Attracting research interest

Pfizer Inc. chose UofL for its **first Center of Excellence** for research related to vaccine-preventable diseases affecting adults, positioning UofL to continue its important role in epidemiological research. The **National Institute of General Medical Sciences** looked to UofL to set up a Center for Cancer Immunology and Immunotherapy. The university will use **National Security Agency** funding to launch a curriculum to increase health care cybersecurity, with military veterans and first-responders the first to be trained.

Earning “A” for access

UofL was recognized as **one of only three** top U.S. universities that provide equal access to both Black and Latino students. A report by Washington, D.C.-based nonprofit Education Trust examined how well each school’s Black and Latino undergraduate enrollment reflects its state’s racial and ethnic makeup. UofL earned access **scores of 100** for both.
Stepping up to challenge

From studying illness to administering vaccines, UofL left its footprints all along the way in the COVID-19 fight. Engineering students geared up to produce 3D printed face shields for health care workers, business students launched a company for reusable face masks, and others developed a decontamination process to stem a mask shortage. Researchers with the Co-Immunity Project track the infection’s spread across different parts of Louisville, while another team worked with Metropolitan Sewer District to track COVID via wastewater.

Prepping for the future workforce

UofL students working alongside researchers gain a boost toward tech-based jobs of tomorrow. Well before graduating, they amass valuable experience with projects such as rehydrating blood in space, developing next-generation manufacturing technology, examining vaping and nicotine effects on youth and advancing carbon dioxide reduction.

### Fighting inequality

In a year marked with national and local justice protests, President Neeli Bendapudi declared UofL’s objective of becoming the nation’s premier anti-racist university. The School of Medicine set up an endowed fund to combat racial inequality, while the College of Business and the Kentucky Distillers’ Association partnered to increase diversity in that industry.

Generosity toward community

Plunging right into community service, students improve the city in which they study and even compete. raiseRED, our annual danceathon and largest student fundraiser, brought in a record $690,921 to fight pediatric cancer. Student athletes also won an NCAA Team Works award competition for outstanding community service for the second time.

Serving the needs of our neighborhoods

Working together to help communities better serve their citizens, UofL forged partnerships to increase health care options and to educate younger students. A collaboration with West Kentucky Community and Technical College will expand dental care in western Kentucky, while a residency program with Jefferson County Public Schools is intended to increase the pool of diverse teachers.
Tackling the Grand Challenges

As a top-tier research university engaged with its community, UofL is uniquely positioned to take on the Grand Challenges of our time through research and scholarship. By Empowering Our Communities, Advancing Our Health and Engineering Our Future Economy, UofL is creating meaningful solutions to create a thriving future for Louisville, for Kentucky and for the world.
