

Center for Integrative Environmental Health Sciences,
Department of Pharmacology & Toxicology and
University of Louisville Superfund Research Center
Presents EHS Seminar with Special Guest

Ana Navas-Acien, MD, MPH, PhD

*Presentation Entitled:
"Metallomics: a powerful
tool to advance medicine
and public health"*

Dr. Ana Navas-Acien is a physician-epidemiologist with a specialty in Preventive Medicine and Public Health and a PhD in Epidemiology. Her research investigates the long-term health effects of environmental exposures (arsenic and other metals, tobacco smoke, e-cigarettes, air pollution), their interactions with genetic and epigenetic variants, and effective interventions for reducing involuntary exposures. She collaborates with major cohort studies such as the Strong Heart Study, a study of cardiovascular disease and its risk factors in American Indian communities, and the Multi-Ethnic Study of Atherosclerosis (MESA), a study of cardiovascular, metabolic and lung disease in urban settings across the US.

Thursday, September 1 | 11 AM ET
Attendance In-person: CTRB 124
