Annexation with Louisville occurred in 1837 and independence again in 1842. In 1852 Portland voters agreed to annexation with Louisville once again. The '37 & '45 floods devastated Portland. Although a floodwall and interstate separate Portland from its river bank, its history is rich with waterfront ties.

Summary

Resident Survey and Public Workshop

Residents of the Portland neighborhood submitted responses to the Quality-of-Life Self-Assessment Survey, the major results of which are shown on the earlier “Survey Results” page of this snapshot. Additionally, an enthusiastic group of 12 neighbors attended a resident workshop on November 30, 2004. The meeting brought together Portland residents, representatives of the Louisville Metro Department of Neighborhoods and planners and workshop facilitators from the Louisville Community Design Center.

The primary result of this public workshop and the residents’ energies is the Action Matrix*. In addition to being a “To-Do List” of neighborhood improvement projects, this document outlines sustainable partnerships between Portland and all the identified entities, such as Metro Louisville agencies and private business organizations, who can continue to help each other realize their common goals of a healthier, more prosperous neighbor-

** Action Matrix is the table of projects, potential partners and implementation schedule for neighborhood goals.*
