

Service-Learning Institute

The service-learning institute is a two half day program designed to assist faculty in developing a new service-learning course or modify an existing course to include a service-learning component. At the end of the two days, you will have ideas and plans for your course to give you a jump start for the next semester.

The Service-Learning Institute will be delivered fully online via Microsoft Teams synchronously. Additional support will be provided asynchronously as necessary. All faculty members and graduate students are invited to participate.

Date: June 28 & 29
