

4 L's of Chemical Hazardous Waste Management

Waste container....

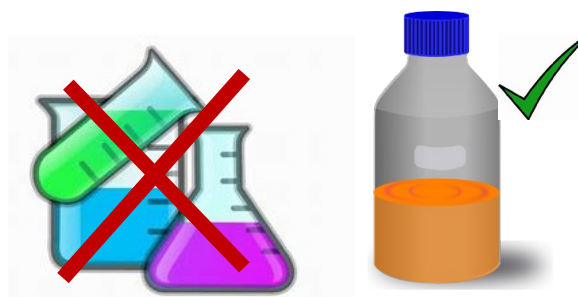

L Location... must be at or near the point of process generating waste (e.g. *same room waste is generated in*).

L Label... must be clearly labeled as “Hazardous Waste,” constituents, and hazard classes (i.e. Flammable, Toxic, Corrosive, Oxidizer, Water-Reactive, etc.).

L Lid... must have a securely fitting lid. Also, lid must be CLOSED except when adding or removing waste.

L Limit... amounts accumulated on-site must be less than 50 gals (200 L) or 400 lbs (180 kg) of non-acute hazardous waste or 1 quart/1 kg of highly toxic [EPA P-Listed] hazardous waste.
