

- LEGEND**
- Park Drive
 - Boulevard
 - Community Street
 - Neighborhood Street
 - Commercial Street
 - Alley
 - Existing Street Rebuilt

The Legend above outlines all new street construction except the final category *Existing Street Rebuilt*. In this instance the existing street is to be removed and a new street constructed to the same grades and lines as the existing, adjusting for proposed new widths and right-of-ways. Rebuilt streets will have new curbs, new paving surface (using existing subgrades and subbase where appropriate), new sidewalks, street lighting and street trees. New utilities will be constructed as required.
