

Redbook Committee Report

February 2017

1. The Redbook Committee has brought changes to the **Speed School bylaws** for their first reading and brings them for the second reading and vote. The bylaws changes were made facilitate electronic voting and to clarify a few points.
2. The Redbook Committee has brought changes to the **School of Dentistry's bylaws** for their first reading and brings them for the second reading and vote. They include the renaming of the postgraduate committee and the creation of a diversity committee. Some minor changes the Committee requested were approved and it is bringing those documents to the Senate for a first reading.
3. The Committee has completed its review of the **Speed School's promotion and tenure document**, and sent comments back to the unit, which has been delayed in voting by a few technical issues. We expect to bring these to the Senate in March for their first reading.
