Personality profile, interests, etc.

I have had my DJ side business since 2013, providing entertainment for weddings, parties, and other celebrations/events. I also work for a local coffee business, Berserker Brew. I enjoy weightlifting/body building, staying very active and live a well-balanced, healthy life. My interests are: sports (soccer is my favorite), traveling (I want to travel to as many countries as possible and do all 50 states by age 50), music (all genres) and attending music festivals, outdoors (hiking, biking, running, laying in my hammock), spending time with my 5 favorite tiny humans (4 nieces and 1 nephew), food (any and all food, I'm not picky), volunteer (I hold several leadership roles within the community and professional development), and exploring the local community (an active Yelp Elite!)
