

*The Center for Integrative Environmental Health Sciences and
The Department of Pharmacology & Toxicology
Presents Environmental Health Science Seminar with Special Guest*

Xinliang Ma, M.D., Ph.D.

**Presentation Entitled:
"Two Faces of
Adipocytes in Ischemic
Heart Injury: Molecular
Mechanisms and
Therapeutic Targets."**

Dr. Ma is a Professor in the department of Emergency Medicine at Thomas Jefferson University, Philadelphia, PA. His research primarily focuses on the molecular mechanisms and therapeutic targets of myocardial ischemia/reperfusion injury and ischemic heart failure. Dr. Ma has garnered several prestigious awards, including the Excellent Cardiovascular Research Award from the American Heart Association (AHA) and the Distinguished Achievement Award from the AHA BCVS Council.

Thursday, September 5 | 11 AM ET
Attendance In-person: CTRB 124
