Welcome!

The University of Louisville School of Dentistry (ULSD) wishes to extend a warm welcome to you! We appreciate the confidence and trust you have placed in us by asking for a new patient evaluation appointment.

Your new patient appointment will be scheduled and sent on an appointment card. You may also call the school to check the time of your appointment. Please plan to arrive 30 minutes prior to your scheduled appointment to ensure adequate time for parking and completion of additional paperwork and health screening. A preview of new patient paperwork is on our website at http://louisville.edu/dentistry/patient-care/patient-information/new-patient-packet. Please also see Patient Rights & Responsibilities on the website. You are not required to complete the paperwork prior to your arrival, as all signatures will be recorded electronically when you check in. It can be beneficial to complete the Health History Form prior to your arrival, to save time.

As a school, we strive to ensure our students become responsible professionals. As a patient of the School of Dentistry you agree to help ULSD provide our students the opportunity to deliver quality, patient-centered, oral health care with compassion and respect.

The School requests that all new patients be scheduled for a new patient evaluation appointment. The evaluation appointment will take approximately 90 minutes. At this first visit, the School will have the opportunity to assess your dental needs, address any health concerns and make the determination if your dental needs can be met by dental students. The School may request additional information from your medical doctor(s) before making that decision. Medical consultations take time to send and receive back the information requested. Depending upon your medical and dental needs, there may be times, except in emergency cases, when dental treatment can only begin after a medical consultation has been received. Patients may be assigned to either the student dentist or the graduate/specialty care program depending upon the above mentioned considerations.

The cost of this new patient evaluation appointment is $55. The $55 covers the cost of one x-ray (panoramic film). If you do not become a patient of the School, the $55 is not refunded, but you may request a copy of the panoramic image. ULSD accepts cash, Visa, MasterCard, Discover and American Express payments for the first visit.

After the New Patient Evaluation

If a determination is made that your needs match with a program at the School, then you will be given information about the appropriate program. You may match with either the student dentist or the graduate/specialty care program. Cost for dental treatment in a graduate program is higher than in the student dentist program. Although the School understands that cost may be a factor in your decision to seek care with us, the decision on your assignment is based on the complexity of your dental needs and your overall medical history. All major insurances are accepted and an interest-free payment plan is available.

Your Health History

Enclosed is a health history form. Please bring this completed form, a list of any medications you are taking and the name and phone number(s) of your medical doctor(s) along with this letter with you to your evaluation appointment. If you have radiographs, either digital or film-based, please provide copies prior to your appointment. Digital radiographs of high-quality are preferred; however, all formats are accepted. Mail copies to: Records Room, School of Dentistry, University of Louisville, 501 S. Preston St., Louisville, KY 40202.

To Our Patients...

Patient Care Information
Educating dental practitioners is an important mission of the School. Therefore, patients are accepted for treatment in the student clinics if their treatment needs are appropriate to satisfy educational objectives. Each patient is assigned to a dental student for general dental care. Once a patient is assigned to a comprehensive care group, they are contacted for additional appointments. Upon completion of treatment, patients are appointed for regular cleanings and examinations to keep their teeth and gums healthy.

Your Responsibilities
As a patient, please understand that the School of Dentistry is an educational institution where all students, faculty, staff and patients are accepted regardless of age, race, nationality, gender, reprisal, religious, disability, family, social status, or sexual orientation. It is our responsibility, as well as yours, to treat everyone in the clinic with courtesy and respect.

Please remember: Being a patient of the dental school may require more visits than private practice. Patients need to be available for a three-hour appointment at least twice a month.

*If your dental needs are too complex for the student clinics, you may be referred to an advanced education program, or to private practice to better suit your dental needs.

Emergency Care
All patients are eligible for urgent care at the School of Dentistry.

Emergencies are by appointment or walk-in.

The ULSD Emergency clinic can be reached at 502-852-5096. Assigned patients may also call their dental student.

For emergency care after 5:00 PM on weekdays, and on weekends and holidays, our patients should call 502-852-5096 for information on how to receive care.

Fees and Insurance
There will be a charge for the services you receive. Patients are required to pay for services at the time treatment is provided.

The School accepts cash, debit cards, all major credit cards (Visa, MasterCard, Discover and American Express) and most dental insurance plans. Our Patient Services staff will assist you in processing your insurance claims. A contractual payment plan can be arranged with a minimal down payment and monthly installments.

Student clinic fees are generally lower than private practice. Treatment is provided with personal attention and supervision, however, students will take significantly longer than a private dental practice.

Location and Parking
The School of Dentistry entrance is located at 452 E. Muhammad Ali Blvd. on the University of Louisville Health Sciences Campus. The School is located on TARC bus lines, providing easy accessibility.

Patient pay parking is located inside the UofL Health Care Outpatient Center parking structure located at 414 E Chestnut St. Limited metered street parking is located on Muhammad Ali, Preston, and Chestnut Streets. The School is handicap accessible, and limited handicapped parking is available near the entrance.

To better serve our patients, the School of Dentistry provides a free shuttle service for pick up and drop off from the Chestnut street parking garage and the School of Dentistry patient entrance. The UofL shuttle runs approximately every 15 minutes. We hope this will assist in your visit to the school!
Advanced Education Programs

Please ask for a one-hour parking voucher from the main entrance receptionist.

Advanced Education Programs

Advanced Education programs are offered at the School of Dentistry to resident dentists. Residents have already graduated from Dental School and are continuing their education in a specialized field. Fees for services provided by resident dentists are generally about 20% less than those in a private dental practice.

Special Patient Situations

The School of Dentistry offers a variety of programs and services to accommodate most patient needs. For patients with complex treatment needs, or for whom time is a concern, care is available at a slightly higher fee in the following Advanced Education Programs:

UNIVERSITY OF LOUISVILLE SCHOOL OF DENTISTRY
APPOINTMENT OF PERSONAL REPRESENTATIVE/INDIVIDUALS INVOLVED IN CARE TO RECEIVE PROTECTED HEALTH INFORMATION

You may rely upon your spouse, relatives or friends from time to time to understand your treatment options, visit your health care providers, acquire prescriptions, get test results, and otherwise be involved in your medical care. However, federal law does not allow us to disclose any of this information to these people unless you appoint them as your “personal representatives.”

The School may share medical information about you with your family members, friends or any other persons you tell us who are involved in your dental care or who help pay for your dental care.

These individuals may: (please check all that apply)

- Make/verify appointments
- Discuss financial matters
- Receive messages
- Discuss treatment options
- Pick up requested information
- Bring my minor child to their appointments: [Generally, minor children must be accompanied by a parent and/or legal guardian. However, children between the ages of 13-17, with a signed treatment plan (tx plan signed by parent/guardian) may continue non-invasive treatment without a parent being present. In an emergency situation, consent for treatment may be granted by phone as time allows.]

List all individuals who may be involved in your care and/or the care of your minor child. Please note that you can add and/or remove individuals at any time.
