

ULARP REPORT TO FACULTY SENATE 1 March 2023

Elaine Wise, Liaison to Faculty Senate

Mary Rising, President, reported that the Employee Success Center's Retiree Reception on 8 December 2022 went well. Next year, ULARP will donate a free membership as a gift give-away. The President's Office has agreed to sponsor the ULARP Annual Luncheon on 14 June 2023, at the University Club, and will use that opportunity to speak briefly and to hold a listening session with ULARP members and attending retirees so they can share their questions, suggestions, and concerns.

Virginia Hosona will join the Board as representative to the Staff Senate, and Ginger Brown Munden will join the Board as representative from the University Club Board. The Board is in process of nominating and electing officers for next year.

Workday training for retirees has not yet been scheduled. We are told the priority is low because most retirees require access only for benefits enrollment.

The Board believes the University needs to maintain a list of up-to-date email addresses for retirees so that the University can maintain periodic contact with all retirees, as potential donors, mentors, collaborators, and supporters. Many continue to serve as scholars, benefactors, fans, and community leaders long after retirement. Such a contact list should be a priority.

An updated membership directory is in process of compilation. This printed directory will include all members who have indicated their approval for inclusion. The next ULARP Newsletter will be published in April.

The next Wellness Seminar is scheduled for April 4, 11:00 am, at the University Club. It will feature Laura Morton on the topic of Sex After 60. A seminar on Estate Planning has been suggested for Fall.
