

University of Louisville - Faculty Senate (FS) - Academic Programs Committee

Committee report for October 3, 2018 FS meeting

Prepared by Chin Ng, Associate Professor of Radiology (Medicine) - Committee Chair

The Academic Program Committee (APC) met on 9/12/2018 (Wednesday) to receive charges from Krista Wallace-Boaz, Faculty Senate Chair. Chin Ng was elected to be the Chair of APC and Robert Barker to be the liaison to the FS Executive Committee. The election of a Representative to the Undergraduate Council was postponed until further information about the frequency of its meeting and responsibilities would be identified. Tentatively, APC will meet between 2 pm and 3 pm in the Ekstrom Library first week of each month, immediately before the FS meeting.

Note: It was later discovered that the Undergraduate Council was dissolved in 2017, so an APC representative is no longer needed.

APC voted via email on accepting a revised proposal on MS in Bioengineering which will be presented to the full senate for voting in the next monthly meeting (November 7th, Wed). All faculty senators are encouraged to read the proposal posted on line and to bring questions to the next FS meeting.
