- University Libraries faculty continued to publish articles, reviews, reports, etc., with many published in peer-reviewed journals.
- University Libraries completed the transition to the new ThinkIR institutional repository as the host site for electronic theses and dissertations produced by U of L graduate students. Implementation of the new system was a joint endeavor with SIGS.

- Archives and Special Collections continued to add new items to its Digital Collections making more of these collections available to researchers and increasing awareness of the materials.
- The Libraries have acquired online back files of many journal titles. Previously, these older issues were only available in print physically in the libraries and not digitally available.
- Kornhauser Health Science Library hosted the national traveling exhibit: *“Every Necessary Care and Attention”: George Washington and Medicine*.

Significant Accomplishments

- Ekstrom Library opened its newly renovated first floor to wide acclaim. The project moved the University Writing Center from the third floor to the first floor. A major goal of the project was to co-locate and increase the visibility of the various academic support programs offered in Ekstrom. The project added nearly 250 student seats and added a new central support desk. The project also brought new lighting, power and furniture for student areas.
- The Bridwell Art Library added a new service desk and upgraded power availability in its seating areas.
- University Library faculty gave 895 information literacy presentations to 17,992 participants.
- The Music Library received considerable press coverage related to the discovery in its archival collections of Mildred Hill’s original score of “Good Morning to You” which transitioned into the world-famous “Happy Birthday to You” song.
- Ekstrom Library began a large bound journal weeding and relocation project to create space for the new Faculty Technology Innovation Lab that will be located on the third floor of Ekstrom.
- The Libraries implemented the OCLC WorldShare Management System as its online catalog and library automation system.
- James Procell was appointed Director of the Dwight Anderson Music Library July 2015.

Community Engagement

- Signature Partnership: Wayside 100 Project: Wayside Christian Mission College and Career program contributing to the educational, social and economic potential of the homeless.
- Alfred Binet Education School: provide job skills and experience for special needs students.
- Simmons College of Kentucky Partnership: library service provided to Simmons faculty and students.

Academic Unit Summaries

2018 Operating Budget

- The Stern J. Bramson Award for outstanding photographic achievement: awarded annually to a high school student from a local public, private or parochial school.
- Kornhauser Health Sciences Library received a grant from the National Network of Libraries of Medicine/ Greater Midwest Chapter, to provide health information services and resources to underserved members of the public as well as underserved health professionals.
- Kornhauser Health Sciences Library manages the Louisville Medical Consortium providing consistent information resources for HSC students rotating through the seven teaching hospitals.
- NNLM/GMR Outreach Library Program to provide information services to underserved groups of health professionals.

Budget Changes

- The FY 2018 budget increases by \$384,000 due to an additional \$200,000 in faculty funding and the residual from covering prior year credits.

School of Medicine

The School of Medicine, founded in 1837, includes 848 full-time faculty, 57 part-time faculty, and 1,087 gratis faculty as well as 1,233 staff and 617 medical students, 259 graduate students, and 650 residents. Our mission is to improve the health of our patients and our communities through excellence and leadership in education, patient care, research, and community engagement. Our core values are:

- Being a diverse academic community committed to integrity, excellence, innovation and accountability
- Demonstrating compassion and collegiality in all we do
- Achieving individual and shared goals
- Being a great place to learn and work

Goals

- We will integrate learning across disciplines and professions to prepare physicians and scientists for 21st century challenges.
 - Streamline collaboration and strengthen programs across the undergraduate, graduate, and post graduate educational continuum for physicians and scientists
 - Continuously strengthen and evolve programs across the educational continuum that exceed on-going accreditation expectations
 - Implement patient centered inter-professional education and collaboration
 - Support, measure, recognize and reward teaching and educational leadership and scholarship
 - Develop educational outcomes that prepare future physicians & scientists for current 21st century challenges
- We will perform transformative research that positively impacts the health and welfare of our communities.
 - Align resources & priorities to increase National Institutes of Health (NIH) ranking by 2020
 - Translate our research findings to improve the health and well-being of our local and global communities
 - Diversify research funding from all public and private sources
 - Build and leverage research strengths in cancer, neurosciences, cardiovascular medicine, regenerative medicine, environmental health, metabolic disorders, infectious diseases and vaccine development as well as identify emerging opportunities for growth, such as health services research and precision medicine
 - Increase multidisciplinary research across departments, centers, schools and other institutions

- The University of Louisville Physicians (ULP) will provide an exceptional patient experience and high quality outcomes.
 - Build a robust Patient Referral Network across all U of L Physician (ULP) practices
 - Invest in the development and retention of primary care physicians
 - Strengthen and leverage the ULP brand and image for an exceptional patient experience and high quality outcomes
 - Streamline and strengthen ULP organization and operations to promote success
 - Leverage clinical partnerships to enhance the future success of ULP and meet the health needs of our patients
- We will integrate community engagement and diversity into all pillars of our mission as a means of achieving excellence & improving health.
 - Integrate community engaged scholarship as key elements of education, research and clinical care
 - Develop appropriate and effective community engagement incentives, rewards and recognition for faculty, staff and students
 - Facilitate partnerships within and across local, regional, national and global communities to achieve common health goals
 - Advocate for improved health at the local, state and national level
 - Integrate diversity and inclusion as a core means of achieving excellence

Instruction

- In fall 2014, the School's curriculum was transformed from a traditional discipline-based format to fully integrated, organ-system-based courses. A new fully integrated second year medical school curriculum was implemented in fall 2015.
- Medical students are now required to receive narrative assessment on areas other than content or skills mastery, in the preclinical years in any course with small groups or laboratory experiences that involve regular faculty-student interaction. It includes feedback and observations related to behavior, attitudes, interpersonal skills, interactions with peers and faculty, and professionalism.
- The School has incorporated more formal faculty development sessions to prepare faculty to teach the new curriculum.
- Incorporation of more self-directed learning opportunities for medical students in the newly designed curriculum allows students ample opportunities during their preclinical years to practice and master the skills associated with lifelong learning. This has been accomplished by:
 - Decreasing the number and percentage of lecture hours in the preclinical years (less than 50% of the curriculum is lecture format).
 - Increasing self-directed learning opportunities by introducing problem-based learning sessions into the curriculum beginning spring 2015 for first and second year students that include all of the components of the Liaison Committee on Medical Education definition

of self-directed learning: self-assessment of learning needs; independent identification, analysis, and synthesis of relevant information; and appraisal of the credibility of information sources.

- Recruiting and developing 32 faculty members for problem-based learning sessions who are equipped to teach and assess in formats required for effective student mastery of the skills necessary for lifelong learning.
- Expansion of the clinical skills curriculum for first year students with recruitment of 52 clinical educators that covered 493 clinical skills sessions and represented 600 student contact hours.

Research

- The Department of Pharmacology and Toxicology research and training programs include vaccine discovery and development in partnership with the Brown Cancer Center and plant-based pharmaceutical discovery and development in partnership with the Owensboro Cancer Research Program. They have active partnerships with Wenzhou Medical University, Cairo University, and Jilin University as well as a pending partnership agreement with AinShams University.
- Dr. Mariusz Z. Ratajczak, Director of the Stem Cell Program at the James Graham Brown Cancer Center, received the Gold Cross of Merit from his native country Poland for his work in stem cell research and transplantation. The Cross of Merit is awarded by the government of Poland to citizens who have gone beyond the call of duty in their work for the country and society as a whole.
- A three-pronged approach to the treatment of paralysis following spinal cord injury has received a patent based on the research of Susan Harkema, Ph.D., and Claudia Angeli, Ph.D., of UofL's Kentucky Spinal Cord Injury Research Center, along with researchers at UCLA and elsewhere. The treatment method centers on the use of epidural stimulation to activate the spinal cord, along with physical training and medications that when combined, allow individuals with spinal cord injury to have voluntary control of body movements and improve heart, lung and other autonomic functions.

Budget Changes

- The FY 2018 general fund budget decreases by \$10.2 million mostly due to repositioning hospital affiliation expenditures as non-general funds.

School of Music

The School of Music is committed to providing innovative musical leadership and expanding its role as an outstanding cultural and educational resource for the university and community. Our programs reflect diversity, innovation, and creativity as well as a commitment to excellence throughout our artistic, educational, research, and professional activities.

Established in 1932, the School of Music has created a major impact on the cultural life of Louisville and the Commonwealth of Kentucky. Its faculty and administration provide leadership and talent for such groups as the Louisville Orchestra, the Kentucky Opera Association, and Chamber Music Society. Performing groups representing the Chamber Music Society of Louisville and the Speed Museum Endowed Music Series offer public concerts at the School of Music. In addition, each year there are dozens of concerts and recitals performed by faculty, students, and student organizations. The School also sponsors jazz, dance and pre-collegiate music programs in the Dance Academy and Music Preparatory programs, offers the School of Music String Academy for high-achieving high school orchestral string students with support from the Starling Foundation, hosts a Music Therapy Clinic for the community, and provides the region's only university-based Suzuki String Teacher Education program. In addition, the School of Music is responsible for the university Cardinal Marching Band program whose members include both music majors and majors from around the other academic units on campus.

The School of Music holds accreditation since 1938 by the National Association of Schools of Music and houses one of only 80 approved music therapy programs by the American Music Therapy Association. Degree programs are offered which lead to the Bachelor of Arts with an emphasis in music (general jazz, and digital media arts tracks); the professional degree Bachelor of Music with an emphasis in music education, performance, music history, music theory, composition, music therapy or piano pedagogy; Master of Music with emphasis in performance, music history, music theory, composition, conducting, jazz, or piano pedagogy; and Master of Music Education. The Jamey Aebersold Jazz Studies program hosts an annual Jazz Fest each February while the Music Composition area organizes the annual New Music Festival in November. Other annual events include the residency of the annual winning composer of the Grawemeyer Award for Music Composition and the University of Louisville Classical Guitar Festival and Competition.

The School serves 365 graduate and undergraduate music majors as well as other undergraduate students fulfilling the requirements of the university General Education requirements. Academic courses in music literature and history as well as music performance are offered for both non-music majors as well as music majors, including ensembles such as the Singing Cardsmen and Black Diamond Choir, which are especially organized to accommodate the interests and schedules of the general university student. A faculty of 70 full- and part-time faculty

members and a comprehensive staff of 14 serve the instructional needs of the students and support the educational and cultural mission of the School.

Recent changes in the School of Music include the addition of enhanced multi-media production facilities to accommodate new programs in music composition, live streaming of music concerts on the School of Music YouTube channel, expansion of Music Therapy Clinic services, and a reorganization of the school to a department structure. Continuing international initiatives include collaborations with European music conservatories in Poland and Spain, as well as universities in Germany, Colombia, and Brazil. Markers of the school's success in 2017 included invited performances at national and international venues for the Wind Ensemble and Cardinal Singers, including performances at the American Bandmasters Association national meeting and American Choral Directors Association national meeting in Minneapolis, New York City's Carnegie Hall, as well as international performances in Berlin, Warsaw, and Beijing.

Goals

The School of Music is committed to:

- Provide music students with opportunities to develop artistry and expertise as emerging professionals in their chosen field of music study.
- Enhance the artistic culture of the university and community through music performances, collaborations with other performing arts organizations, and support for broad applications of music study including the music education and music therapy professions.
- Perform, study, promote, and develop understanding of music by living composers.
- Advance the art of music globally through our faculty composers, performers, teachers, therapists, and researchers.
- Provide musical performance and study opportunities to a diverse population of students across the campus to encourage students to make music activities an enduring part of their lives.
- Engage with other disciplines and programs within the university to benefit the educational and scholarly mission of our school and enhance the reputation and opportunities for our school.

Instruction

Enrollment of undergraduate music majors in the School of Music have recently established new highs. As a limited access program, this success is attributable to outstanding staff and faculty initiatives in outreach to prospective students. Programs for pre-collegiate students sponsored by the school attract hundreds of prospective choral and voice, string, wind band, piano and jazz students annually. Graduate students have new academic programs available in Electronic Music Composition, String Pedagogy, and Wind Band Pedagogy. Students in jazz studies, music therapy, and music composition have participated in recent international exchanges, and all music students have opportunities to request special Summer Study Grant funding provided by music student fees to support educational activities in a variety of national and international settings throughout the summer months.

Research

Notable research and scholarship initiatives, music composition, and performance initiatives carried out in the School of Music in FY 2017 include national and international presentations on Orff pedagogy, applications of music therapy in the NICU, and enhancing neural development in infants by parental singing. Still others include music therapy in intergenerational settings, analyses of contemporary operas composed by Grawemeyer award-winning composers, the pedagogy of the College Board AP Music Theory examination, use of apps in music therapy applications, studies on Franz Schubert, a variety of jazz, electronic and concert music compositions, adaptations, and recordings. Performers representing the School of Music are engaged with a range of music making which spans early music to the most current practices in music composition and performance. Music student ensembles are equally engaged with music making representing all historical, stylistic and genres at a very high level of artistry. Notably, the Cardinal Singers choral ensemble is internationally ranked among mixed choirs and is frequently invited to international choral festivals and competitions to represent the finest standards of choral singing in the United States.

Budget Changes

- In FY 2018, the general fund budget increases by \$550,000 primarily due to the allocation of additional funds for faculty in support of the school's efforts to maintain accreditation.

School Nursing

The School of Nursing, founded in 1974, offers programs leading to a Bachelor of Science (BSN), Master of Science (MSN), Doctor of Nursing Practice (DNP), and a PhD in Nursing. The strategic aim of the School is to transform health care through creation of new knowledge, provision of care, community and professional service, policy development, and workforce development. With 51 full-time tenured, tenure track, and term faculty and 22 staff, the school advises, mentors, and educates nearly 1,300 students. University of Louisville School of Nursing faculty, staff and students are *Called by compassion, destined to discover*.

The School continues to grow its global presence with study abroad experiences for students in Belize, Botswana, Croatia, Ecuador, Haiti, Ireland, Scotland, and Tanzania. Aggressive stewardship of our alumni and other key stakeholders and partners continues to increase philanthropic support.

Instruction

Three options are currently available for students seeking a bachelor's degree in nursing: 1) the pre-licensure traditional BSN in Louisville; 2) the traditional BSN extension in Owensboro; and 3) a fully online registered nurse completion RN-BSN.

The Master's Entry into Professional Nursing (MEPN) began in summer 2015. It replaced the second degree accelerated BSN (for students with a bachelor's degree or higher in another major). Graduates of the MEPN will earn both a bachelor and master degree in nursing.

Students pursuing the Doctor of Nursing Practice (DNP) will graduate with an advanced practice nursing degree as a nurse practitioner. There are currently five advanced practice registered nurse (APRN) population options: Adult Acute care, Adult/Gerontology, Family, Neonatal, and Psychiatric Mental Health. Students with earned master's or doctoral degree in nursing may also complete a post-graduate certificate in any of the APRN options. In addition, graduate students may opt to obtain a certificate in health professions education by taking additional course work. A post-masters DNP option is available for students holding an APRN master's degree.

The BSN and MSN programs are fully accredited by the Commission on Collegiate Nursing Education through December 31, 2021. The SON will be seeking accreditation for the DNP one year after the first cohort of students is enrolled.

Graduate students enter the PhD Program via either BSN to PhD or MSN to PhD options in order to conduct research and assume faculty roles. *US News and World Report* in 2016 ranked the UofL graduate nursing program 88 out of the top 100 schools ranked in the country.

The School of Nursing faculty value evidence-based curricula and innovative pedagogical strategies implemented in the high-energy atmosphere of the Health Sciences Campus. The faculty members are also active nurse scientists with individual research programs that address translational and bio behavioral nursing research to promote and restore health and function across the lifespan. The School's strategic plan includes targets to help the University become a premier metropolitan research university through nursing and inter-professional research, teaching, and service. The School is very active in community service locally, and faculty partner with community organizations including the Jefferson County Public Schools. Nurse practitioner faculty members also practice as partners with the School of Dentistry, School of Medicine, Louisville Metro Public Health & Wellness, and the Kentucky Racing Health Services Center at Churchill Downs.

Research

- Faculty are building the school's research and scholarship with grants and publications in asthma, environmental health, end of life care, burn prevention, successful aging, motivational interviewing, and simulation pedagogies, to name a few.
- Our endowed chair obtained significant federal funding for two studies: Home Healthcare Professionals Hazard Training through Virtual Simulation and Asthma in Older Adults: Identifying Phenotypes and Factors Impacting Outcomes.

Significant Accomplishments

- The School of Nursing continues to host the annual Florence Nightingale Awards in Excellence to honor talented registered nurses throughout the state of Kentucky and southern Indiana.
- The School continues to graduate large numbers of licensed registered BSN nurses and graduate prepared nurse practitioners who go on to obtain national certification, along with PhD graduates who will teach and/or conduct research.

Budget Changes

- The FY 2018 general fund budget increases by \$756,000 primarily due to \$500,000 associated with a program, now being established on a permanent budget basis, to train nursing students in Owensboro.
- In addition, repositioning hospital affiliation expenditures as non-general funds.

School of Public Health and Information Sciences

The original School of Public Health at the University of Louisville was open from 1919 to 1924, making it one of the first schools of public health in the United States. The School of Public Health and Information Sciences (SPHIS) officially reopened as a unit of the University of Louisville in September 2002. The school's mission is to advance knowledge for the public's health in the increasingly complex and interconnected world of the 21st century, which is accomplished through activities in three cornerstone areas:

- *Research.* We create knowledge by seeking new discoveries and understanding through scientific exploration. We communicate our findings.
- *Teaching.* We share knowledge with students committed to and prepared for learning in a facilitated environment. Our learners are our students, our faculty, and our staff. We commit to preparing our learners for success.
- *Service.* We apply knowledge through quality services to the communities of which we are a part – the University, Louisville Metro, Kentucky, the United States, and their respective environs.

SPHIS is accredited by the Council on Education for Public Health (CEPH), an independent agency recognized by the US Department of Education to accredit schools and programs of public health. The school received reaccreditation in 2013 for a period of seven years, the maximum length of time CEPH will reaccredit schools of public health. We are one of two accredited schools of public health in Kentucky, and the only school in the nation that combines the disciplines of public health and information sciences.

Goals

We seek to fulfill our mission by meeting the following goals:

1. Provide educational and academic excellence through a responsive, challenging and supportive educational environment characterized by high standards, commitment to quality and student success.
2. Build a public health and information science research enterprise by focusing energy and resources to enhance the scholarly agenda, thereby striving toward national prominence.
3. Foster a diverse, open and accessible school of public health and information sciences with an integrated system of access and intercultural understanding that promotes and supports race and gender diversity, inclusivity, equity and open communication.
4. Promote collaboration and community/state partnerships by developing and integrating interdisciplinary activities associated with

teaching, research and service. Support existing partnerships and engage new partners to contribute to the educational, social and economic progress of the region and state.

5. Focus on school effectiveness and service through systematic quality improvement, assessment, CEPH self-study and accreditation, and a dedication to fulfill the mission and vision of SPHIS.

The school is undergoing a period of sustained growth under the direction of Dean Craig Blakely, PhD, MPH. Dean Blakely has outlined four overarching priorities for the SPHIS since his tenure began in April 2013.

- Establish global health presence
- Establish undergraduate program in public health
- Build a strong health policy focus
- Become visibly engaged in West Louisville

Instruction

Public health is a dynamic and growing field of study and is a great match for students who want to make a difference in local or global communities. The school prepares the next generation of public health professionals through its five academic departments: Bioinformatics and Biostatistics, Environmental and Occupational Health Sciences, Epidemiology and Population Health, Health Management and Systems Sciences, and Health Promotion and Behavioral Sciences.

Student enrollment has grown significantly since the launch of the undergraduate program in 2014. SPHIS has two undergraduate degrees: a bachelor of science (BS) in public health for students focused on public health practice and a bachelor of arts (BA) in public health for liberal arts studies. We operate a Public Health Living-Learning Community (PHLLC) to bring together students wishing to pursue a career in public health in a dynamic, engaging environment. This residential community fosters exploration of this career path through courses, programming, services and connections to campus and community resources.

The school has created new degree concentrations in health policy and global health (with an emphasis in maternal and child health) to attract more graduate students. Future plans include the creation of an executive master of health administration (MHA) and a master of data analytics, among other programs. SPHIS is also actively pursuing an online certificate program in Clinical Investigation Sciences and training in biostatistics. Several international letters of intent are in place with universities and governmental agencies in order to pursue global partnerships that may benefit our faculty and students as well as the public's health.

Research

- \$2.8 million from NIH to study whether children with higher exposure to fly coal ash and metals experience negative health effects. The study started in May 2015 and will continue for five years, ending in January 2020.
- \$5.7 million from CDC to establish a Center of Excellence in Youth Violence Prevention. The project begins September 2015 and will continue for five years. The first initiative of the Youth Violence Prevention Research Center (YVPRC) will be to develop, implement, and evaluate a community-level social norming campaign to change the norms of violence among youth using mass and social media.
- \$440,000 from NIH (Eunice Kennedy Shriver National Institute of Child Health & Human Development) to study how specific genetic factors coupled with lifetime exposure to cigarette smoking and secondhand smoke may influence a woman's ability to conceive. Funding was awarded in August 2016 and continues for three years.

Significant Accomplishments

Significant accomplishments of the last year include:

- The Department of Bioinformatics and Biostatistics has established a new degree collaboration with Kentucky State University. The initiative allows KSU undergraduates majoring in math to study seven semesters (3.5 years) at KSU, and three semesters (1.5 years) at UofL, earning a BA/BS in math at KSU and a master of science (MS) in biostatistics from UofL.
- SPHIS faculty are engaged in community-based participatory research to address public health concerns such as coal ash, youth violence, and health disparities.
- In 2015, the SPHIS Office of Public Health Practice (OPHP) relocated to The Old Walnut Street development at 1300 W. Muhammad Ali Blvd. The OPHP engages residents and community groups to advance social justice, reduce health disparities, and build capacity for improved health.
- We are proud of our longstanding collaborations with the Kentucky Department for Public Health and the Louisville Metro Department of Public Health and Wellness to improve the health outcomes of our citizens. In 2015, SPHIS worked with Louisville Metro to recruit Dr. Brandy N. Kelly Pryor as Director of the Center for Health Equity and Dr. Joann Schulte as Director of Health for LMPHW and the Board of Health.

Budget Changes

- The FY 2018 general fund budget decreases by approximately \$500,000 mostly due to repositioning hospital affiliation expenditures as non-general funds.

J.B. Speed School of Engineering

The mission of the J. B. Speed School of Engineering is to serve the university, the Commonwealth of Kentucky, and the engineering profession by providing high quality engineering education programs; engaging in research and scholarship that advances knowledge; and partnering in the economic development of the greater Louisville region, Kentucky and the nation through workforce development and technology transfer. The vision is to become the preeminent provider of high-quality, accessible, and experiential-based engineering education and a national leader among public, metropolitan engineering institutions in research, scholarship, and creative activity.

Since its founding in 1925 as a memorial to the late James Breckenridge Speed, the J.B. Speed School of Engineering has been recognized as a premier, metropolitan engineering institution. It has been built on a foundation of exemplary faculty and staff, talented and committed students, outstandingly accomplished alumni, and generous donors. It is a special place where the dreams of many for a better life and better world have been empowered. The Speed School community is proud of its long history of accomplishments in engineering education, scholarship, and service to the community.

The school is comprised of approximately 115 staff members, 110 faculty members and lecturers, and an enrollment of approximately 2,700 students (2,100 undergraduate and 600 graduate). The school also receives valuable guidance by a 50-member Industrial Board of Advisors.

Goals

In 2013, Speed School established its 2020 Strategic Plan along with procedures and schedule for accountability and implementation. To date over two thirds of the detailed initiatives associated with the goals below have been completed, and the remaining one third are in progress.

Educational Excellence

Our goal is to produce world-class engineers who are well prepared to meet the challenges of tomorrow with competitive critical thinking and problem solving skills, the ability to communicate and interact within a diverse society, immersion in current engineering practices, and a lifelong quest for new knowledge. To achieve this goal, we will:

- Attract motivated, prepared and talented students into all degree programs
- Engage students with state-of-the-art accredited engineering curricula
- Provide outstanding experiential learning and professional development experiences

Academic Unit Summaries

2018 Operating Budget

- Improve the delivery of student services to increase student retention and graduation rates
- Foster the continuous improvement of teaching and learning and support the scholarship of teaching

Research, Scholarship and Creative Activity

Our goal is to create and translate knowledge, educate future generations of researchers, apply our research findings to improve the overall quality of life, and communicate and share our research success for the betterment of society at large. To achieve this goal, we will:

- Significantly increase research and innovation activity
- Establish areas of research excellence in:
 - Energy and sustainability
 - Advanced manufacturing and logistics
 - Engineering human health
 - Cyber enabled discovery
- Grow existing strength in materials science and engineering, including nanoscience, to underpin overall research capability
- Translate research results to realize commercial value
- Greatly increase national recognition of Speed School research activities

Community Engagement

Our goal is to be a driving force for change in the community by applying our engineering expertise to the solution of real-world problems. To achieve this goal, we will:

- Increase the number of partnerships and collaborations with both private and public institutions
- Serve as the public square where the engineering community and the public can gather for programs, lectures, and conversations about the engineering challenges of our times
- Improve communication and marketing efforts to better engage the community
- Improve the quality and quantity of interactions between the school and its alumni to better utilize their unique perspectives on the needs of the engineering community
- Strengthen outreach activities to strengthen the pipeline of prepared student into engineering

Diversity and Opportunity

Our goal is to maintain a diversity of background and perspective of faculty, staff and students, and provide increased opportunities for all. To achieve this goal, we will:

- Increase the percentage of underrepresented students and faculty in the school, with particular focus on attracting a more diverse population of races and ethnicities, women, and first generation college students.
- Improve professional and career services for students and alumni
- Enhance the role and impact of student groups and professional societies to encourage lifelong learning and service
- Increase the number of international learning opportunities for students and faculty
- Implement professional development and mentoring programs for faculty and staff

Responsible Stewardship

Our goal is to effectively steward our valuable human resources, financial assets, equipment, infrastructure, information, and technology, to provide the highest quality of teaching, research and professional service. To do this, we will:

- Streamline academic, research and administrative processes to increase productivity
- Increase annual gifts and endowments to the school to support the strategic plan
- Work with the University to improve our engineering campus, facilities, classrooms and laboratories
- Ensure that our unique educational environment remains affordable to all qualified students
- Implement more modern and effective evaluation and rewards systems that promote and encourage faculty and staff productivity

Instruction

The J. B. Speed School of Engineering offers ABET-accredited Baccalaureate programs in Bioengineering, Chemical Engineering, Civil Engineering, Computer Engineering and Computer Science, Electrical Engineering, Industrial Engineering, and Mechanical Engineering. It also offers ABET-accredited Master of Engineering degrees in these disciplines. The School offers an online graduate Master of Engineering in Engineering Management program. It offers Master of Science degree programs in Chemical, Civil, Electrical, Industrial, and Mechanical Engineering, and Computer Science, as well as Ph.D. programs in Chemical Engineering, Electrical Engineering, Mechanical Engineering, Industrial Engineering, Computer Science and Engineering, and Civil Engineering. The school also has a collaborative degree program with GE

Appliances offering onsite graduate-level engineering classes at Appliance Park here in Louisville. The Master of Engineering in Engineering Management is also offered in Panama City, Panama.

Highlights

- Speed School is the first, and only, engineering school to have ABET accredited programs at both the baccalaureate and masters levels.
- Speed School enrolled 525 first-time freshmen in Fall 2016, the single largest incoming class in school history. A similar size freshman class is projected for Fall 2017.
- Total enrollment exceeds 2,700 students, the largest in school history.
- With an average ACT composite score well above 29 for incoming freshmen, the school continues to attract the best and brightest students from the Commonwealth of Kentucky and beyond.
- The school implemented a new freshman hands-on “Intro to Engineering” course in which students actually design, build and test a complex engineering system.
- Speed School has seen growth in its online offerings, particularly in the Masters in Engineering Management – Online program.
- Jobs for engineering graduate remain strong, Over 98 percent of Speed BS graduates found employment (or went on to pursue graduate education) within 90 days of graduation.

Research

The J. B. Speed School of Engineering operates a comprehensive research program, supported largely by extramural funding from government agencies and industry. The strategic plan shown above calls for research excellence in energy and sustainability, advanced manufacturing and logistics, engineering human health, and cyber-enabled discovery, with growth and strength in materials science and engineering including nanoscience to underpin overall research capability. In order to meet these goals, the school maintains a variety of state-of-the-art research centers, institutes, and laboratories. The GE Factory Automation Laboratory, located in the Vogt Building, houses the Haas Technical Education Center and the Rapid Prototyping Center focused on state-of-the-art advances in additive manufacturing techniques. The Micro/Nano Technology Center (MNTC), located in the Shumaker Research Building, operates a 10,000 square foot clean room facility that provides capability for the manufacture of integrated circuits (ICs), discrete microelectronic devices, MEMS devices such as sensors and actuators, and various electro-optic devices. The Conn Center for Renewable Energy, established in 2009, seeks to enhance global energy and economic security and maintain US technological leadership in developing and deploying advanced energy technologies.

The Kentucky Pollution Prevention Center (KPPC) is a state-mandated technical assistance resource center to help businesses, industries and other organizations stay environmentally sustainable and competitive. Additional centers and laboratories throughout the school focus on a variety of cutting edge research areas including ergonomics, stream restoration, electro-optics, cyber security, civil infrastructure, and more.

Highlights

- Overall research expenditures in fiscal year 2016 climbed nearly 30% to over \$10 million.
- UofL and GE continue to collaborate through FirstBuild, opened in July 2014. This 35,000 square foot, state-of-the-art facility serves as a beta site for the planned Institute for Product Realization that will be developed on the 40-acre site south of Speed School over time. FirstBuild features a unique co-creation model for the rapid development and production of home appliances, and offers tremendous opportunities for student/faculty/industry collaboration.
- Speed School operates a 15,000 student maker space and workshop areas for outreach and summer programs called the Engineering Garage (EG).
- The \$3.76 million NSF National Nanotechnology Coordinated Infrastructure Grant involves eight key facilities at UofL and UK. This Multi-scale Manufacturing and Nano Integration Node (MMNIN), will enhance and upgrade advanced manufacturing equipment at UofL and UK research facilities, add staff to help train and support up to 500 additional external users, provide seed money for research projects in key advanced manufacturing areas, and engage more minorities and women in nanoscale science, engineering and technology.

Significant Accomplishments

Community Engagement

- Speed School's Outreach Program has "Engineering Is Elementary" and "In the Middle of Engineering" Programs in numerous local elementary and middle schools in Jefferson and Oldham Counties with over 7,000 students involved.
- Speed continues to support student maker spaces at Nativity Academy, West End School, and Central High School and provides free afternoon tutoring from engineering students.
- Speed's Outreach Program offers numerous summer engineering camps at Speed School and partners to support additional camps in local schools.
- Student engineering design teams continue to earn top 10 finishes in national competitions. River City Rocketry, won First Prize at the

Academic Unit Summaries

2018 Operating Budget

2017 NASA Student launch completion, competing against top engineering schools in the nation.

- In addition, they and other organizations such as Society of Women Engineers (SWE) and National Society of Black Engineers (NSBE) participate in STEM outreach efforts.
- The Speed Alumni Council sponsored the 4th Annual Golf Classic for Outreach and raised over \$12,000 in support of Speed School outreach programs.
- The Office for Career Services hosts two career fairs per year that attracted over 100 different employers and over 500 students.
- Speed offers an Engineering Living Learning Community (common dorm) for over 120 freshman in 2016. The school plans to expand the program to over 200 students in 2017.

Diversity, Opportunity & Social Justice

- Speed School established a new LGBT engineering student organization, called Speed Spectrum in 2016.
- Speed School continues to expand minority engineering scholarship programs with the addition of new sponsors and donors.
- Speed School offers a week-long diversity celebration with a wide variety of speakers, events and awards, as well as a Women's Leadership Conference for Speed students and area high school students.
- Speed continues to seek to increase the diversity of its student body through programs such as the Brown-Forman INSPIRE Summer Enrichment Program for high school students, and the highly-immersive resident 2-week program called the Brown-Forman Academy that aims to help admitted Speed freshmen improve their chances for success prior to arrival on campus.

Creative and Responsible Stewardship

- The school has completed a major architectural study to develop master plan for the Speed campus to better accommodate research labs, classrooms, student areas, teaching labs and capstone design project areas.
- Working with the Industrial Board of Advisors (IBA), Speed School seeks out new ideas and enhancements to implement plans for achieving excellence.
- Speed School, through its Kentucky Pollution Prevention Center (KPPC), continues to provide pollution prevention and energy management technical assistance services to industrial and commercial facilities throughout Kentucky.

Budget Changes

- The FY 2018 general fund budget is increased by \$1.9 million due to steadily increasing enrollment numbers in the Speed School. This funding has enabled it to make key term faculty hires, as well as strategic faculty hires in, among others, the areas of Advanced Manufacturing and Sustainability.
- The new Speed Engineering Co-op Course Fee was approved last fiscal year, and goes into effect in FY 2018. This fee is expected to generate \$273,000 in additional revenue to meet the administrative effort of placing an increasing number of students in co-op programs. The cost to students will, in part, be offset by reducing the number of required co-op credit hours from two to one.

SUPPORT UNITS

UNIVERSITY of LOUISVILLE

SUPPORT UNIT SUMMARIES

Audit Services and Institutional Compliance

Mission

To provide independent and objective assurance and consulting services designed to add value and help the university accomplish its goals and objectives by bringing a systematic, disciplined approach for evaluating and improving the effectiveness of risk management, controls, and governance processes.

This mission is supported by 10 professional and support staff, organized into four functional units:

- Audit Services provides an independent internal audit function, focusing on risk-identification and management, revenue enhancement, and expense reduction. Audit projects are performed in compliance with the Institute of Internal Auditors International Standards for the Professional Practice of Internal Audit. Three professional staff are certified internal auditors, with areas of expertise including information technology, and fraud investigation.
- The Information Security Office is the university's resource for guidance on information security compliance and administration of the university's information security program. It oversees information security policies and standards; provides compliance oversight and risk assessments; coordinates information security efforts, incident response and user awareness. It works in conjunction with other compliance officials to maintain regulatory compliance and to protect the confidentiality, integrity, and availability of university information assets.
- The Institutional Compliance Office is responsible for the administration of the university policy and procedure library, university sanction check process, and the university compliance hotline initiative. The Office works with the university's compliance officials to coordinate a consistent compliance risk assessment process.
- The Privacy Office is responsible for HIPAA compliance initiatives at the University, including training, risk assessment, risk management efforts, and is responsible for incident response protocols.

Goals

1. To perform risk based audits and reviews with the objectives of providing reasonable assurance that:
 - a. processes are efficient and effective in assisting units in meeting objectives, missions, and strategic goals,

- b. resources are safeguarded and used in a manner that preserves and enhances the university’s financial health, and
 - c. activities are performed in an ethical and compliant manner.
2. To promote a culture of excellence by assisting units:
 - a. identify financial, operational, compliance, information security, or performance risks, and develop cost-effective management strategies
 - b. participate in process/business reengineering design and implementation groups and information technology upgrades.
 3. Promote knowledge of internal controls, compliance, information security, and fraud prevention by participating in awareness and training activities offered to university employees (staff, faculty, and administration).
 4. Promote a culture of excellence by developing and managing incident response protocols, hotline reporting tools, and ensuring university policies are collated and easily accessible.

Significant Accomplishments

Audit Services has implemented a continuous auditing/monitoring program focused in the high-risk, high volume area of payment services. Exception reports have been developed identifying transactions in payroll and accounts payable areas that are validated by functional areas. This process helps the university safeguard its assets by ensuring high risk transactions are valid and accurate.

The Information Security Office continued to proactively increase training, giving in-person training for over 750 staff/faculty and students. In addition, the office facilitated and managed the ongoing facility clearance program, and completed a successful facility self-assessment and DSS audit resulting a raising the University’s clearance compliance level rating to Commendable.

Office of the Chief Financial Officer

The Office of the Chief Financial Officer includes the Bursar's Office, the Controller's Office, and Payroll Services.

The Bursar's Office maintains the tuition and fee rate tables for the University. The office collects and deposits student tuition and other funds received by the University. The Bursar's Office maintains official student tuition and loan accounts, provides cashiering services to University staff, students, and departments.

The Controller's Office records and reports the financial status and related financial information of the University and its affiliated and related corporations in accordance with statutory and regulatory requirements. Within the Controller's Office are Treasury Management, University Accounting and Reporting, Accounting Operations, General Ledger, and Tax.

- Treasury - Directs the receipt, control, custody, beneficiary identification and disbursement of funds for UofL and its affiliated and related corporations.
- University Accounting and Reporting - Responsible for the financial reporting of the University of Louisville and its affiliated and related corporations.
- Accounting Operations - Responsible for all University accounts payable, employee reimbursements, travel policies and procedures and the University-contracted travel agency.
- General Ledger - Responsible for posting accounting entries, procedures, corrections and maintenance for the University general ledger.
- Tax - Oversight and management of federal, state, local, and international tax compliance including interface with the respective taxing authorities and agencies for the University of Louisville, and its affiliated and related corporations.

Payroll Services is responsible for the accurate and timely payment of wages and wages-in-kind of University employees, subject to University, local, state, and federal policies, regulations, and laws. It serves all university offices and programs as well as organizations affiliated with the University of Louisville Foundation, Inc., University of Louisville Research Foundation, Inc., and the University of Louisville Athletic Association, Inc.

Budget Changes

- While most changes are a result of the reorganization and subsequent split from the COO, the \$560,000 reduction in the PCI program in the Bursar's office is due to a change in accounting practice to reflect the allocation of these costs to units.

Office of the Chief Operating Officer

Mission: To provide exemplary leadership, performance accountability, and service excellence throughout the development and implementation of core University business operations.

In January 2017, a reorganization of the Office of the Senior Vice President for Finance and Administration (SVPFA) led to the creation of the Office for the Chief Operating Officer (COO) in order to consolidate and administer the University's business, maintenance, safety and technical operations while increasing customer service and operational accountability. The following major units, along with their various underlying units, report to the COO: Business Services, Facilities Management, Information Technology, Performance Improvement & Business Analytics (PIBA), and Public Safety (ULPD). The office also directs the Finance and Administrative Support Team (FAST) in order to support the employment transactions, financial transactions and financial reporting for all of these units. Approximately 700 individuals work for all of the units that report to the COO.

The Office of Business Services works to manage all of the operational units that deliver commercial and professional services to faculty, staff, students and visitors. Parking and Transportation, Risk Management, Purchasing & Procurement, Print and Copy Management, Card Services, Mail Services, Campus Leasing and Contract Services (which includes UofL's Campus Stores, Dining Services, vending and the Commonwealth Credit Union), are all supported in a manner to promote operational efficiencies and improve campus productivity.

The Office of Facilities Management includes the University Planning, Design, and Construction (UPDC), Environmental Health and Safety (DEHS), and Physical Plant departments. University Planning, Design, and Construction (UPDC), is responsible for all design and construction phase activities for new capital construction and major renovation projects. Environmental Health and Safety (DEHS) is responsible for biological, radiation and workplace safety coordination and training, as well as for emergency management and communication, and hazardous material and chemical collection and disposition. Physical Plant is responsible for the operation and maintenance of agency facilities, whether owned or leased. Physical Plant staff consist of all major skilled trades, custodial and grounds personnel.

The Office of Information Technology (IT) provides a wide scope of technology services and solutions. IT teams of Advanced Computing, Communications, IT Infrastructure, Enterprise Security and Technology Support Services, utilize Agile and ITIL methodology to guide all information technology service delivery. Information Technology maintains the campus networks, campus-wide voice over IP telephone systems and a variety of enterprise business systems such as PeopleSoft Finance, Human Capital Management and Campus Solutions. IT

provides an extensive array of advanced research computing and state-of-the-art support with their Help Desk and direct support services for students, faculty and staff.

The Office of Performance Improvement and Business Analytics (PIBA) works to deliver streamlined business processes, transformative technology solutions, effective project management and responsive data analytics. The units under PIBA develop and implement continuous quality improvements for numerous administrative operations in order to increase productivity and service excellence at every level. These include the areas responsible for business operations, the finance and human resources ERP solutions, project management, business intelligence, digital communication and other quality improvement initiatives.

The Department of Public Safety maintains public peace and safety while safeguarding the assets of the institution and its faculty, staff, students and visitors. The department includes the University of Louisville Police Department (ULPD) as affiliated with Louisville Metro Police Department. It additionally handles medical and fire emergencies, event security, various safety programs, police escort services, facility access, emergency communications and security monitoring on all UofL campuses.

Goals

- Optimize the university's resources by maximizing cost efficiencies and strengthening fiscal controls while increasing technological innovation and collective process redesign.
- Increase alternative and sustainable revenue streams through entrepreneurial efforts as part of the institution's economic development and financial health.
- Deliver exemplary professional services to everyone in the UofL community as we also foster effective collaboration.
- Develop, maintain, and protect the university's infrastructure in a manner that supports and encourages our academic, research and clinical growth.
- Advance the university's decision-making by leveraging improved business intelligence solutions, accurate and timely data, and predictive analytics.

Significant Achievements

New ventures

- New partnership with Commonwealth Credit Union. The largest state-chartered credit union in Kentucky became the university's preferred credit union and added a new location on the Belknap campus.
- New UofL Dining Services contract with Aramark Corporation. Estimated value over \$75 million over the life of the contract. New venues in the past 5 months include two fully licensed Starbucks Cafés (on HSC, Belknap), Aramark's Twisted Taco – an American Mexican Cantina (Belknap), an Au Bon Pan Café Bakery (HSC) and a Panda Express (Belknap).
- New Bookstore/Campus Store contract with Follett Corporation. Estimated value over \$9.5 million over the life contract. Partnership increased online options, opened a renovated store at the HSC and launched a completely new venue with improved retail and more technology offerings at the Swain Student Activities Center.

Almost a quarter billion dollars in construction projects

- Swain Student Activity Center – The \$40 million renovation project is a capital makeover to the current 365,000 square footage of space, including a 32,775 square foot expansion. The plan for all three levels of the building features façade changes, removal of the exterior entry ramp and interior escalators, updated lobbies, lounges and restaurants, and an overhaul of the campus bookstore.
- Pediatric Medical Office Building – The new, eight storied, 170,000 square foot building will house all of the UofL Physicians pediatric specialty clinical practices, with a large general pediatrics location on the ground floor. The eight-story building will have seven clinical floors plus a lab, pharmacy and radiology services, rooftop garden and conference area.
- Belknap Student Success Building – A new, state-of-the-art, 161,000 square foot academic building that will enhance learning and provide services to students. Expected to open for the fall 2018 semester, the four-story, \$80 million academic building will serve undergraduate students on the Belknap Campus by housing 17 classrooms, as well as science labs and group study areas, gathering spaces and food service options.
- Papa John's Stadium Expansion – The \$55 million project will add to the fan seating options and enhance the student-athlete experience. Funded entirely by UofL Athletics through private donations, the project does not utilize any student fees, university, state or federal subsidies. The 70,000 square foot expansion includes 10,000 square footage for improvements to the team conditioning, training and therapeutic support.

Protecting our community

- ULPD Communication Center Audit by the Federal Bureau of Investigation resulted in zero errors found.
- Initiated Zone Resource Officers – Police Officers assigned to northwest area of campus for increased interaction with students and commercial businesses, and to monitor area for assault incidents.
- Purchased bullet-resistant vests for all police officers and instituted a mandatory wear policy for officer safety.

Leveraging technology / Improving business processes

- Encryption and redaction of database information for employee social security numbers and banking information within three essential enterprise systems.
- Implemented new capabilities in financial systems, which included a new mobile interface. Instituted new digital thresholds on purchase orders and payment requests to provide enhanced fiscal controls. Also activated online payment request functionality to provide for electronic processing/approvals.
- Accomplished programming and account processing for retro merit pay and faculty/staff equity pay increases, and federally mandated FLSA changes for biweekly and monthly paid employees.
- Increased access to online self-service tools – Implemented Preferred Name Options for HR and other campus enterprise systems, created new web-based options for paycheck withholding for federal and state (KY, IN) taxes, replaced paper forms for employee benefit changes with an online tool.
- Implemented a secure, online self-service process for employees to configure their paycheck direct deposit information. Makes distribution of funds to multiple institutions or varied accounts possible as well as system generated security alerts to users.
- Established a business and technical relationship with Amazon Web Services for university-wide use of Amazon Cloud.
- Created and implemented an online and mobile-enabled Business Operations portal that features a new onboarding process and new hourly timesheet application. Onboarding eliminated the need for a redundantly populated 36-page hiring packet and streamlined the hiring process for student assistants and temporaries. Time-capture is a paperless and workflow-enabled system allowing hourly employees to digitally record time worked and leave taken. These improvements saved thousands of hours, as well as substantial paper.

Budget Changes

- For FY 2018, several vacant positions were cut or redistributed within the COO or to the units once part of – Audit, Finance, and Human Resources. This redistribution removed several prior budget reductions, as well as reallocation pools, and resulted in just over \$3 million in discretionary funds yet to be assigned for FY 2018.

Executive Vice President Health Affairs

The Executive Vice President for Health Affairs (EVPHA) is the chief operating officer of the Health Sciences Center (HSC) and is responsible for 16 centers and institutes and four schools (Dentistry, Medicine, Nursing, and Public Health and Information Sciences). The EVPHA reports to the President and serves as one of four members of the President's executive team. The EVPHA is responsible for the relationships with executive leadership at UofL's affiliated hospitals, the Louisville Metro Health Department, and other health-related organizations, and for ensuring that the Health Sciences Center and UofL Health Care is a regional center of excellence for education, research and patient care. The office provides strategic oversight and planning for the KentuckyOne Health partnership, University Medical Center, Inc., UofL Health Care, and University of Louisville Physicians (ULP). The office also determines the allocation of resources received from KentuckyOne Health. The EVPHA is responsible for space allocation and capital planning for the HSC.

Budget Changes

- The FY 2018 general fund budget decreases by \$24.9 million mostly due to repositioning hospital affiliation expenditures as non-general funds.

Executive Vice President Research and Innovation

Mission and Function

The Executive Vice President for Research and Innovation (EVPRI) is responsible for developing the institutional research policy, coordinating and providing oversight of research, scholarship and creative activity. In addition, the office oversees the identification, marketing and licensing of intellectual property developed at UofL in order to enhance economic development initiatives. The EVPRI has oversight of, and is responsible for, the development of translational research to help move discoveries from the conceptual stage through development of products and opportunities for the good of humanity. It serves as a university-wide resource for identifying and capitalizing on intramural and extramural resources for research and scholarship for UofL faculty, staff and students. The office serves as the liaison with granting agencies, develops policies and procedures to assure compliance with granting agency policies and procedures, and identifies funding for faculty research interests by matching faculty with potential funding sources and/or contract opportunities.

In regards to its history, the department for graduate studies and research operated under the auspices of a Vice Provost beginning in the 1970's. The Research Department became a separate department in 1997 with the installation of a Senior Vice President for Research. In 2011, it became the Office of the Vice President for Research and Innovation. It now has approximately 100 employees.

Significant Changes

- Creation of a Research and Innovation Center in downtown Louisville on the J.D. Nichols campus.
- Reorganization of current EVPRI personnel experienced with innovation and commercialization led by an Associate Vice President for Research and Innovation.
- A newly created Clinical Trials Unit reporting to the Executive Vice President for Health Affairs, with functional ties to the EVPRI.
- Reorganization of the EVPRI grants management and grants financial accounting personnel. This partnership enables team members to work with a project from the proposal composition stage through to the project's end.

Goals

- Develop improvements in the grants/projects management systems through team-based project management, such as implementation of new software modules to provide electronic processing of all phases of grants management.
- Enhance efforts for projects in community engagement with both public and private funding.
- Provide a platform for sharing under-utilized resources and a starting point for interdisciplinary collaborations.

Support Unit Summaries

2018 Operating Budget

- Support student diversity through the Louis Stokes Alliance for Minority Participation along with other state and regional institutions; employee diversity with the EVPRI units' council that promotes moral, equitable and just practices.
- Lead communication efforts among the university's separate offices charged with compliance review and oversight of streamlining the processes for privacy, safety and other regulatory issues.

Research

Many EVPRI personnel are accomplished researchers, with many hundreds of research grants and contracts, professional publications, inventions, startup companies and mentored professional students. They continue to lead and to give back to society through their leadership.

This includes:

- Continued success with new proof of concept projects through the Coulter Foundation Award, the NIH REACH program, and the NSF ICorps program and the NSF AWARE:ACCESS program for entrepreneurs from underrepresented minorities.
- Redevelopment of EVPRI's website and portal pages enabling better access for researchers, investors, and community partners to the information on UofL research, innovation programs, and support.
- Brought live the iRIS software suite for the electronic management of grants' projects.
- Continued engagement with ACC colleges and universities for information exchanges on research collaborations.

Significant Accomplishments

- Continued development of research centers, institutes and core laboratories.
- Maintenance of Carnegie R1 Research University, the highest activity status.
- Recognition as a Carnegie Community Engagement University.

Budget Changes

- For FY 2018, the general fund budget decreases by \$108,000 primarily due to an across-the-board budget reduction that was applied to all units.

Executive Vice President and University Provost

The Executive Vice President and University Provost (Provost) serves as the chief academic officer of the University and is second in overall authority. The provost is a member of the senior leadership team of the university. All academic deans and the Dean of Students report to the provost.

Also reporting to the provost, in support of the academic units and students in general, are vice and associate provosts who are responsible for the following areas, which are further described below: academic affairs, academic planning and accountability, budget and planning, the Delphi Center, diversity and international affairs, faculty affairs, and strategic enrollment management and student success.

Goals

- Improve the undergraduate experience, retention, and six-year graduation rate.
- Increase the number of interdisciplinary graduate programs and develop programs and processes to enroll more out-of-state students.
- Enhance faculty and staff development, develop administrative leadership programs, develop and improve orientation programs, and offer coaching/mentoring opportunities.
- Design and begin implementation of a strategic enrollment management plan to increase enrollment university-wide.
- Lead and participate in a new, university-wide budget development process for clarity, transparency and shared responsibility.
- Oversee a new plan for strategic use of Belknap Campus facilities to accommodate progressive increases in enrollment, including the completion of the new classroom building.

Significant Accomplishments

- Earned National Top Producer of Fulbright Scholars designation, then followed up with a record-breaking Fulbright class of 15 students and alumni, more than all other Kentucky colleges or universities.
- Earned a gold STARS ranking, the only such ranking for a Kentucky university, from the Association for the Advancement of Sustainability in Higher.
- Designated as one of only sixteen schools nationally (and the only university in the south) to be America's "Best of the Best" LGBTQ-friendly universities in the Campus Pride Index.

- Six-year graduation rate for first-time, full-time, baccalaureate degree-seeking students entering Fall 2010 was 52.8%.
- First-year retention rate for first-time, full-time, baccalaureate degree-seeking students entering Fall 2015 was 79.7%.
- Average ACT of first-time, full-time, baccalaureate degree-seeking students entering Fall 2016 was 25.5.
- Beginning October 1, 2016, implemented an ad hoc plan to increase overall enrollment by 600 students in Fall 2017.
- Restructured the office to eliminate two vice provosts.

Academic Affairs

In early 2017, the unit was reorganized by merging undergraduate and graduate affairs under the leadership of a vice provost for academic affairs, who is responsible for general education and undergraduate programs as well as interdisciplinary and graduate programs.

- Undergraduate affairs provides university-wide service and support for undergraduate programs and policies, general education (assessment and curriculum), undergraduate research, and the honors program. Recent actions involving undergraduate affairs have been the completion of the 2007 QEP “Ideas to Action,” development of the 2017 QEP on student success in major/career alignment, and revision of the general education program, now titled “Cardinal Core.”
- Graduate affairs provides university-wide service and support for graduate degrees, academic success and programs that complement the curriculum. The vice provost for academic affairs serves as the provost’s liaison to the Office of the Dean of the School of Interdisciplinary and Graduate Studies (SIGS), the Graduate Council (faculty), the Graduate Student Council, academic advisors, and academic support programs for graduate students.

Academic Planning and Accountability (OAPA)

OAPA serves as the official institutional data repository and provides academic planning, and institutional effectiveness support for the university. The office works to provide understanding and context of the university’s academic/administrative units, programs, and campus populations; to ensure continuous, systematic assessments to inform institutional improvement; and to ensure compliance and accountability to federal, state, and accrediting agencies, as well as the public. In this role, OAPA consists of the following offices under the direction of the Vice Provost for Institutional Research, Effectiveness and Analytics:

- Accreditation and Academic Planning (AAP), whose function includes the coordination of all institutional and discipline-specific accreditation processes. The unit disseminates information on accreditation, coordinates the academic program approval and review processes, and on a regular basis completes the necessary reports to the Southern Association of Colleges and Schools (SACS), the Council on Postsecondary Education and others as required.
- Institutional Effectiveness (IE), whose function includes is responsible for coordinating campus-wide and assisting unit-level assessment of academic programs and administrative processes to support the University's quality improvement efforts.
- Institutional Research and Planning (IRP), whose function is collecting, maintaining, analyzing, interpreting, and disseminating data regarding characteristics, operations, and policies of the University of Louisville (UofL). IRP is the repository for official University data, and produces timely, accurate and methodological appropriate statistical analyses regarding UofL in response to requests for information from key constituency groups both within and outside the University.

In addition to the standard areas of responsibility listed above, the unit worked with the Kentucky Council on Postsecondary Education (CPE) to align the 2016-2021 statewide strategic agenda with the university's 2020 strategic plan and 21st Century University Initiative, and with SACSCOC and university leadership to address matters related to the university's reaffirmation of accreditation and issues of institutional governance.

Budget and Financial Planning (BFP)

BFP oversees the planning, development, and implementation of the university's budget each fiscal year. The office is also responsible for the creation of the Operating Budget book, monthly reports to leadership and all university units, fiscal and policy analysis, revenue and expense forecasts, budget management, state financial disclosure reporting, capital project funding oversight, and assistance with numerous other projects from leadership as well as the units. In FY2018, the budget and planning office will also take over the strategic planning function for the provost as a result of the planned reduction of the vice provost for academic strategy.

The Delphi Center for Teaching and Learning (Delphi)

The Delphi Center provides programming, learning opportunities, and other resources to university faculty, staff, students, and community members to encourage excellence in teaching and foster a spirit of learning. The Delphi Center is made up of the following.

- The Teaching Innovation Learning Lab (TILL) opened in August 2016 with a mission to explore and test innovative teaching methods that will drive success for the 21st century student. This technology-enabled active learning space will prepare faculty to teach in the new academic building set to open in 2018.

- Adaptive Learning, for which the Delphi Center is managing a \$515,000 grant from the Association of Public and Land Grant Universities (APLU) to promote the adoption of adaptive learning at the university, with an initial focus on improving student success in general education courses. Adaptive learning methods are designed to reduce dropout rates, improve student outcomes, and better establish deeper learning, especially over the long-term.
- Other aspects include Online Learning, Faculty Development, Instructional Design and Technology, Blackboard Support, Event and Conference Center at ShelbyHurst Campus, and Professional Development

Diversity and International Affairs

Led by the Vice Provost for Diversity and International Affairs, the unit strives to foster an inclusive learning environment for students and a fair and equitable workplace climate for faculty and staff so that everyone can achieve academically and professionally. Working collaboratively with students, faculty, staff and administrators, the university has increased the numbers of students and faculty of color and acquired national recognition by receiving Insight into Diversity's Higher Education Excellence in Diversity Awards for four consecutive years and has been listed as one the top 25 LGBT-Friendly Campuses. The following centers/offices report to the Vice Provost for Diversity and International Affairs.

- The Cultural Center, the International Center, the LGBT Center, the Muhammad Ali Institute for Peace and Justice, the Women's Center, and the Office for Diversity Education and Inclusive Excellence.

Faculty Affairs

Faculty Affairs works with the provost and academic deans to oversee all faculty personnel actions and to provide faculty and administrator professional development programs. These programs and services include: orientation and professional development for new faculty and deans; coordinating and advising related to the university's promotion and tenure process; assisting with hiring, retention, reviews, sabbatical and medical leaves; and leadership programs for department chairs and other administrative leaders.

Strategic Enrollment Management and Student Success (SEMSS)

A division of more than ninety professional staff in four offices, SEMSS supports students, faculty, staff and alumni of the University through recruiting, undergraduate admissions, student records and financial assistance to all university students and their academic units. The division was created in 2016 by separating from undergraduate affairs so that the focus could be on university-wide strategic enrollment management and coordination of student success services. The Enrollment Management Office provides support for both

administrative offices and the university's student services hub. It manages security for the student information system and provides intensive persistence support for at-risk students. The following offices report through the vice provost:

- First Year Initiatives (FYI) promote new student engagement and success at UofL by providing enriching curricular and co-curricular opportunities that help students develop fundamental skills, knowledge, and personal connections essential from their first year through graduation. FYI staff members coordinate many programs and initiatives, including Welcome Week, Book-in-Common, Student Tutorial On-Line Module Program, and the CARDS Connection program.
- Metropolitan College (MC) is a joint education-workforce/economic-development initiative of the University of Louisville (UofL), Jefferson Community and Technical College (JCTC), Louisville Metro, the State of Kentucky, and founding business partner UPS. Since its inception in 1998, this innovative partnership has helped thousands of students, with the help of a team of Student Development Counselors, pursue a free education and on-the-job training while reducing the UPS annual turnover rate of new hires from 100% to less than 20%.
- Registrar's Office, which oversees registration, transcript services, and diploma delivery, retains academic records of students and alumni, and manages and assists with commencement and residency appeals.
- Resources for Academic Achievement (REACH) supports the academic success of a diverse undergraduate student population through academic support services and retention programs that encourage students to be independent and successful learners.
- Student Financial Aid Office (SFAO), which manages all federal, state, institutional and private student aid funds, administering more than \$300 million in total awards, maintaining the university's compliance with federal and state regulations. The office has thirty full-time employees.
- Undergraduate Admissions coordinates the recruitment of undergraduate students, including transfer students, active military and veteran students. The office processes more than 10,000 applications to the university, manages transfer equivalency determinations and is responsible for official University publications including admissions pamphlets, University catalogues, bulletins, forms and brochures.
- Undergraduate Advising Practice (UAP) collaborates with academic advisors, faculty, advising directors, administrators and other campus partners to create and implement best practices in advising to support the university's undergraduate student success goals and initiatives

Budget Changes

- For FY 2018, the general fund budget decreases by \$447,000 primarily due to the budget reset.
- Though there are cuts to many programs, several are part of a reorganization creating the Office of the Vice President for Enrollment Management and Student Success as well as Coordinated Business Services, which are new in FY 2018.
- Need-based financial aid also increases by \$351,000.

Human Resources

The Office of Human Resources strives to be an administrative center of excellence whose fundamental purpose is to help campus administrators recruit, retain, recognize, and reward top quality faculty and staff; to advance processes that promote a quality work-life and shared responsibility; and to create programs that enhance the university’s culture and make UofL an employer of choice. The areas reporting to the Associate Vice President for Human Resources are employment and compensation; salary administration; benefits administration; staff development and employee relations; health management; employee assistance programs; and equal employment opportunity and affirmative action.

The Associate Vice President for Human Resources also serves as the University Equal Opportunity Officer, Title VII and Title IX Administrator, and ADA Administrator and is responsible for ensuring the University’s compliance with all relevant Federal and State EEO statutes and regulations.

In FY 2017, Human Resources was part of the Sr. Vice President for Finance and Administration. With the reorganization to the COO, Human Resources was once again split out as a standalone unit.

Office of the President

The Board of Trustees has statutory authority to provide governance and policy direction for the University. The President has delegated authority from the University's Board of Trustees to lead the University, as policy adopted by The Redbook, in matters involving broad academic and fiscal operations, including the implementation of all policy approved by the Board of Trustees.

The Office of the President consists of the President and three Executive Vice Presidents (EVP & University Provost, EVP for Health Affairs, and EVP for Research & Innovation).

The offices reporting directly to the President are: Executive Vice President and University Provost, Executive Vice President for Health Affairs, Executive Vice President for Research and Innovation, Chief Financial Officer, Chief Operating Officer, Vice President for Advancement, Vice President for Athletics and Athletic Director, Vice President for Community Engagement, Vice President for Strategy and General Counsel, and the Office of Communication and Marketing and Governmental Relations. The President's executive team, which administers all academic, fiscal, philanthropic, and athletic activities of the University of Louisville, consists of the President, EVP and University Provost, EVP for Health Affairs, and the EVP for Research and Innovation.

Budget Changes

- For FY 2018, the general fund budget increases by \$2 million primarily due to a reduction in previous non-general fund support through the University of Louisville Foundation.
- The Office of the President underwent a small reorganization within the office of Communications and Marketing. This provides a more defined structure to the activities in the department.

Vice President Community Engagement

The Office of Community Engagement coordinates the interaction of university faculty, staff, and students for the mutual benefit of the community and the university. This office facilitates the use of university resources to support university and community partnerships, and engages new partners to contribute to the educational, health, social and economic progress of the metropolitan area, nation, and global community.

The office supports and advances community engagement to enrich the learning experience of students and to enhance the teaching and research of faculty. Specifically, it facilitates the community based learning experience of UofL students at community organizations through internships, field experience/practicum, clinic experience, research, service-learning, or volunteer opportunities.

The Office of Community Engagement oversees the University's Signature Partnership Initiative with West Louisville, as well as the University's College Connection Initiatives, including Project Upward Bound Programs I and II, Talent Search, and Youth Toward Excellence Program.

Established in 2006, the Office of the Vice President for Community Engagement has thirteen employees.

Goals

- Measure the impact of faculty, staff and student involvement in collaborative partnerships,
- Identify partnerships to define and demonstrate engaged scholarship/research,
- Identify partnerships that provide evidence of community impact based on established rubric,
- Monitor progress of community engagement plans with administrative and academic units, and
- Increase the number of partnership activities of the Signature Partnership Initiative.

Research

- Promotes faculty involvement in community-based research through the Signature Partnership Initiative.
- Awards bi-annual Faculty Incentive Grant for innovative research.
- Facilitates and promotes ongoing research and Engaged Scholarship.
- Facilitates faculty development for community-based research and teaching.

Significant Accomplishments

- The data collection process developed by OCE is recognized as a national model.
- The template used to develop the community engagement plans for administrative and academic units and the process used to implement the development of these plans was presented at three national and international conferences.
- A record number of faculty participated in professional development workshops on community engagement and engaged scholarship.
- Celebrating the 10th Anniversary of the Signature Partnership with west Louisville, which has gained national recognition.
- Manages the Annual Community Engagement Awards for faculty, staff and students as well as an outstanding community partner.
- Awards innovative Student Philanthropy Grants to local non-profit organizations each semester.
- Facilitates over 100 university-community partnerships.

Vice Provost for Student Affairs

The mission of the Office of the Vice Provost for Student Affairs (VPSA) is to provide students with effective services while enrolled at the University of Louisville. We seek to create developmental opportunities that augment their academic experience and enhance the quality of their lives.

When coupled with a challenging academic experience, these services and opportunities facilitate the students' total development so that they attain their educational goals as individuals and are prepared to function successfully as leaders within a diverse, multicultural and international world. In support of this mission, the VPSA provides essential services to the faculty and to the academic units.

Major Divisions of Student Affairs, listed alphabetically, include

The Student Government Association (SGA) consists of an executive branch, judicial branch, a legislative senate and multiple student councils organized around academic colleges. It is charged with representing the student body on issues related to campus programs, services, and governance. SGA also provides programs and services designed to support the student experience.

The UofL Housing and Residence Life program is a self-supporting auxiliary enterprise that generates revenues to fund all expenses associated with the day-to-day operation of seven residence halls. Expenses include staffing and administration, residential programming, daily maintenance and repair, delivery of utilities and technology services, and deferred maintenance and system replacements. Housing and Residence Life staff coordinate housing assignments and billing, select and supervise building staff, maintain the physical facilities, monitor student behavior, and provide student programming and support activities.

The Housing and Residence Life program also manages affiliation agreements with six external housing operations located adjacent to the Belknap and Health Science Campus. These privately owned, but university managed, apartment communities provide upper-class students residence options close to campus. Housing and Residence Life provides a liaison-type link to the campus environment through recruitment, programs, and assistance with student issues and crises. These communities provide approximately 2,300 beds.

Residence hall communities provide students the opportunity to participate in intentional programs and activities designed to help students develop skills that will prepare them to be successful in their eventual career or profession. Students who live on campus have higher year-over-year retention rates and are more successful with their academic career when compared to students who live off-campus.

Goals

- To inspire a vibrant campus life and engaged student body.
- To celebrate tradition and create a sense of purpose.
- To enhance services that meets the needs of students.
- To transform theory into practice to support student learning.

Significant Accomplishments

We continue efforts to develop a more vibrant campus community through creating opportunities for more students to live on campus, developing additional campus food and service options, supporting increased social and recreational programming, and providing additional service and leadership opportunities.

Student Affairs continues to set the bar and increase numbers on the following:

- Percentage of students living on campus.
- The number of students attending student activity programs annually.
- The number of individuals using intramural and recreational sports gyms and facilities.
- The Club Programming Committee continues to provide financial support directly to student organizations for campus programming.

Budget Changes

- For FY 2018, the general fund budget increases by \$9.2 million, which along with some other minor changes, is due to the University Housing budget increasing by \$9.5 million. This is due to six new housing facilities that were previously overseen by the University of Louisville Foundation, but are now managed and operated by Campus Housing. These housing units include the recently constructed University Pointe as well as Cardinal Towne, Community Park, and Billy Minardi, Kurz, and Bettie Johnson halls. Transferring the management of the residences from a private contractor to Campus Housing will result in an annual savings to ULF of approximately \$400,000. Additional rent and fee revenues to Campus Housing will cover the costs of managing the new units.

Vice President University Advancement

The Office of University Advancement (VPUA) works to further public understanding and recognition of the University of Louisville and its mission—to be the Commonwealth’s premier metropolitan research university and develop public, political, and financial support for the institution. The Office of University Advancement works directly with the University of Louisville Foundation to actively promote and encourage private philanthropy for the advancement of the University of Louisville.

Advancement’s mission is to build enduring relationships through engagement, philanthropy and stewardship to advance the teaching, research and service mission of the University of Louisville.

Our Values: Integrity, Supporting Culture, and Excellence

FY 2017 Goals

1. Raise \$150,000,000 million for university programs and projects
2. Increase alumni giving rate to 14.1%
3. Increase overall annual fund academic donor acquisition to 24,744
4. Increase overall annual fund dollars raised to \$4,783,206
5. Increase overall donor retention rate to 67%
6. Continue commitment to excellence in staff hiring, retention, accountability and productivity

Significant Accomplishments

Advancement leadership believes success depends on the capacity, passion, and commitment of staff. For that reason, they invest resources to ensure they recruit, retain, and train the best people in the business. There is a deep commitment to staff training that includes leadership development. Our results have proven our efforts are worth the investment. Advancement is also committed to staff diversity and in fiscal year 2016, Advancement surpassed their diversity goals. Below are the highlights of these initiatives:

- Diversity Goals:
 - FY 2016 development staff diversity goal of 9% with year end actual being 18%
 - FY 2016 overall staff diversity goal of 13% with year end actual being 15%

- Overall staff retention greatly improved in FY 2016; goal of 85% and year-end actual being 84%
- Staff training
 - The unit increased the number of professional development plans among staff, hosted a two-day fundraising workshop for development officers and hosted the Educational Advisory Board (EAB) training for staff on how to increase annual fund giving. Three senior staff attended an EAB conference in Washington DC to learn about the new research on best practices for Advancement. In addition, three senior leaders participated in personal coaching to improve self-awareness and leadership skills.
- Staff Recruitment
 - To improve hiring, the Advancement Talent Management committee developed a new interviewing and selection process that includes a more intensive review of the following: review quality of writing, social media, behavioral interviewing, in-basket tasks, thorough reference checks and improved constituent feedback process.

FY16 Goals Recap

1. Raise \$238,865,574 million for university programs and projects (actual \$241,956,933)
2. Increase the number of alumni donors to 12,239 and reach the 14.6% giving rate (actual 11,905 undergrads; 14.1%)
3. Increase overall annual fund academic donor acquisition to 23,696 (actual 24,742)
4. Increase overall annual fund dollars raised to \$4,783,205 (actual \$4,629,492)
5. Increase overall retention rate to 72% (actual 66%)
6. Increase percentage of funds given to endowment to 54% (actual 39.9%)
7. Build an A+ Alumni Association
8. Continue commitment to excellence in staff hiring, retention, accountability and productivity

Support Unit Summaries

2018 Operating Budget

Budget Changes

- For FY 2018, VPUA is moving entirely to non-general funds. The \$131,000 budget is funded from positions split between Advancement and two others – Student Affairs and the College of Arts and Sciences.

Central University – Business Activities

Central University Business Activities includes university-wide expenses paid from a central pool. Examples of these expenses include utilities, general insurances, and leases.

Budget Changes

- For FY 2018, the general fund budget decreases by \$296,000 primarily due to lower anticipated utility expenses.

Central University – Finance

Central University—Finance holds reserve funds to meet unforeseen budget emergencies and to provide financial flexibility during the year. Reserves include:

- Budget Reserve Fund,
- Financial Aid Escalator Reserve,
- Staff Reclassification and Faculty Promotion Funds
- Student Center Building Reserve Allocation, and
- Tuition Rate Discount Reserve.

Budget Changes

- Debt service programs and their changes for FY 2018 combined for an increase in debt service of \$5.4 million, primarily due to the three new bond series.
- Several reserves have been removed, consolidating them into single budget reserve fund.

Notes:

- Salary increase amounts do not include fringe benefits.
- Eligible classified personnel received a salary increase due to the living wage rate increase.
- Salary increase amount in this year does not include permanent "catch-up" adjustments received by selected faculty and staff. Administrators earning greater than \$150,000 are excluded from the salary increase.
- Salary increases for some P&A and Classified staff may have slightly exceeded 3% due to a Staff Senate recommendation about how the merit increase should be distributed.
- Salary increase amount in this year does not include permanent "catch-up" adjustments received by selected faculty.
- \$1,200 to each full time employee with satisfactory performance. President, Provost, Deans and Vice Presidents are excluded.
- \$1,200 to each full time employee with satisfactory performance. Administrators excluded.
- \$700 to each full time employee with satisfactory performance became CAR this year.
- Salary increase amount in this year does not include permanent "catch-up" adjustments received by selected staff.
- \$700 to each full time employee with satisfactory performance.

Avg' = Average; "ATB" = Across the Board

UofL CORPORATIONS

UNIVERSITY of LOUISVILLE

UOFL CORPORATIONS

The University of Louisville has relationships with several separate related corporations that support or augment the university's educational missions. These organizational entities are classified as either "affiliated" or "non-affiliated" corporations of the university.

An affiliated corporation is defined by Kentucky statute (KRS 164A.550) as a corporate entity that could not exist or effectively operate without substantial assistance from UofL. Non-affiliated corporations are those entities that do not meet the statutory definition of an affiliated corporation.

The FY 2018 projected budgets for UofL's affiliated and non-affiliated corporations total \$726 million. A number of anticipated grants and contracts in the UofL Research Foundation have not been awarded, and therefore, cannot be budgeted. UofL Corporations' Budgets are shown in Table 23, as separated across the entities. Each corporation is then described in more detail following these tables.

Table 23: UofL Corporations' Budgets

Budget by Corporation	FY 2017 Budget	FY 2018 Budget	FY 17-18 Change
University of Louisville Research Foundation, Inc.	\$482,780,500	\$539,027,600	\$56,247,100
University of Louisville Athletic Association, Inc.	96,400,000	104,505,900	8,105,900
University of Louisville Foundation, Inc.	149,274,800	82,442,700	(66,832,100)
Quality and Charity Care Trust	2,500,000	0	(2,500,000)
Total UofL Corporations' Budgets	\$730,955,300	\$725,976,200	(\$4,979,100)

Source: UofL Corporations, Budget and Financial Planning

UNIVERSITY OF LOUISVILLE RESEARCH FOUNDATION, INC.

The University of Louisville Research Foundation (ULRF) is a non-profit corporation affiliated with the University of Louisville. The Research Foundation was established in 1989 for the purpose of promoting and supporting research projects, investigations, clinical operations, and other activities relating to the educational, scientific, literary, health care and public service missions of the university.

Table 24 shows ULRF budgeted revenues and expenditures for FY 2017 and FY 2018. For FY 2018, the ULRF budget totals \$539 million, which is \$56.2 million more than FY 2017. The increase is primarily attributable to serving more patients through the expansion of University of Louisville Physicians (ULP) services, the largest multi-specialty physician practice in the Louisville area. In addition, Hospital Affiliations have been reclassified from general funds to non-general for FY 2018.

Table 24: UofL Research Foundation, Inc. Budget

Revenues	FY 2017	FY 2018	FY 2017-18 Change	
			Amount	Percent
Clinical Operations	\$291,780,500	\$318,534,000	\$26,753,500	9.2%
Sponsored Agreements - Direct	145,095,500	145,095,500	0	0.0%
Sponsored Agreements - F&A	25,000,000	24,000,000	(1,000,000)	-4.0%
Hospital Affiliations *	0	30,493,600	30,493,600	0.0%
Other **	20,904,500	20,904,500	0	0.0%
Total Revenue	\$482,780,500	\$539,027,600	\$56,247,100	11.7%
Expenditures				
Salaries	\$265,502,900	\$279,845,100	\$14,342,200	5.4%
Fringe Benefits	50,977,400	59,361,500	8,384,100	16.4%
Operating Expense	166,300,200	199,821,000	33,520,800	20.2%
Total Expenditures	\$482,780,500	\$539,027,600	\$56,247,100	11.7%

* Prior to FY 2018, KentuckyOne Health revenues and expenses were budgeted as general funds. In FY 2018, they are budgeted as non-general funds to reflect the limitations on how those funds can be spent.

** Other includes items such as grants for financial aid and instruction.

Source: UofL Budget Office, ULRF

ULRF has two primary sources of revenues: 1) clinical operations, and 2) grants and contracts and their associated facilities and administrative (F&A) cost recoveries. In addition, a component which was included in general funds in previous years, hospital related revenues such as Kentucky One Health are now included in the ULRF budget.

Clinical Operations

Of the \$539 million total Research Foundation budget for FY 2018, clinical services revenues total \$318.5 million, or 59 percent. Clinical services revenues come from patient care and laboratories including primary care, radiology, oncology, neonatal care, and cardiology, among a host of others. Clinical services revenues also include financial support from affiliated hospitals for clinical services, academic programs, and house staff (interns and residents).

Table 25 shows clinical services budget amounts by unit for FY 2018.

Table 25: Clinical Budgets by Unit, FY 2018

Clinical Total by Unit	Amount	% to Total	Number of Programs
School of Medicine	\$278,679,695	87.5%	323
Executive VP for Health Affairs	19,427,400	6.1%	13
School of Dentistry	18,586,052	5.8%	33
School of Nursing	1,840,833	0.6%	1
Total	\$318,533,980	100.0%	370

Source: Office of Budget and Financial Planning and EVPHA

The School of Medicine accounts for 87.5 percent of all clinical operations' revenues at the University of Louisville. Within the School of Medicine, about 50 percent of FY 2018 budgeted clinical revenues come from graduate medical education, radiology, neonatology, and pediatric programs.

Clinical services revenues for the School of Dentistry primarily come from the Dental Clinic and graduate residency programs.

All budgeted clinical services revenues for the School of Nursing come from its nursing practice program.

Under EVPHA, clinical services revenues help fund strategic initiatives for the School of Public Health, the HSC Office of Diversity and HSC central administration. Based on the strategic goals of the EVPHA, a portion of these funds may be allocated to other HSC units during the fiscal year.

Sponsored Agreements – Direct

Revenues from sponsored agreements (which are also referred to as grants and contracts) come from awards by government and for-profit and non-profit entities to UofL faculty and researchers. For example, the National Institutes of Health recently awarded the university over \$600,000 in neurological surgery to study altered motor function after spinal cord injuries. Grants and contracts are the second largest component of the ULRF budget, totaling \$145 million in FY 2018.

There are three types of sponsored agreement activities at the university:

- Grants – provide financial assistance for basic research, training or community service projects;
- Contracts – provide financial support for a specific task and are usually initiated by a sponsor; and
- Other Awards – include cooperative agreements, purchase orders and sub-agreements.

Figure I shows sponsored program awards and grant proposal submissions at the University of Louisville for fiscal years 2013 through the third quarter of FY 2017. Typically, there is a lag between proposals and awards. That is, a proposal may be presented in Year 1, but the award might not be received until the subsequent year(s). Though not all proposals are funded, there is a positive correlation between the number of proposals submitted and award dollars.

Figure I: Sponsored Research Awards Received by UofL, FY 2013 through FY 2017 Third Quarter

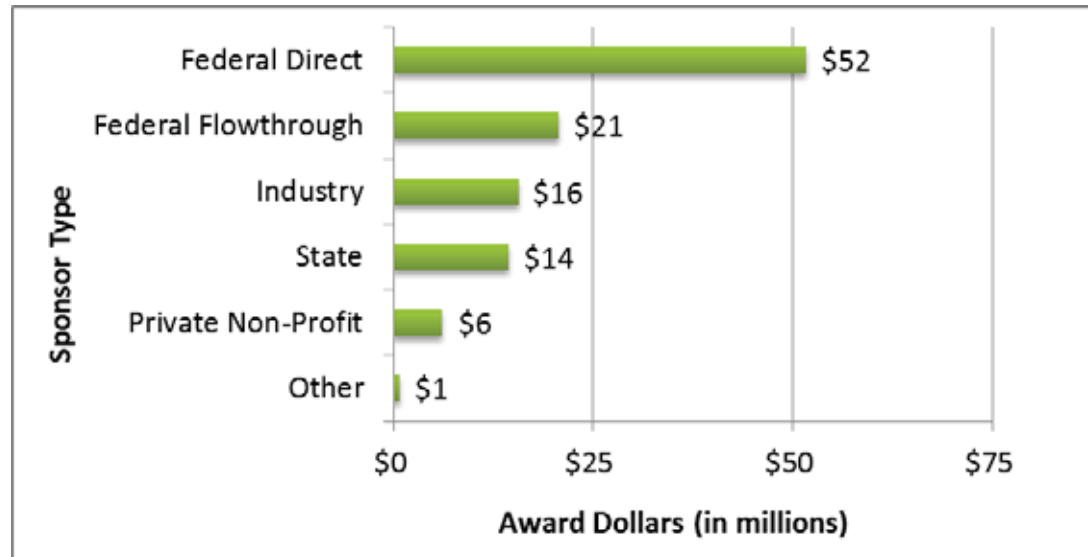

Source: UofL Research Foundation, Inc.

Source of Funds

Figure J shows sponsored research awards to the University of Louisville by sponsor type through the third quarter of FY 2017. Projections for all of FY 2017 clearly show that this will be the highest year for awards since 2011. Federal direct and federal flowthrough funding accounted for \$73 million of funding. Industry awards were the next largest at \$16 million. While federal direct are granted to UofL directly from a government agency, such as NIH or NSF, federal flowthrough occurs when, for example, these agencies award grant money to another institution such as a medical center or university and that institution uses federal grant money to pay the University of Louisville for services.

Figure J: Sponsored Research Funds Received by UofL by Sponsor Type in FY 2017 through Third Quarter

Source: UofL Research Foundation, Inc.

Table 26 breaks out federal sponsored research awards to the University of Louisville. Despite the decrease in funding for FY 2014, total federal awards to the university have increased significantly above FY 2013 levels. Funding from the National Institutes of Health has been the largest and most consistent source of federal awards over this period, averaging about 74 percent of all federal dollars. Funding from the National Science Foundation and from the Health Resources and Services Administration—which awards grants to institutions to improve and expand health care services for underserved people—are the other primary sources of federal awards to UofL.

Table 26: Federal Direct Award Dollars by Agency FY 2013 through FY 2017 Third Quarter

Federal Agency	2013	2014	2015	2016	2017 YTD Q3
National Institutes of Health	\$51,056,706	\$42,618,870	\$48,553,178	\$59,265,186	\$36,152,484
National Science Foundation	3,341,071	1,291,941	3,057,008	6,414,223	3,433,134

Use of Funds

Figure K shows sponsored program award dollars to the University of Louisville by purpose for FY 2017 through the third quarter. The vast majority, 64 percent, was used to fund research activities. Approximately 13 percent helped fund training and education activities. These training funds typically come from the National Research Service Award (NRSA), a function of the National Institutes of Health, and are designed to train individuals to conduct research and prepare for research careers. Other sponsored activity includes analytical studies and surveys, treatment analysis, and program implementation – specifically state mandated programs. Clinical trials are chiefly pharmaceutical testing and new therapy testing. Service activities include community outreach programs as well as public health screenings.

Figure K: Sponsored Research Award Dollars Received by UofL by Purpose in FY 2017 through Third Quarter

Source: UofL Research Foundation, Inc.

Sponsored Agreements – Facilities and Administrative Cost Recoveries (F&A)

All federally funded grants and contracts allow for the recovery of central administrative and infrastructure costs associated with supporting faculty, researchers, and staff funded by the grants and contracts. The Facilities and Administrative cost recovery rate, or F&A rate, is currently 54 percent.

A portion of F&A revenues fund the following research support activities:

- Research Infrastructure Funds (RIF) – Investments in infrastructure that support efforts to secure and maintain extramurally funded research programs, including departmental and individual RIFs.
- University Scholars – This program, initiated by a dean, then reviewed by a full committee, and ultimately approved by the provost and president, is used to recruit and retain faculty who exhibit substantial credentials in research. These credentials are then reviewed in three years to determine if the requirements, such as published works and grants garnered, have been met.
- Debt Service – Debt service payments on university buildings that house research activities.

Of the remaining F&A funds, 80 percent is transferred to the university for indirect expenses incurred in administering and supporting sponsored agreements. The other 20 percent is used by the Research Foundation to fund equipment purchases, research faculty recruiting packages, and other programs in support of the research enterprise.

Figure L shows budgeted F&A cost recoveries from FY 2014 through FY 2018. When a sponsored program or grant is awarded, F&A costs are typically reimbursed as a percentage of the direct costs of the project. The current negotiated federal rate for F&A is 54 percent. Being relatively consistent to the prior two years, F&A revenues in FY 2018 are expected to decrease by \$1 million.

Figure L: UofL F&A Budget FY 2014 through FY 2018

Source: UofL Research Foundation, Inc.

Hospital Affiliations

Beginning with FY 2018, hospital affiliation revenues and expenses are recognized as non-general funds. Prior to that time, these funds were categorized as general funds. Because KentuckyOne Health revenues and expenses have certain restrictions on their use, they identify as non-general funds.

In November 2012, the University, Commonwealth, UMC, and KentuckyOne Health, Inc. (KentuckyOne) revised the joint operating agreement. The arrangement gave KentuckyOne Health oversight of most day-to-day operations of University Hospital, but UMC retained ownership of its assets and continued to operate the Center for Women and Infants. Also under the plan, KentuckyOne Health was to invest \$114.5 million in key university clinical services and departments. Following a series of issues and discussions, all parties agreed to end the arrangement on June 30, 2017.

Although the agreement with KentuckyOne Health concludes at the end of FY 2017, the university will continue to utilize funds received in previous years over the next few fiscal years. These funds are designated for specific purposes and are budgeted for units on the Health Sciences Campus. The majority of these funds will be used for faculty salaries and startup packages:

- \$20.7 million from KentuckyOne Academic Affiliation agreement will sustain and enhance the University's education and research in medicine, dentistry, nursing, and public health.

UNIVERSITY OF LOUISVILLE ATHLETIC ASSOCIATION, INC.

The University of Louisville Athletic Association (ULAA) is a Kentucky not-for-profit corporation organized in 1984 for the purpose of promoting intercollegiate athletic activities of the University of Louisville. ULAA's mission to provide quality intercollegiate athletic programs through a comprehensive sports program requires a financial commitment of both operating and capital resources.

For FY 2018, the total budget for ULAA is \$104.5 million. This is \$8.1 million, or 8.4 percent, higher than the prior year primarily because anticipated post-season travel is now budgeted. In prior years, budget revisions occurred as teams were notified of their selection for post-season competition. Continued growth in marketing and ACC revenues offset the growth in the expenditure budget. Table 27 summarizes ULAA's FY 2018 operating budget.

Table 27: University of Louisville Athletic Association Budget

Revenues	FY 2017	FY 2018	FY 2017-18 Change	
			Amount	Percent
Football Program	\$34,731,000	\$39,702,000	\$4,971,000	14.3%
Papa John's Cardinal Stadium	450,000	450,000	0	0.0%
Basketball	26,723,000	29,446,000	2,723,000	10.2%
Annual Seat Donations	17,225,000	16,900,000	(325,000)	-1.9%
NCAA/Conference Distribution	1,100,000	1,100,000	0	0.0%
Marketing	10,070,000	10,598,000	528,000	5.2%
Earnings from UL Foundation	500,000	500,000	0	0.0%
Gender Equity Commitment	1,320,000	1,320,000	0	0.0%
Other	4,281,000	4,489,900	208,900	4.9%

Expenditures				
Salaries	\$34,831,300	\$36,401,300	\$1,570,000	4.5%
Fringe Benefits	7,476,000	7,396,600	(79,400)	-1.1%
Operating Expense	54,092,700	60,708,000	6,615,300	12.2%
Total Expenditures	\$96,400,000	\$104,505,900	\$8,105,900	8.4%

Source: University of Louisville Athletic Association

ULAA Revenues

- Football revenues increase by \$4.9 million due to \$3.7 million in ACC revenue, \$1 million in ticket sales, and \$500,000 in guarantees.
- Basketball revenues increase by \$2.7 million due to \$1.9 million in ticket sales and \$900,000 in ACC revenue.
- Marketing revenues increase by \$528,000 due to \$400,000 in Learfield revenue and \$128,000 from men's basketball floor seats.

ULAA Expenses

- Salaries increase by \$1.6 million, or 4.5 percent, mostly due to contractual obligations for coaches and staff and increases associated with implementation of the federal Fair Labor Standards Act.
- Operating expenses increase by \$6.6 million from FY 2017 and include:
 - \$3.1 million increase in contingency for post-season expenses, capital replacement reserve and other contingency needs;
 - \$800,000 for a new TV production facility;
 - \$745,000 for increases in financial aid related to cost of attendance, student housing and summer school;
 - \$560,000 for home event game expenses; and
 - \$393,000 for payments to the Arena Authority.

UNIVERSITY OF LOUISVILLE FOUNDATION, INC.

The University of Louisville Foundation, Inc. (Foundation), a non-profit 501(c)(3) corporation, was established in 1970 to support the university's mission. The Foundation invests and manages gifts and endowments to the university. Table 28 shows the ULF budget for FY 2017 and FY 2018. Budgeted revenues and expenses decrease by \$66.8 million year-over-year. Endowments decrease by \$51.6 million, in part, due to a change in the methodology of calculating spending policies and the exclusion of carryover from the adopted budget. Gifts decrease by \$15.8 million from FY 2017 because only anticipated carryover is budgeted in FY 2018.

Table 28: University of Louisville Foundation Budget

Revenues	FY 2017	FY 2018	FY 2017-18 Change	
			Amount	Percent
Gift Funds	\$53,486,600	\$37,671,300	(\$15,815,300)	-29.6%
Restricted Endowment Funds	75,012,600	23,414,200	(51,598,400)	-68.8%
Other Foundation Funds	20,775,600	21,357,200	581,600	2.8%
Total Revenue	\$149,274,800	\$82,442,700	(\$66,832,100)	-44.8%
Expenditures				
Salaries	\$36,046,100	\$20,359,100	(\$15,687,000)	-43.5%
Fringe Benefits	9,124,700	5,182,800	(3,941,900)	-43.2%
Operating Expenses	104,104,000	56,900,800	(47,203,200)	-45.3%
Total Expenditures	\$149,274,800	\$82,442,700	(\$66,832,100)	-44.8%

Source: ULF, Inc.

The Office for Foundation Financial Affairs is responsible for all financial and budgeting operations of the University of Louisville Foundation, Inc. and its corporate affiliates. The office invests and manages funds to support the university's education, research and service goals. The funds are used for scholarships, endowments, research chairs, grants and other academic initiatives.

Prudent investing by the Office for Foundation Financial Affairs allows the university to:

- Retain a leadership position in research, prevention, and treatment by ensuring that the university's medical professionals receive world-class training and support.

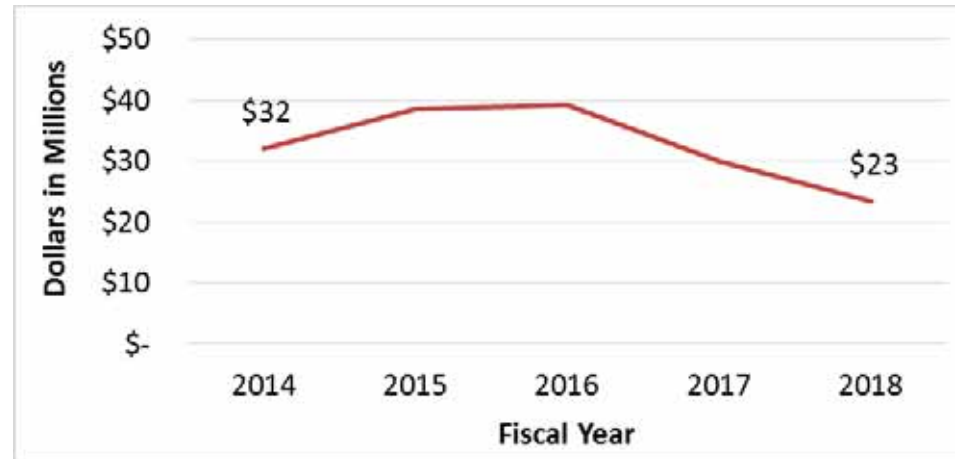

- Produce some of the nation's most prestigious scholars by providing financial support through scholarship programs that serve both financial and enrichment purposes, as well as various academic, athletic, and career pursuits during a time when public financial support for higher education has declined and education costs continue to increase.
- Be an economic engine for the City of Louisville, the Commonwealth of Kentucky, and the region by increasing the number of private sector partnerships, leveraging financial resources, and increasing research and commercialization income.

Gift Funds are contributions to the university that can be spent in their entirety. Pledges from donors, historical analysis of donation trends, and fundraisers' familiarity with the local community and alumni serve as the primary means for estimating future gifts. For FY 2018, current-use gifts are expected to total \$37.7 million. Gift budgets are decreasing by \$15.8 million, or 29.6 percent, in FY 2018.

Restricted Endowment Funds are financial assets contributed to the university by individuals or corporations with the expectation that they provide, in perpetuity, a regular source of funds to the university. Many donors who establish endowments place restrictions on how those funds can be spent. For example, some endowments may only be used on student scholarships. Other endowments may have few, if any, restrictions on their use.

"Spending policy" refers to the portion of an existing endowment that can be spent in a given fiscal year. Spending policy amounts are a function of investment rates of return for the endowment and the market value of the endowment's principal. Fiscal year 2018 spending policy will be funded from endowment carryover. If an endowment does not have sufficient carryover or no carryover at all, the spending policy will be funded by the endowment's earnings. Figure M summarizes endowment spending policy amounts for FY 2014 through FY 2018 for the university.

Figure M: Endowment Spending Policy Amounts, by Fiscal Year

Source: ULF, Inc.

Table 29 shows endowments by spending policy and expense type for FY 2018.

Table 29: FY 2018 University Endowment Allocations by Spending Policy and Expense Type

<u>Expense Type</u>	<u>Spending Policy</u>
Salaries and Fringe Benefits	\$10,665,800
Current Expenses	8,445,100
Scholarships & Fellowships	4,303,300
Total	\$23,414,200

Other Foundation Funds pay fundraising expenses and other advancement activities, including academic program enhancement, margin of excellence initiatives, and Foundation administration.

CAPITAL BUDGET SUMMARY

The Commonwealth of Kentucky requires all state government agencies to maintain a six-year Agency Capital Plan that is updated every two years. The first two years of the plan become the basis for the state biennial capital budget request to the Legislature. The six-year plan includes all contemplated new construction, renovations, research equipment, and information technology system purchases and leases, and property leases. In accordance with state statutes KRS 45.810 and 45.750, legislative authorization is required for the following types of projects regardless of funding source:

- Construction/renovation project of \$600,000 or more;
- Equipment purchase of \$200,000 or more;
- Information technology system cost of more than \$600,000; and
- Any lease more than \$200,000 per year.

Capital projects not authorized in the state's biennial budget may be authorized by the legislative Capital Projects and Bond Oversight Committee during the interim session.

In the 2016-2018 state biennial budget the university received agency bond authorization and issued \$55 million for the expansion of Papa John's Cardinal Stadium. The stadium expansion will enclose the north end of the field and add 10,000 chair back seats, 1,000 club seats, 65 premium loge level seating, 10 field level suites, and office space for football coaches and staff. When construction is complete, total stadium seating capacity will increase to 65,000. The project has begun and is estimated to be complete prior to the beginning of the 2018 football season.

Rendering of Expansion to Papa John's Cardinal Stadium

Two projects approved in the 2014-2016 biennial state budget were the construction on a new Belknap Campus classroom building and a renovated Student Activities Center (SAC), both of which began in FY 2017. The \$80 million classroom facility will be funded by the state and feature state-of-the-art classrooms and learning spaces focused on student success. Maintenance and operating expenses fall to UofL. The \$40 million SAC renovation will enhance the student experience on the Belknap Campus by providing improved dining options, university bookstore, and student-centered meeting and lounge areas.

OPERATING BUDGET FOR FY 2018

RECOMMENDATION TO THE BOARD OF TRUSTEES
CONCERNING THE PROPOSED BUDGET FOR FISCAL YEAR 2017-18

Board of Trustees – June 15, 2017

RECOMMENDATION:

The President recommends that the Board of Trustees approve the proposed University operating budget for Fiscal Year 2017-18, as attached.

BACKGROUND:

The proposed General Fund Operating Budget for the University of Louisville is \$504,858,900 for the Fiscal Year 2017-18. This is a decrease of \$43,480,600, or 7.9%, including debt service and contractual obligations.

UofL continues to embrace transparency, campus collaboration, and linkage with the strategic plan in developing a realistic budget. All campus constituencies were briefed throughout the budget development cycle as successive iterations of the proposed budget were developed and discussed.

There are four major themes in the FY 2018 Operating Budget. They served as touchstones for all major budget decisions:

1. Resolving a structural imbalance in the university's operating budget;
2. Keeping college affordable for our students by adding \$1.3 million in financial aid and scholarships;
3. Making strategic allocations that advance the mission of the university in FY 2018; and
4. Establishing a firm financial foundation for FY 2019 and beyond.

TUITION FOR ACADEMIC YEAR 2018

RECOMMENDATION TO THE BOARD OF TRUSTEES
CONCERNING TUITION INCREASES AND RELATED CHANGES FOR
ACADEMIC YEAR 2017-18

Board of Trustees – June 15, 2017

RECOMMENDATION:

The President recommends that the Board of Trustees make no increases to tuition rates for AY 2017-18. The following table shows the tuition rates for AY 2016-17 that will remain the same in AY 2017-18. This recommendation keeps with the Board of Trustees decision in August 2016 to not increase tuition rates in AY 2017-18.

TUITION RATE INCREASES:

The following Proposed Tuition Schedule lists the recommended tuition rates for AY 2017-18. As indicated, no tuition rate increases are proposed for AY 2017-18.

	AY	AY	Change	
	2017	2018	Amount	Percent
