

Abbas Rattani, M.D., M.B.E. is a resident in the Department of Radiation Oncology at the James Graham Brown Cancer Center and an affiliated scholar of the Institute of Bioethics, Health Policy, and Law at the University of Louisville. Most recently, he served as a Paul Framer Global Surgery Research Associate at Harvard Medical School and a fellow with the Vanderbilt University Medical Scholars Program where he helped develop and lead the Global Neurosurgery Initiative. He continues to also make significant contributions in his areas of interest: health systems research ethics in low- and middle-income countries, use of short films and screenplays in medical ethics and professionalism pedagogy, Islamic bioethics, and racial justice in healthcare. Select bioethics experiences include the Johns Hopkins Berman Institute of Bioethics, the Presidential Commission for the Study of Bioethical Issues, and the United States Department of Veterans Affairs National Center for Ethics in Health Care. He received his medical education at Loyola University Chicago Stritch School of Medicine, graduate education in bioethics at the University of Pennsylvania, and completed his undergraduate studies at the University of North Carolina at Chapel Hill where he graduated with highest honors and distinction in Religious Studies and Biology.
