

*The Center for Integrative Environmental Health Sciences
and The Department of Pharmacology & Toxicology
Presents EHS Seminar with Special Guest*

Yvonne Fondufe- Mittendorf, Ph.D.

**Presentation Entitled:
"3D chromatin
structure at the
intersection of
Toxicology and Disease"**

Dr. Fondufe-Mittendorf is a Professor in the department of Epigenetics at the Van Andel Institute, Grand Rapids, Michigan. Since 2011, Dr. Fondufe-Mittendorf has spearheaded an independent research program at the nexus of chromatin biology, RNA biology, environmental toxicology, and cancer. Her lab, supported by three NIH grants and a National Science Foundation grant, has garnered extensive recognition through publications and prestigious awards, including the NIH-Maciag award and features in prominent scientific platforms.

Thursday, March 7 | 11 AM ET
Attendance In-person: CTRB 124
