

Redbook Committee
Report to Faculty Senate

September 7, 2022

Over the summer, the Redbook Committee completed its initial review of the revised School of Nursing Personnel Document and sent feedback to SON. The committee will conduct a final review of the document after SON submits an updated version.

The committee was also asked to review a minor editing error in the recently approved CEHD Bylaws. The committee accepted CEHD's correction and determined that a new Senate vote was unnecessary. This correction will be presented as an informational item at the Senate meeting in September.

The committee expects to receive proposed revisions to the Redbook from Faculty Affairs within the next few months. The incoming Redbook Committee, in collaboration with Senate officers, will need to develop a plan for reviewing the proposed revisions.

Respectfully submitted,

Rob Detmering, Chair
