TRANSFORMATION CENTER

DIGITAL CREDENTIALS

Discover the future of learning with micro-credentials and digital credentials at UofL!

Faculty

- Build upon and enhance your curriculum by embedding micro-credentials into your courses.
- Partnering with global tech giants like IBM, Google, LinkedIn Learning, and Microsoft, UofL's Digital Transformation Center can bring cutting-edge skills to your classroom.

Staff

- Take professional development and upskilling to the next level through our programs.
- Micro-credentials can be used to develop industry aligned competencies that stack toward higher education qualifications.

Students

- Prepare yourself to be workforce ready by acquiring the skills and competencies to stand out.
- Showcase your digital literacy and expertise through our Digital Credential badges.

Community

- Micro-credentials offer scalable learning, allowing continuous skill enhancement for all members of the community.
- The Digital Transformation Center empowers you to upskill and reskill those in the commonwealth creating new career opportunities for them.

ABOUT THE DTC

The University of Louisville Digital Transformation Center transforms the access, awareness, design and use of digital technology to enhance learning and discovery in the commonwealth. We provide future-focused curricula and educational tools to embrace digital agility and train today's and tomorrow's workforce in fast-growing technology areas.

Our Mission is to empower the future of learning, research, and technology through collaboration, community of practice and partnerships.

The University of Louisville Digital Transformation Center (DTC) is committed to fostering an equitable space for everyone to have access to and opportunities for technology empowerment, advanced skilling, and academic development. The DTC understands that the future of innovation relies on inclusive opportunities for all, from various backgrounds, to contribute to the ever-changing technological landscape. As the DTC innovates transformation in research, learning, and community initiatives, equitable representation, inclusion, and technology belonging are top priorities in our mission, as we work to align the DTC's mission with the University of Louisville's overall Diversity, Equity, and Inclusion statement.

For more information, email us at digtrans@louisville.edu.

“There are currently thousands of digital credentials available via the Digital Transformation Center's one stop web portal. The DTC is here to encourage and empower upskilling/reskilling. The goal is to arm the world for lifelong learning in technology.”

— DR. SHARON KERRICK
ASSISTANT VICE PRESIDENT
