### Summerbridge

The primary purpose of Summerbridge Louisville is to prepare and support talented, under-resourced middle school students for greater academic success. We are a free, 6-week, full day academic enrichment program with the morning session focused on the basics: Math, Language Arts, Science and Critical Thinking Skills. We place the students in small classrooms (5-8) so that more attention can be given to their progress. The afternoon session will include a variety of programming: dance, drama, chess, cooking, as well as collaborations with Peace Education, Young Authors Greenhouse, the Food Literacy Project, and more! Our goal is to keep them engaged the entire day! Classes are taught by college student teachers with an emphasis on small classroom learning which provides a unique learning environment; our teachers also become role models and mentors. We typically serve 50 students each summer. We prefer that students come for two summers if possible.

months prior to the camp to develop activities that will introduce participants to the camp theme, content and expectations.

Three days prior to the camp the teaching staff meet to participate in activities designed by the leaders and to develop specific curriculum for their classes. During the one-week camp, students entering grades four through eight work with their teaching team to explore topics and enrichment-based learning activities centered on the camp's theme. The 2021 theme is "Puzzles, Codes, and Enigmas." At the end of the week, students showcase their work for parents and other interested adults at an open house.

We will be following CDC and UofL safety guidelines throughout the camp week. Consequently, we will only be able to offer admit to the first 24 campers to register, allowing no more than 8 campers assigned to a room. Each camper will be issued a mask to go with their t-shirt and will have their own dedicated box of supplies. The first Summer Enrichment Camp (previously known as the Summer Portfolio Institute) was held in 1995 and has continued to grow with each passing year. The Summer Enrichment Camp is currently under the direction of Dr. Caroline Sheffield and Dr. Ashley Arnold in the Department of Elementary, Middle, and Secondary Teacher Education.

If you have questions regarding the camp, please email Dr. Caroline Sheffield at [caroline.sheffield @louisville.edu](mailto:caroline.sheffield@louisville.edu) (or call at 502-852-0575). **In any email correspondence, please include "Write One Camp" in the subject line.**

No applications will be accepted without payment. Please make the check payable to University of Louisville. This fee is non-refundable. Mail a completed registration form, completed video release form and check to:
