

EXPLORATORY & TRANSITION

louisville.edu/studentsuccess

At the University of Louisville, you have the opportunity to study in more than 200 degree programs housed in 12 colleges and schools. Whether you want to major in natural science or business, music or engineering—we have an area of study that fits you. The Student Success Center Exploratory & Transition Advising team provides individualized guidance to support you in the thoughtful exploration of educational plans that meet your academic and career goals.

You will work with advisors to assess strengths and interests in order to successfully transition into your area of study. Advisors will encourage you to take an active role in exploring majors by researching academic programs and careers. We know you want to be living your best life after graduation and you need an amazing job to make that happen. The goal is to find a major and career that bring you success and enjoyment.

Another great resource for those exploring majors at UofL is the University Career Center. You will have the opportunity to participate in the Cards Career Navigator Program which links career assessments to majors and careers of interest.

CAREER OPPORTUNITIES

The National Association of Colleges and Employers reported that 95% of employers say candidate experience is a major factor in hiring decisions. The University Career Center works with students each year to find jobs and internships. Staff members can help you develop a customized job-search strategy while exploring career options before or after selecting a major. Last year, more than 8,400 students participated in career and professional development through appointments, workshops, events and career fairs.

STUDENT ORGANIZATIONS

The University of Louisville hosts more than 450 student organizations covering a wide variety of interests. These groups provide a wonderful opportunity to become involved in campus life and to connect with other students on campus.

STUDENT SUCCESS

An important piece of finding your path to success includes getting to know yourself and others. You are encouraged to get involved in activities on campus, complete internships and explore the city. Relationships with faculty, staff and other students provide important connections and help you clarify your values, interests, strengths and skills. The advisors and student success coordinators in the Student Success Center will provide you with guidance along your exploration and decision-making paths.

LIVE AND LEARN

Live and study in one of our Living-Learning or Themed Communities! Participants will have increased faculty and staff engagement, opportunities to actively engage in community-specific programs, and be exposed to campus resources relevant to their academic, personal, and/or professional endeavors. Visit uofl.me/llc to learn more.

DEGREE PROGRAMS

Exploratory & Transition Advising works with each student one-on-one to assist in selection of a major. While researching majors and professions, you are able to work with your advisor to make the best decisions for your required general education courses. Your general education classes, including written communication, natural sciences, humanities and social sciences, will help you clarify your academic interests and find your major.

*Also offered as an online degree

GENERAL EDUCATION

All students are required to take general education courses. Working with your academic advisor can help you maximize credit hours earned from these required courses:

General education courses include:

- Arts and Humanities (6 hours)
- Competency Areas in Cultural Diversity (6 hours)
- Natural Sciences with a lab (7 hours)
- Oral Communication (3 hours)
- Quantitative Reasoning (3 hours)
- Social and Behavioral Sciences (6 hours)
- Student Success Center First Year Experience (1 hour)
- Written Communication (6 hours)

TIPS FOR CHOOSING A MAJOR

- Shadow a current student who is majoring in something that you find interesting
- Think about a career you would like and work backwards to a major that helps you achieve that goal
- Take an aptitude or personality test to help you think about different career options that suit you
- Talk with your high school guidance counselor
- Connect with professionals in your area of interest on social media
- Research majors of interest online including the websites of the university's academic departments and "what can I do with a major in..."
