As a measurement of unit-level involvement and progress in community engagement, the Office of Community Engagement (OCE) and the Office of Academic Planning and Accountability established an annual planning process for all of colleges, schools, and applicable administrative units to develop goals, strategies, and targets for the assessment of the unit's community engagement mission.

The Office of Community Engagement is available to assist you developing or updating the Community Engagement Plan for your unit. For assistance please contact Henry Cunningham, PhD, Director of Community Engagement.
