This coursework fulfills the State Board of Psychology's educational requirements to apply to sit for the exam for Psychological Associate.

Prerequisites: Required prior to or immediately upon admittance are completion of prerequisite courses, either at the undergraduate or graduate level, in four different areas: 1) human or lifespan development; 2) abnormal psychology; 3) social psychology; and 4) a course in either statistics, research methodology or experimental design. These courses will be "leveling courses" and students will not be allowed to transfer credit from these courses into their course of study.
