## How to Submit a Hazardous Waste Pickup

1.) Go to https://louisville.chematix.com/Chematix/
2.) Click Login to Chematix
3.) Click Waste on the black ribbon at the top of the page.
4.) Click Create Waste Card
5.) Click SPENT CHEMICALS or UNUSED CHEMICALS or a Waste Card Hotlist

Note: Spent Chemicals breaks down the chemical composition by percentage. Unused Chemicals assumes the chemical composition is $100 \%$. When submitting Unused Chemicals, submit the product name in place of the chemical name if there are more than one chemical. If needed, see Chematix Quick Reference Guide How to Add Chemicals to the Chemical Abstract Database (CAD).
6.) Select Lab Location. If location isn't listed, click the Waste Tab, and then click Assign my Waste Location

If needed, see Chematix Quick Reference Guide How to Assign Your Location.

Enter the following information to describe the waste.

- Location of Waste - Container Size/Unit - Physical State - \#
 of Identical Containers - Description of Process Generating the Waste in Comment Box Chemical Composition down to Trace Amounts
7.) Click Generate Waste Card on the bottom left.

NOTE: Information on a waste card is not saved until Generate Waste Card is clicked. If the waste cards are created successfully, you will automatically go to the below screen.
8.) NOTE: At this point the waste card is saved but not submitted for pickup. You can submit it for pickup at a later date if you want to. If finished creating waste cards and you don't have an attachment to upload, click Prepare Pickup.

DON'T FORGET TO SELECT "Prepare Pickup"

Submitted Date: $02 / 27 / 2023$ 16:14
WORKSHEET\# 2023-0094
11.) Please use one of the options on the next page when labeling containers with the unique tracking number. In the example to the right, the tracking number that's under "Waste Card Barcode" is the automatically generated unique tracking number.

Please use one of the below options when labeling containers for pickup. This is for pickup purposes only. These do not satisfy regulatory requirements for labeling hazardous waste.

## Option 1

1.) Click Reprint All Waste Cards
2.) Print out Waste Card(s)
3.) Tape each Wase Card to the applicable container.

## Option 3

1.) With a permanent marker, legibly write the unique tracking number on the DEHS provided accumulation labels.

## Option 2

1.) Click Print Pickup Worksheet
2.) Print out the Worksheet
3.) Cut out each unique tracking number
4.) Tape each unique tracking number to the applicable container.

## Option 4

1.) With a permanent marker, legibly write the unique tracking number on a piece of lab tape.

Please contact John Morris at 852-7138, john.morris.3@louisville.edu or Cathy Price at 852-2956, cathy.price@louisville.edu with any questions or concerns.
