Redbook Committee
Report to Faculty Senate
May 5, 2021

The Redbook Committee will put forward the revised bylaws of the School of Nursing and the Speed School of Engineering for a second reading and vote at the Faculty Senate meeting in May.

The committee was asked by David Schultz, Faculty Senate Chair, to provide an opinion on the role of Faculty Senate in reviewing the closure of program tracks that do not generate degrees but that require teach-out plans approved by SACSCOC. Based on an analysis of relevant policies, we believe that the Senate should have the opportunity to review such closures. This feedback was sent to Senate leadership, and we are also awaiting an opinion from the General Counsel's office.

Respectfully submitted,
Rob Detmering, Chair
